### Permit Selection Change Coordinates

You have opted to specify preferred site coordinates which differ from the allotment reference coordinates for construction permit MM-FM444-A. The preferred site coordinates represent the intended location for your FM facility should you become the winning bidder for construction permit MM-FM444-A. Any preferred site coordinates that are submitted in your Form 175 will be protected from subsequently filed applications.

Applicants should be aware that a post-auction long form application filed for a preferred site will not be authorized unless (1) the preferred site meets the pertinent minimum distance separation requirements with respect to all other authorized FM allotments and assignments and (2) the FM facility constructed at the site would provide a minimum field strength of 70dBu over the entire principal community to be served. See 47 C.F.R. §§ 73.207, 73.213, 73.215 and 73.315. Use the following form to specify your preferred site coordinates.

## Auction Application Manager Upfront Payment Calculator

### Calculating Your Upfront Payment

Applicants are solely responsible for determining the amount of their upfront payment. In most FCC auctions, the amount of the upfront payment determines initial bidding eligibility. The upfront payment calculator may assist applicants in determining an amount. However, regardless of whether they use the upfront payment calculator, applicants should check their calculations carefully, as there is no provision for increasing a bidder's eligibility after the upfront payment deadline.

The following table lists all available Permits based on selections in your submitted Auction Application. The upfront payment calculator will help you to determine the appropriate upfront payment amount to submit with your Form 159. Use of the upfront payment calculator is always optional; you can type another amount in the Total Upfront Payment field or Total Bidding Units field, if desired. Please refer to the Auction 62 [Procedures](#) public notice for a complete explanation of upfront payments and bidding eligibility.

To calculate the total upfront payment amount to submit with your Form 159, do the following:

1. Select all Permits for which you would like to place bids during the auction. The calculator will automatically calculate the total bidding units (maximum eligibility) and upfront payment amount for those Permits.
2. To save the total upfront payment amount and carry it through to Form 159, click the "Carry to 159" button.

Please note that if you selected 1,000 or more Permits, the calculator will not display the list or keep a running total of bidding units. If you have selected 1,000 or more Permits, simply type in the total number of bidding units for which you want to establish your maximum eligibility. The calculator will then automatically calculate the corresponding upfront payment amount.
