### Change Coordinates

You have opted to specify preferred site coordinates which differ from the allotment reference coordinates for construction permit MM-FM507-A. The preferred site coordinates represent the intended location for your FM facility should you become the winning bidder for construction permit MM-FM507-A. ### Upfront Payment Calculator

#### Calculating Your Upfront Payment

Applicants are solely responsible for determining the amount of their upfront payment. In most FCC auctions, the amount of the upfront payment determines initial bidding eligibility. In calculating an upfront payment amount, an applicant should determine the maximum number of bidding units on which it may wish to be active (bid on or hold provisionally winning bids on) in any given round, and submit an upfront payment amount covering that number of bidding units. The upfront payment calculator may assist applicants in determining an amount. However, regardless of whether they use the upfront payment calculator, applicants should check their calculations carefully, as there is no provision for increasing a bidder's eligibility after the upfront payment deadline.

The following table lists all available permits based on selections in your submitted FCC Form 175. The upfront payment calculator will help you to determine the appropriate upfront payment amount to submit with your Form 159. Use of the upfront payment calculator is always optional; you can type another amount in the Total Upfront Payment field or Total Bidding Units field, if desired. Please refer to the [Auction No. 70 Procedures](#) public notice for a complete explanation of upfront payments and bidding eligibility.

Eligibility is not permit specific. You do not have to make an upfront payment to cover all permits for which you have applied on FCC Form 175, but rather to cover the maximum number of bidding units that are associated with permits on which you wish to place bids and hold provisionally winning bids in any single round. In order to calculate a total upfront payment, an applicant should add together the bidding units for all permits on which it seeks to be active in any given round, and submit an upfront payment amount covering that number of bidding units. Please refer to the [Auction No. 70 Procedures](#) public notice for further explanation.

To use the Upfront Payment Calculator, do the following:

1. Select all permits on which you seek to be active in any given round. The calculator will automatically calculate the total bidding units (maximum eligibility) and upfront payment amount for those permits.
2. To save the total upfront payment amount and carry it through to Form 159, click the "Carry to 159" button.

Please note that if you selected 1,000 or more permits, the calculator will not display the list or keep a running total of bidding units. If you have selected 1,000 or more permits, simply type in the total number of bidding units for which you want to establish your maximum eligibility. The calculator will then automatically calculate the corresponding upfront payment amount.

#### About the Former Defaulter's Calculation

The upfront payment amount required for former defaulters may be higher than that for applicants who have never been in default. The upfront payment calculator will adjust the upfront payment amount accordingly. Refer to the Procedures PN for more information.
