Common Questions

[When is my data saved during the data entry process?](#)

[What is the difference between a warning and an error?](#)

[What is the specific rule governing agreements, arrangements, and the like?](#)

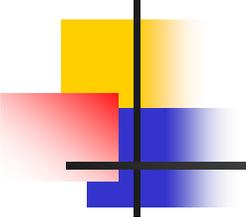

Agreements with Other Parties and Joint Bidding Arrangements

- Anti-Collusion Rule: Unless properly disclosed, communications concerning bids, bidding strategies, or settlement agreements (including post-auction market structures) generally are prohibited among applicants that bid for licenses in any of the same geographic areas (Section 1.2105(c)).
- Prohibition period is between the short-form deadline – October 7, 2005 at 6:00 p.m. - and the down payment deadline (Section 1.2105(a)(2)(ix)).

Agreements with Other Parties and Joint Bidding Arrangements Continued

- To be in compliance, applicants must certify under penalty of perjury that they have not entered and will not enter into any explicit or implicit agreements, arrangements or understandings of any kind with any parties other than those they have identified regarding the amount of their bids, bidding strategies or particular licenses on which they will or will not bid.
- The rule prohibits an auction applicant from discussing a competing applicant's bids or bidding strategies even if the first applicant does not discuss its own bids or bidding strategies.

Agreements with Other Parties and Joint Bidding Arrangements Continued

- For the anti-collusion rule, “applicant” includes controlling interests, ownership interests, and officers and directors.
- Applicants must identify all parties with whom they have entered into agreements of any kind relating to the licenses being auctioned, including post-auction market structure (Section 1.2105(a)(2)(viii)).
- The rule requires auction applicants that make or receive a prohibited communication of bids or bidding strategies to report the communication immediately to the Commission in writing.

Auction Application Manager Upfront Payment Calculator

Calculating Your Upfront Payment

Applicants are solely responsible for determining the amount of their upfront payment. In most FCC auctions, the amount of the upfront payment determines initial bidding eligibility. The upfront payment calculator may assist applicants in determining an amount. However, regardless of whether they use the upfront payment calculator, applicants should check their calculations carefully, as there is no provision for increasing a bidder's eligibility after the upfront payment deadline.

The following table lists all available Licenses based on selections in your submitted Auction Application. The upfront payment calculator will help you to determine the appropriate upfront payment amount to submit with your Form 159. Use of the upfront payment calculator is always optional; you can type another amount in the Total Upfront Payment field or Total Bidding Units field, if desired. Please refer to the Auction 259 [Procedures](#) public notice for a complete explanation of upfront payments and bidding eligibility.

To calculate the total upfront payment amount to submit with your Form 159, do the following:

1. Select all Licenses for which you would like to place bids during the auction. The calculator will automatically calculate the total bidding units (maximum eligibility) and upfront payment amount for those Licenses.
2. To save the total upfront payment amount and carry it through to Form 159, click the "Carry to 159" button.

Please note that if you selected 1,000 or more Licenses, the calculator will not display the list or keep a running total of bidding units. If you have selected 1,000 or more Licenses, simply type in the total number of bidding units for which you want to establish your maximum eligibility. The calculator will then automatically calculate the corresponding upfront payment amount.
