

Information and Instructions

**FCC Application for Wireless Telecommunications Bureau
Radio Service Authorization**

**NOTICE TO INDIVIDUALS REQUIRED BY THE PRIVACY ACT OF 1974 AND
THE PAPERWORK REDUCTION ACT OF 1995**

We have estimated that each response to this collection of information will take on average 1.25 hours. Our estimate includes the time to read the instructions, look through existing records, gather and maintain required data, and actually complete and review the form or response. If you have any comments on this estimate, or on how we can improve the collection and reduce the burden it causes you, please write the Federal Communications Commission, AMD-PERM, Washington, DC 20554, Paperwork Reduction Project (3060-0798). We will also accept your comments via the Internet if you send them to jboley@fcc.gov. *Please do not send completed application forms to this address.*

You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection unless it displays a currently valid OMB control number with this notice. This collection has been assigned OMB control number 3060-0798.

The FCC is authorized under the Communications Act of 1934, as amended, to collect the personal information we request in this form. We will use the information you provide to determine whether approving this application is in the public interest. If we believe there may be a violation or potential violation of a statute, FCC regulation, rule or order, your application may be referred to the Federal, state, or local agency responsible for investigating, prosecuting, enforcing or implementing the statute, rule, regulation or order. In certain cases, the information in your application may be disclosed to the Department of Justice or a court or adjudicative body when (a) the FCC; or (b) any employee of the FCC; or (c) the United States Government, is a party to a proceeding before the body or has an interest in the proceeding.

If you owe a past due debt to the Federal government, the Taxpayer Identification Number (*i.e.*, your Employer Identification Number or Social Security Number) and other information you provide may also be disclosed to the Department of Treasury Financial Management Service, other federal agencies and/or your employer to offset your salary, IRS tax refund or other payments to collect that debt. The FCC may also provide this information to these agencies through the matching of computer records when authorized.

In addition, all information provided in this form, except Taxpayer Identification Number, will be available for public inspection. If you do not provide the information we request on the form, the FCC may delay processing of your application or may return your application without action.

This notice is required by the Privacy Act of 1974, Public Law 93-579, December 31, 1974, 5 U.S.C. Section 552a(e)(3) and the Paperwork Reduction Act of 1995, Public Law 104-13, October 1, 1995, 44 U.S.C. 3507.

Overview

Purpose of Form

Form FCC 601 is a multi-purpose form. It is used to apply for an authorization to operate radio stations, amend pending applications, modify existing licenses, and perform a variety of other miscellaneous transactions (refer to page 7 and 8 of these instructions for a detailed list) in the Wireless Telecommunications Bureau (WTB) radio services. The WTB radio services that use this form include Public Mobile Services, Personal Communications Services, General Wireless Communications Services, Private Land Mobile Radio Services, Broadcast Auxiliary Services, Fixed Microwave Services, Maritime Services (excluding ships), and Aviation Services (excluding aircraft).

The purpose of this form is to collect data pertaining to the proposed request. This data is used by the FCC to determine whether the public interest would be served by a grant of the request.

Form FCC 601 replaces Forms FCC 313, 313R, 402, 402R, 405, 405A, 406, 415, 464, 464A, 489, 494, 503, 574, 574R, 600, and 701 for all purposes.

Introduction

Form FCC 601 is a multi-part form comprising a main form and several optional schedules. Each application, amendment, modification, or other request must contain only one Main Form (pages 1, 2, and 3) but may contain as few or as many of the optional schedules as necessary.

Main Form

The purpose of the Main Form is to obtain information sufficient to identify the filer, establish the filer's basic eligibility and qualifications, classify the filing, and determine the nature of the proposed service. The Main Form also contains the required certifications and signature block. The Main Form is required for every application, amendment, and modification filed on Form FCC 601.

Schedules

The purposes of the optional schedules are as follows:

Schedule A

The Schedule for Changes Affecting Multiple Call Signs or File Numbers is used to submit global changes to items on the FCC 601 Main Form that affect either multiple call signs or multiple file numbers.

Schedule B

The Schedule for Geographically Licensed Services is used to apply for the required license authorization when the applicant has been determined to be the winning bidder at the close of an FCC auction. It is also used by auction winners that must file environmental assessment technical data.

Schedule C

[Reserved for future use]

Schedule D

The Schedule for Fixed Station Locations and Antenna Structures is used to supply technical information for fixed transmit station locations and antenna structures. File as many schedules as necessary to describe all fixed station locations, including antenna structures. This schedule is used in conjunction with Technical Data Schedules F, G, H, and J.

Schedule E

The Schedule for Mobile, Temporary Fixed, and 6.1 Meter Control Station Locations is used to supply technical information for mobile transmit locations, temporary fixed stations, and 6.1 meter control stations. File as many schedules as necessary to describe all mobile transmit locations, temporary fixed stations, and 6.1 meter control stations. This schedule is used in conjunction with Technical Data Schedules G, H, and J.

Schedule F

The Technical Data Schedule for the Cellular and Air-ground (Commercial Aviation) Radiotelephone Services (Part 22) is used for site-specific applications and amendments in the cellular and air-ground radiotelephone services. Schedule F provides technical parameters of the facilities. This schedule is used in conjunction with Location Schedule D.

Schedule G

The Technical Data Schedule for the Maritime and Aviation Services (Parts 80 and 87) is used for site-specific applications and amendments in the maritime and aviation services. Schedule G provides technical parameters of the facilities. This schedule is used in conjunction with Location Schedules D and E.

Schedule H

The Technical Data Schedule for the Private Land Mobile and Land Mobile Broadcast Auxiliary Radio Services (Parts 90 and 74) is used for site-specific applications and amendments in the private land and broadcast auxiliary radio services. Schedule H provides technical parameters of the facilities. This schedule is used in conjunction with Location Schedules D and E.

Schedule I

The Technical Data Schedule for the Fixed Microwave and Microwave Broadcast Auxiliary Services (Parts 101 and 74) is used for site-specific applications and amendments in the fixed microwave and microwave broadcast auxiliary services. Schedule I provides technical parameters of the facilities.

Schedule J

The Technical Data Schedule for the Paging, Rural, Air-ground, (General Aviation), and Offshore Radiotelephone Services (Part 22) is used for site-specific applications or amendments in the paging, rural, air-ground, and offshore radiotelephone services. Schedule J provides technical parameters of the facilities. This schedule is used in conjunction with Location Schedules D and E.

Schedule K

The Schedule for Required Notifications for Wireless Services is used to notify the FCC that, within the required time period, either coverage or construction requirements have been satisfied or an assignment of authorization or transfer of control has been consummated. It is also used in the paging radiotelephone services to notify the FCC of a request for regular authorization for facilities previously operating under developmental authority.

Schedule L

The Schedule for Extension of Time Requests for Wireless Services is used to request additional time to either satisfy coverage or construction requirements or to consummate an assignment of authorization or transfer of control.

Schedules Required

If you are applying for authorization in a market based service, you must file Schedule B in conjunction with your Main Form application.

If you are applying for authorization in a site licensed service which requires you to report technical data, file along with your Main Form the technical data schedule appropriate to the service for which you are applying:

Service	ULS Form/Schedule Title
All Geographically Licensed Services	FCC 601 Main Form - WTB Radio Service Authorization Schedule B - Schedule for Geographically Licensed Services
Cellular and Commercial Air-ground Services (Part 22)	FCC 601 Main Form - WTB Radio Service Authorization Schedule D - Schedule for Fixed Station Locations and Antenna Structures Schedule F - Technical Data Schedule for the Cellular and Air-ground (Commercial Aviation) Radiotelephone Services (Part 22)
Land Mobile - Part 22 Site-Specific Services	FCC 601 Main Form - WTB Radio Service Authorization Schedule D - Schedule for Fixed Station Locations and Antenna Structures Schedule E - Schedule for Mobile, Temporary Fixed, and 6.1 Meter Control Station Locations Schedule J - Technical Data Schedule for Paging, Rural, Air-ground (General Aviation), and Offshore Radiotelephone Services (Part 22)
Land Mobile - Part 90 Site-Specific Services	FCC 601 Main Form - WTB Radio Service Authorization Schedule D - Schedule for Fixed Station Locations and Antenna Structures Schedule E - Schedule for Mobile, Temporary Fixed, and 6.1 Meter Control Station Locations Schedule H - Technical Data Schedule for the Private Land Mobile and Broadcast Auxiliary Land Mobile Radio Services (Parts 90 and 74)
Microwave - Part 101 Site-Specific Services	FCC 601 Main Form - WTB Radio Service Authorization Schedule I - Technical Data Schedule for the Fixed Microwave and Microwave Broadcast Auxiliary Services (Parts 101 and 74)
Maritime Coast/Aviation Ground Services (Parts 80 and 87)	FCC 601 Main Form - WTB Radio Service Authorization Schedule D - Schedule for Fixed Station Locations and Antenna Structures Schedule E - Schedule for Mobile, Temporary Fixed, and 6.1 Meter Control Station Locations Schedule G - Technical Data Schedule for the Maritime and Aviation Services (Parts 80 and 87)
Broadcast Auxiliary - Land Mobile (Part 74)	FCC 601 Main Form - WTB Radio Service Authorization Schedule D - Schedule for Fixed Station Locations and Antenna Structures Schedule E - Schedule for Mobile, Temporary Fixed, and 6.1 Meter Control Station Locations Schedule H - Technical Data Schedule for the Private Land Mobile and Broadcast Auxiliary Land Mobile Radio Services (Parts 90 and 74)
Broadcast Auxiliary - Microwave (Part 74)	FCC 601 Main Form - WTB Radio Service Authorization Schedule I - Technical Data Schedule for the Fixed Microwave and Microwave Broadcast Auxiliary Radio Services (Parts 101 and 74)

Service	ULS Form/Schedule Title
Notification of: Completion of Coverage Requirements Completion of Construction Requirements Developmental Paging Authorization to a Regular Authorization Consummation of Assignment of Authorization Consummation of Transfer of Control	FCC 601 Main Form - WTB Radio Service Authorization Schedule K - Schedule for Required Notifications for Wireless Services
Extension of Time Request for: Completion of Coverage Requirements Completion of Construction Requirements Consummation of Assignment of Authorization Consummation of Transfer of Control	FCC 601 Main Form - WTB Radio Service Authorization Schedule L - Schedule for Extension of Time Requests for Wireless Services

General Filing Instructions

Information Current and Complete

Information filed with the FCC must be kept current and complete. The applicant must notify the FCC regarding any substantial and significant changes in the information furnished in the application(s). See Section 1.65 of the Commission's rules.

Applicable Rules and Regulations

Applicants should obtain the relevant parts of the FCC's rules in 47 CFR. Copies of 47 CFR may be purchased from the Superintendent of Documents; Government Printing Office; Washington, DC 20402; (202) 512-1800. Refer also to the Government Printing Office's Website at <http://www.access.gpo.gov>. Some FCC rules require applicants to attach one or more exhibits to an application in addition to the information requested in the application form.

Processing Fee and Filing Locations

A processing fee may be required with this form. To determine the required fee amount, refer to Subpart G of Part 1 of the Code of Federal Regulations (47 CFR Part 1, Subpart G) and the current Wireless Telecommunications Bureau Fee Filing Guide. For assistance with fees applicable to the radio services governed by the FCC's rules, call (202) 418-0220 or 1-888-CALL-FCC (225-5322). The Fee Filing Guide can be downloaded from the FCC's Internet site @ <http://www.fcc.gov/fees/wtbguide.html> or obtained by calling the FCC's Forms Distribution Center at (800) 418-3676.

Paper applications requiring a fee must be submitted to the appropriate P. O. Box address in Pittsburgh, PA, designated for the radio service in which you are filing your application. For the specific mailing address, consult the current Wireless Telecommunications Bureau Fee Filing Guide, call 1-888-CALL-FCC (225-5322), or e-mail questions to FCCITD@fcc.gov.

Non-feeable paper applications should be mailed to Federal Communications Commission, 1270 Fairfield Road, Gettysburg, PA 17325-7245. (If this application is filed as a result of an auction, please specify the Auction Number as indicated in your bidder's package or Public Notice.)

Packages

If filing manually, the Main Form and the applicable schedules should be submitted as one package, stapled in the upper left corner. The Main Form should be first with the schedules attached in alphabetical order. Applicants filing electronically are not required to submit paper copies.

Paper Copies

The number of paper copies of this application required to be filed is one original. Applicants filing electronically are not required to submit paper copies.

Exhibits

Each document required to be filed as an exhibit should be current as of the date of filing. Each page of every exhibit must be identified with the number or letter of the exhibit, the number of the page of the exhibit, and the total number of pages of the exhibit. If material is to be incorporated by reference, see the instruction on incorporation by reference. If interference studies are required by rule, attach these as an exhibit.

Incorporation by Reference

You may incorporate by reference documents, exhibits, or other lengthy showings already on file with the FCC only if: the information previously filed is more than one 8½" by 11" page in length, and all information therein is current and accurate in all significant respects; the reference states specifically where the previously filed information can be found (i.e., station call sign and application file number, title of proceeding, docket number and legal citations), including exhibit and page references. Use the relevant item number followed by 'A'. Items that call for numbers, or which can be answered 'Y' or 'N' or other short answers must be answered directly without reference to a previous filing.

Waiver Requests

Requests for waiver must contain as an exhibit a statement of reasons sufficient to justify a waiver. The required showing must be made for all rule waivers desired, identifying the specific rules or policies for which the waiver is requested. Refer to the Wireless Telecommunications Bureau Fee Filing Guide for fee requirements for waivers. For assistance with fees applicable to the radio services governed by the FCC's rules, call (202) 418-0220 or 1-888-CALL-FCC (225-5322), or e-mail questions to FCCITD@fcc.gov.

Frequency Coordinations

Applications for certain station authorizations in Parts 80, 87, and 90 may be required to be initially submitted to a certified frequency coordinator for the radio service or frequency pool involved. Refer to the rules for your radio service for detailed information regarding frequency coordination. For frequency coordination fee information, contact the frequency coordinators for your radio service.

After the completion of frequency coordination, some radio services require the frequency coordinator to forward these applications to the FCC. Check with your frequency coordinator for applicability. All other applications shall be filed by the applicant at the correct address listed on the most current Fee Filing Guide. Applications should be filed at least sixty (60) days prior to the date upon which the radio facilities are required to be in operation.

For information regarding certified coordinators for your radio service, contact the Federal Communications Commission, 1270 Fairfield Road, Gettysburg, PA 17325-7245, call 1-888-CALL-FCC (225-5322), or e-mail questions to FCCITD@fcc.gov.

English to Metric Conversions

All heights and distances must be provided as metric values. The following English to Metric equivalents should be used to convert heights and distances, where necessary:

1 foot	=	0.3048 meters
1 mile	=	1.6093 kilometers
1 nautical mile	=	1.85 kilometers

For Assistance

For assistance with this application, contact the Federal Communications Commission, 1270 Fairfield Road, Gettysburg, PA 17325-7245, call 1-888-CALL-FCC (225-5322), or e-mail questions to FCCITD@fcc.gov.

Electronic Filers

Applicants filing electronically should follow procedures contained in online help files. For technical assistance with filing electronically, contact the Wireless Telecommunications Bureau Technical Support line, (202) 414-1250.

Instructions for FCC 601 Main Form

•Radio Service Code

Item 1 Enter the Radio Service Code for which the applicant is filing by inserting the appropriate code from the following list:

Geographically Licensed Services

Cellular Radiotelephone	CL
General Wireless Communications Service (GWCS)	GW
Interactive Video and Data Service (IVDS)	ZV
Local Multipoint Distribution Service (LMDS)	LD
Location and Monitoring Service, Multilateration (LMS)	LS
Paging and Radiotelephone, Market Area	
Part 22 Paging	CZ
Part 90, 929-930 MHz Exclusive	GC
Personal Communications Service (PCS)	
Broadband	CW
Narrowband	CN
Public Coast, Market Area	PC
SMR, 806-821/851-866 MHz, Market Area	YC
SMR, 896-901/935-940 MHz, Market Area	YD

	TV Studio Transmitter Link	TS
	TV Translator Relay	TT

►Application Purpose

Item 2 Indicate the purpose for which the application is being filed by inserting the appropriate two-letter abbreviation from the following list. Only one purpose may be specified.

NE - New: To request a new license. This purpose should only be used for initial applications.

MD - Modification: To request a change in the conditions of any data (administrative or technical) for a license during the term of that license. Use Item 5 to provide the call sign of the affected station. All appropriate schedules must be completed and attached, and must accurately describe the data that has been modified. See applicable Commission rules. If the modification affects multiple call signs, complete and attach Schedule for Changes Affecting Multiple Call Signs or File Numbers, Form FCC 601, Schedule A.

Note: After a license is modified, the FCC will issue a new license and previous versions of the license will no longer be valid, regardless of the expiration date shown. License terms will not be extended as a result of an application for modification.

AM - Amendment: To amend a previously-filed, currently pending application. Use Item 4 to provide the file number of the application. All appropriate schedules must be completed and attached, and must accurately reflect the amendment's data. See applicable Commission rules. If the amendment affects multiple file numbers, complete and attach Schedule for Changes Affecting Multiple Call Signs or File Numbers, Form FCC 601, Schedule A.

RO - Renewal Only: To renew an existing authorization, Special Temporary Authorization (STA), or developmental authorization that has not expired and where no changes in the conditions are being requested at the time of renewal. (To make any modifications to the main form or technical data, use the Renewal/Modification purpose.) Use Item 5 to provide the call sign of the affected station. If the renewal affects multiple call signs, complete and attach Schedule for Changes Affecting Multiple Call Signs or File Numbers, Form FCC 601, Schedule A.

RM - Renewal/Modification: To renew an existing authorization, Special Temporary Authorization (STA), or developmental authorization and request a change in the conditions of that authorization. Use Item 5 to provide the call sign of the affected station. All appropriate schedules must be completed and attached, and must accurately describe the data that has been modified.

CA - Cancellation of License: To cancel an existing license. In Item 5 provide the call sign to be canceled. To cancel multiple licenses, complete and attach Schedule for Changes Affecting Multiple Call Signs or File Numbers, Form FCC 601, Schedule A, listing all the call signs to be canceled. This action cancels all facilities operating under the call sign. To delete specific authorized facilities under a call sign, use the modification purpose.

CO - Consolidate Call Signs: To consolidate multiple call signs into a single call sign, list existing call signs to be deleted on Schedule A, Schedule for Changes Affecting Multiple Call Signs or File Numbers. The call sign to be retained should be listed in Item 5 of the FCC 601 Main Form.

WD - Withdrawal of Application: To withdraw a previously-filed, currently pending application. Use Item 4 to provide the file number of the application. If the withdrawal affects multiple file numbers, complete and attach Schedule for Changes Affecting Multiple Call Signs or File Numbers, Form FCC 601, Schedule A.

DU - Duplicate License: To request a hardcopy duplicate of an existing license. Use Item 5 to provide the call sign of the affected station. If the duplication is needed for multiple call signs, complete and attach Schedule for Changes Affecting Multiple Call Signs or File Numbers, Form FCC 601, Schedule A.

NT - Required Notifications: To notify the FCC that, within the required time period, (a) coverage or construction requirements have been satisfied, or (b) an assignment of authorization or transfer of control has been consummated. This schedule can also be used to notify the FCC of a request in the Paging Radiotelephone Services for regular authorization for facilities previously operating under developmental authority. Also complete and attach Required Notifications for Wireless Services, Form FCC 601, Schedule K.

EX - Request for Extension of Time: To request additional time to either (a) consummate an assignment of authorization or transfer of control, or (b) satisfy coverage or construction requirements. Also complete and attach Extension of Time Requests for Wireless Services, Form FCC 601, Schedule L.

AU - Administrative Update: To request a change of any administrative data on a license. These changes are limited to the following: Changes in licensee name (without a change in ownership, control or corporate structure), address, phone number, fax number, and email, and changes in contact information. Use Item 5 to provide the call sign of the affected station. If the administrative update is needed for multiple call signs, complete and attach Schedule for Changes Affecting Multiple Call Signs or File Numbers, Form FCC 601, Schedule A.

Note: After a license is modified, the FCC will issue a new license and previous versions of the license will no longer be valid, regardless of the expiration date shown. License terms will not be extended as a result of an application for modification.

Item 3 If the filing is a request for a Developmental License or a Special Temporary Authorization (STA), enter 'D' or 'S', respectively. Otherwise, enter 'N' for Not Applicable. The FCC may grant applications for developmental authority to construct and operate transmitters for the purpose of developing a new radio service or a new technology not regularly authorized under specific FCC rules, subject to the appropriate requirements governing developmental authorizations contained in the FCC rules. In circumstances requiring immediate or temporary use of facilities, request may be made for special temporary authority to install and/or operate new or modified equipment, subject to the appropriate requirements governing Special Temporary Authorizations contained in the FCC rules.

Item 4 If the filing is an Amendment or Withdrawal of a previously-filed currently pending application, provide the file number of the original application. This information can be obtained by contacting the FCC at 1-888-CALL-FCC (225-5322). If the amendment or withdrawal affects multiple file numbers, complete and attach Schedule for Changes Affecting Multiple Call Signs or File Numbers, Form FCC 601, Schedule A.

Item 5 The information requested in this item identifies the existing stations to which the filing is relevant. If the filing is a request for a Modification, Renewal Only, Renewal/Modification, Cancellation, Duplicate, or Administrative Update of an existing license, enter the call sign of the license. If the request affects multiple call signs, complete and attach Schedule for Changes Affecting Multiple Call Signs or File Numbers, Form FCC 601, Schedule A.

If the filing is a request to Consolidate Call Signs, enter the call sign to be retained in this item and list the existing call signs to be deleted on Schedule A, Schedule for Changes Affecting Multiple Call Signs or File Numbers.

Item 6 This item is optional. If the filing is a request for a New, Amendment, Renewal Only, or a Renewal/Modification, enter the requested authorization expiration date. Applicants may, if desired, request the month and day of license expiration. However, in no cases will licenses be granted for terms that exceed the license term as governed by the rules for each service.

Item 7 This question applies only to site-specific authorizations. If the filing is a request for a Modification, a Renewal/Modification, or an Amendment of a currently pending Modification of a site-specific authorization, indicate whether the request will increase or expand the coverage area, service area, CGSA, or interference contour of the authorization. If the answer is 'Y', the filing will be treated as a request for major modification. For definition of coverage area or service area in each service, refer to the Commission's technical rules for that radio service. If the rules for the service do not define coverage area, service area, or interference contour, also enter 'N'.

Item 8 If the filing is a request for a waiver of the Commission's rules, enter 'Y' and attach an exhibit that lists the rule section(s) of the affected rules and explains the circumstances. Otherwise, enter 'N'.

►Applicant Information

Items 9 through 23 identify the applicant. If an authorization is granted, the information provided will become the licensee's name, address, and telephone number of record. The FCC will send the authorization and notice of all final dispositions of an application to this address.

Item 9a For individuals, enter the Social Security Number. For all other filers, enter the Employer Identification Number. This data is required to comply with the Debt Collection Improvement Act of 1996. This information will not be made available for public inspection.

Item 9b This item must be filled out if in addition to providing a TIN, you have obtained a Sub-Group Identification Number (SGIN) from the FCC. A SGIN is required in instances where the applicant or licensee does not have a unique TIN because it is a sub-group or department of the entity identified by the TIN (e.g., a governmental entity or academic institution) and therefore shares the TIN with other subgroups or departments of the same entity. The SGIN allows each sub-group to track the licenses it holds. The SGIN is not needed for entities that have a unique TIN that is not used by any other licensee.

Item 10 This item indicates the legal entity type of the applicant. Enter 'I' for Individual, 'U' for Unincorporated Association, 'T' for Trust, 'G' for Government Entity, 'J' for Joint Venture, 'C' for Corporation, 'L' for Limited Liability Corporation, 'P' for Partnership, or 'O' for Consortium.

Items 11-12 If Item 10 is 'I' (for Individual), enter the name of the person applying in Item 11. Otherwise, enter the name of the entity in Item 12.

Item 13 Enter the name of the Real Party in Interest (i.e., the party showing de facto and de jure control) of the applicant. The Real Party in Interest is the individual or entity with ultimate or overall control of the license or application.

Item 14 Enter the Taxpayer Identification Number for the Real Party in Interest. For individuals, enter the Social Security Number. For all other filers, enter the Employer Identification Number. This information will not be made available for public inspection.

Items 15-22 Enter the name, address, and telephone number of the person to whom the FCC should send correspondence. You may enter a post office box number in Item 16 or a street address in Item 17, or enter information for both items. Enter a telephone number, including area code, for Item 21. Refer to FCC 601 Main Form Instructions, Appendix II, for a list of valid state, jurisdiction, and area abbreviations.

Failure to respond to FCC correspondence sent to the address of record may result in dismissal of an application, liability for forfeiture, or revocation of an authorization.

Item 23 Enter the applicant's e-mail address, if desired and available.

Item 24 Enter 'Y' if it is desired that all correspondence be e-mailed rather than sent by U.S. mail (this includes the Authorization). Otherwise enter 'N'. All intermediate correspondence is sent to the contact, if specified (if no contact is specified, intermediate correspondence is sent to the applicant). All final disposition correspondence is sent to the applicant. If 'Y' is selected, a valid e-mail address is required in Item 23 and, if a contact is specified, also in Item 34.

►Contact Information

Items 25-34 These items identify the contact representative, if different from the applicant. This is usually the headquarters office of a large company, the law firm or other representative of the applicant, or the person or company that prepared or submitted the application on behalf of the applicant. If there is a question about the application, an FCC representative will communicate with the applicant's contact representative.

If this section is used, a name (Item 25) and telephone number (Item 32) are required at a minimum. If the address items are completed, you may enter a post office box number in Item 27 or a street address in Item 28, or enter information for both items. Refer to FCC 601 Main Form Instructions, Appendix II, for a list of valid state, jurisdiction, and area abbreviations.

►Regulatory Status

Item 35 This item identifies the type(s) of radio service offerings being provided. Enter all types of radio service offerings that apply. Enter 'C' for Common Carrier, 'N' for Non-Common Carrier, and 'P' for Private, internal communications. Use the Modification (MD) purpose in Item 2 to change or add radio service offerings.

All entities that are telecommunications carriers should select common carrier on this form. The term 'telecommunications carrier' means any provider of telecommunications services, except that such term does not include aggregators of telecommunications services (the term 'aggregator' means any person that, in the ordinary course of its operations, makes telephones available to the public or to transient users of its premises, for interstate telephone calls using a provider of operator services). A telecommunications carrier shall be treated as a common carrier under the Communications Act and the Commission's rules (*i.e.*, as an entity which holds itself out for hire indiscriminately, in interstate or foreign communications by wire or radio, or in interstate or foreign radio transmission of energy, for the purpose of carrying transmissions provided by the customer), only to the extent that it is engaged in providing telecommunications services.

The term 'telecommunications service' means the offering of telecommunications (*i.e.*, the transmission, between or among points specified by the user, of information of the user's choosing, without change in the form or content of the information as sent and received) for a fee directly to the public, or to such classes of users as to be effectively available directly to the public, regardless of the facilities used.

Non-common carriers do not hold themselves out indiscriminately for hire as carriers of communications provided by the customer. A person engaged in radio broadcasting shall not, insofar as such person is so engaged, be deemed a common carrier. Thus, those entities meeting this definition would select non-common carrier for this item.

Private internal users are those entities that utilize telecommunications services purely for internal business purposes or public safety communications and not on a for hire or for profit basis. Such entities should select 'Private' for this item.

►Type of Radio Service

Item 36 This item identifies all types of radio services for the applicant. Enter 'F' for Fixed, 'M' for Mobile, 'R' for Radiolocation, and 'S' for Satellite. Enter all types of radio services, as applicable.

Item 37 Mark this item 'Y' if the applicant proposes to provide interconnected service to the public switched telephone network, as defined in the FCC rules. Otherwise, mark this item 'N'.

►Fee Status

Items 38-40 These items allow the applicant to apply for exemption from FCC application fees and regulatory fees. See the instructions for FCC Remittance Advice, FCC Form 159.

▶ **Alien Ownership Questions**

Items 41-45 These items request indications and information that enable the FCC to determine whether an applicant is eligible under Section 310 of the Communications Act of 1934, as amended, to hold a station license. The FCC cannot grant an authorization to a foreign government or the representative of a foreign government. Therefore, if the true and correct answer to Item 41 is 'Yes', the applicant is not eligible for a license and the FCC will dismiss the application, if filed, without further consideration. The FCC cannot grant an authorization to provide commercial radio service to any applicant for which the true and correct answer to Item 42, 43, or 44 is 'Yes.' The applicant must answer all questions. A 'Yes' answer to any question requires an exhibit to be attached explaining the circumstances.

▶ **Basic Qualification Questions**

Items 46-49 These items request information that enables the Commission to determine whether the applicant is qualified to hold an FCC authorization. If the answer to any one or more of Items 46-49 is 'yes', attach as an exhibit a statement explaining the circumstances and a statement giving the reasons why the applicant believes that grant of the application would be in the public interest notwithstanding the actual or alleged misconduct.

▶ **General Certification Statements**

By signing this form, the applicant certifies that the statements listed in this section are true, complete, correct, and made in good faith.

▶ **Signature**

Items 50-52 These items must be completed. To be acceptable for filing, applications and amendments must be signed in accordance with Part 1 of the FCC rules. The signor must be a person authorized to sign the application. Paper originals of applications must bear an original signature. On paper originals, neither rubber-stamped nor photocopied signatures are acceptable.

21) Telephone Number:		22) FAX:	
23) E-Mail Address:			
24) Do you want all correspondence and your authorization E-Mailed rather than sent via the U.S. mail? *If the answer to item 24 is 'Yes', be sure to include a valid E-Mail address in Item 23 and Item 34.			() <u>Yes</u> <u>No</u>

25) First Name:		MI:	Last Name:		Suffix:
26) Entity Name:					
27) P.O. Box:		And /Or	28) Street Address:		
29) City:			30) State:	31) Zip:	
32) Telephone Number:			33) FAX:		
34) E-Mail Address:					

Regulatory Status

35) This filing is for authorization to provide or use the following type(s) of radio service offering (enter all that apply):

() Common Carrier () Non-Common Carrier () Private, internal communications

Type of Radio Service

36) This filing is for authorization to provide the following type(s) of radio service (enter all that apply):

() Fixed () Mobile () Radiolocation () Satellite (sound)

37) Interconnected Service? () Yes No

Fee Status

38) Is the applicant exempt from FCC application fees? () Yes No

39) Is the applicant exempt from FCC regulatory fees? () Yes No

40) If 'Yes', does applicant qualify as a Non-Commercial Educational Broadcaster? () Yes No

Alien Ownership Questions

41) Is the applicant a foreign government or the representative of any foreign government?
If 'Yes', attach exhibit explaining circumstances. () Yes No

42) Is the applicant an alien or the representative of an alien?
If 'Yes', attach exhibit explaining circumstances. () Yes No

43) Is the applicant a corporation organized under the laws of any foreign government?
If 'Yes', attach exhibit explaining circumstances. () Yes No

44) Is the applicant a corporation of which more than one-fifth of the capital stock is owned of record or voted by aliens or their representatives or by a foreign government or representative thereof or by any corporation organized under the laws of a foreign country?
If 'Yes', attach exhibit explaining circumstances. () Yes No

45) Is the applicant directly or indirectly controlled by any other corporation of which more than one-fourth of the capital stock is owned of record or voted by aliens, their representatives, or by a foreign government or representative thereof, or by any corporation organized under the laws of a foreign country?
If 'Yes', attach exhibit explaining nature and extent of alien or foreign ownership or control. () Yes No

Basic Qualification Questions

46) Has the applicant or any party to this application or amendment had any FCC station authorization, license, or construction permit revoked or had any application for an initial, modification or renewal of FCC station authorization, license, construction permit denied by the Commission? If 'Yes', attach exhibit explaining circumstances.	() <u>Yes</u> <u>No</u>
47) Has the applicant or any party to this application or amendment, or any party directly or indirectly controlling the applicant, ever been convicted of a felony by any state or federal court? If 'Yes', attach exhibit explaining circumstances.	() <u>Yes</u> <u>No</u>
48) Has any court finally adjudged the applicant or any party directly or indirectly controlling the applicant guilty of unlawfully monopolizing or attempting unlawfully to monopolize radio communication, directly or indirectly, through control of manufacture or sale of radio apparatus, exclusive traffic arrangement, or any other means or unfair methods of competition? If 'Yes', attach exhibit explaining circumstances.	() <u>Yes</u> <u>No</u>
49) Is the applicant or any party directly or indirectly controlling the applicant, currently a party in any pending matter referred to in the preceding two items? If 'Yes', attach exhibit explaining circumstances.	() <u>Yes</u> <u>No</u>

General Certification Statements

1) The applicant waives any claim to the use of any particular frequency or of the electromagnetic spectrum as against the regulatory power of the United States because of the previous use of the same, whether by license or otherwise, and requests an authorization in accordance with this application.
2) The applicant will have unlimited access to the radio equipment and will control access to exclude unauthorized persons.
3) The applicant certifies that grant of this application would not cause the Applicant to be in violation of the spectrum aggregation limit in 47 CFR Part 20.
4) The applicant certifies that the signature is that of the individual, partner, or officer or duly authorized employee of a corporation, or officer who is a member of an unincorporated association, or a duly authorized employee of the entity.
5) The applicant certifies that all statements made in exhibits, attachments, or in documents incorporated by reference are material, are part of this application and are true, complete, correct, and made in good faith.
6) The applicant certifies that neither the applicant nor any other party to the application is subject to a denial of Federal benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. § 862, because of a conviction for possession or distribution of a controlled substance. See Section 1.2002(b) of the rules, 47 CFR 1.2002(b) for the definition of 'party to the application' as used in this certification.

Signature

50) Typed or Printed Name of Party Authorized to Sign

First Name:	MI:	Last Name:	Suffix:
-------------	-----	------------	---------

51) Title:	
Signature:	52) Date:

Failure To Sign This Application May Result In Dismissal Of The Application And Forfeiture Of Any Fees Paid

WILLFUL FALSE STATEMENTS MADE ON THIS FORM OR ANY ATTACHMENTS ARE PUNISHABLE BY FINE AND/OR IMPRISONMENT (U.S. Code, Title 18, Section 1001) AND/OR REVOCATION OF ANY STATION LICENSE OR CONSTRUCTION PERMIT (U.S. Code, Title 47, Section 312(a)(1)), AND/OR FORFEITURE (U.S. Code, Title 47, Section 503).

Instructions for Schedule for Changes Affecting Multiple Call Signs or File Numbers Form FCC 601, Schedule A

Form FCC 601, Schedule A, is a supplementary schedule for use with the FCC Application for Wireless Telecommunications Bureau Radio Service Authorization, FCC 601 Main Form. Use this schedule when requesting changes that affect multiple call signs or file numbers. Schedule A is not used with initial applications. Complete this schedule to submit global changes to items on the FCC 601 Main Form that affect either multiple call signs or multiple file numbers, depending on the Application Purpose entered for Item 2 of that form. Note the following:

Multiple File Numbers may be affected by these purposes: Amendment or Withdrawal of Application

Multiple Call Signs may be affected by these purposes: Modification, Renewal Only, Renewal/Modification, Cancellation of License, Consolidate Call Signs, Duplicate License, or Administrative Update

Each Schedule A or groups of Schedule A filed with the FCC 601 Main Form must use the same purpose, and only one purpose can be specified per submission.

Information and Instructions

Schedule for Geographically Licensed Services

Form FCC 601, Schedule B, is a supplementary schedule for use with the FCC Application for Wireless Telecommunications Bureau Radio Service Authorization, FCC 601 Main Form. This schedule is used to apply for the required license authorization when the applicant has been determined to be the winning bidder at the close of an FCC auction. It is also used by auction winners that must file environmental assessment technical data. The FCC 601 Main Form must be filed in conjunction with this schedule.

Schedule B Instructions

►Market/Channel Block

If the filing is for a 'New' authorization, Items 1 through 4 are to be completed with the market or markets that are licensed on a geographic licensing area or market basis (e.g., Personal Communications Service) and have been won through an auction (in this case, multiple sites may be completed for each Schedule B). Items 5 through 10 will not be completed for 'New' filings.

If the filing is to notify the FCC of sites that have environmental impact, a separate Schedule B must be completed for each market. Complete Items 1 through 10 with information for the market area containing the site that has environmental impact.

Item 1 This item identifies the market(s) to which the filing pertains. Market designators are listed in FCC Public Notices or in the FCC rules.

Item 2 This item, in addition to the market designator, identifies the market to which the filing pertains. The market names are listed in FCC Public Notices or in the FCC rules.

Item 3 This item identifies the spectrum, assigned in channel blocks, for the market area listed in Item 1.

Item 4 Complete this item only if the market area listed in Item 1 has been subdivided (in a partition and/or disaggregation).

►Environmental Data

The environmental data section must be completed only when the purpose of the filing is to modify the geographic license in order to notify the FCC of specific transmitter sites within the licensing area that have environmental impact. Items 5 through 10 are completed for all sites that have environmental impact for the market area listed in Items 1 through 4.

Item 5 This item is required for compliance with the National Environmental Policy Act of 1969, as amended, 42 U.S.C. 4321-4335. See also Part 1, Subpart I of the FCC rules (47 CFR 1.1301 - 1.1319). This item must be answered, either 'Y' or 'N'. If the true and correct answer to Item 5 is 'yes', also complete Items 6 - 10 of this section. Items 6 through 10 are used to enter a list of sites that have environmental impact.

Enter 'Y' if an FCC grant of the proposed facility may have a significant environmental effect, as defined in Section 1.1307 of the FCC rules and provide the required environmental assessment. Examples of facilities that may have a significant effect on the environment include:

An antenna structure located in a residential area (as defined by applicable zoning laws) that will utilize high intensity aviation obstruction lighting

A facility located in an officially designated wilderness area, wildlife preserve, or floodplain

A facility that affects a site significant in American history

A facility whose construction involves extensive changes in surface features

Facilities, operations, or transmitters that would cause human exposure to levels of radiofrequency radiation in excess of the limits as detailed in § 1.1310 and 2.109 of the Commission's rules.

Items 6 and 7 Enter the geographic coordinates of the location, referenced to the North American Datum of 1983 (NAD83). This information can be determined in many ways, including a GPS receiver, a 7.5 minute topographical quadrangle map of the area, or you may consult the city or county surveyor in your area. Topographical maps may be purchased from the U.S. Geological Survey, Washington, DC 20242 or from its office in Denver, Colorado 80225.

For locations in the United States and the Caribbean Islands, coordinates of the transmit antenna location must be referenced to the North American Datum of 1983 (NAD83).

Note: If the source from which you obtain the coordinates still utilizes an older datum (*i.e.*, NAD27, PRD40) you must convert to NAD83. Conversion routines are available through the internet at <http://www.fcc.gov/wtb/uls/nadcon.html>.

Enter the latitude using the format *DD-MM-SS*, where the degrees (*DD*) term can have a value in the range of 0 to 90, minutes (*MM*) can range from 0 to 59, and seconds (*SS*) can range from 0 to 59.9. If desired, seconds may be expressed to the nearest tenth of a second (in which case, use the format *DD-MM-SS.S*). In the lower right corner, specify the direction as either N for North or S for South.

Enter the longitude using the format *DDD-MM-SS*, where the degrees (*DDD*) term can have a value in the range of 0 to 180, minutes (*MM*) can range from 0 to 59, and seconds (*SS*) can range from 0 to 59.9. If desired, seconds may be expressed to the nearest tenth of a second (in which case, use the format *DDD-MM-SS.S*). In the lower right corner, specify the direction as either E for East or W for West.

Item 8 Enter the name of the city where the site is located.

Item 9 Enter the name of the county where the site is located.

Item 10 Enter the two-letter abbreviation for the state where the site is located. Refer to FCC 601 Main Form Instructions, Appendix II, for a list of valid state, jurisdiction, and area abbreviations.

►Certification Statements

By signing the FCC 601 Main Form, the applicant certifies that the statements listed in this section are true, complete, correct, and made in good faith.

Market/Channel Block

1) Market Designator	2) Market Name	3) Channel Block	4) Sub-Market Designator

Environmental Data (If required)

5) Would a Commission grant of Authorization for any locations won in an auction be an action which may have a significant environmental effect as defined by Section 1.1307 of 47 CFR? () Yes No
If 'Yes', complete Items 6 through 10 for each affected location and also submit an environmental assessment, as required by 47 CFR, Sections 1.1308 and 1.1311.

6) NAD83 Latitude (DD-MM-SS.S-D)	7) NAD83 Longitude (DDD-MM-SS.S-D)	8) City	9) County	10) State
() N or S	() E or W			
() N or S	() E or W			
() N or S	() E or W			
() N or S	() E or W			
() N or S	() E or W			

Certifications

For Applicants Claiming Eligibility as an Entrepreneur Under the General Rule

Applicant certifies that they are eligible to obtain the licenses for which they apply.

For Applicants Claiming Eligibility as a Publicly Traded Corporation

Applicant certifies that they are eligible to obtain the licenses for which they apply and that they comply with the definition of a Publicly Traded Corporation, as set out in the applicable FCC rules.

For Applicants Claiming Eligibility using a Control Group Structure

Applicant certifies that they are eligible to obtain the licenses for which they apply.
Applicant certifies that the applicant's sole control group member is a pre-existing entity, if applicable.

For Applicants Claiming Eligibility as a Very Small Business, Very Small Business Consortium, Small Business, or as a Small Business Consortium

Applicant certifies that they are eligible to obtain the licenses for which they apply.
Applicant certifies that the applicant's sole control group member is a pre-existing entity, if applicable.

For Applicants Claiming Eligibility as a Rural Telephone Company

Applicant certifies that they meet the definition of a Rural Telephone Company as set out in the applicable FCC rules, and must disclose all parties to agreement(s) to partition licenses won in this auction. See applicable FCC rules.

Information and Instructions

Wireless Telecommunications Bureau Schedule for Fixed Station Locations and Antenna Structures

Form FCC 601, Schedule D, is a supplementary schedule for use with the FCC Application for Wireless Telecommunications Bureau Radio Service Authorization, FCC 601 Main Form. This schedule is used to supply technical information for fixed transmit station locations, including antenna structures. File as many schedules as necessary to describe all fixed station locations, including antenna structures, in your application. The FCC 601 Main Form must be filed in conjunction with this schedule. This schedule is used in conjunction with the following technical data schedules:

Note: When required, antenna structures must be registered using FCC Form 854. The use of this form to supply antenna structure information does not replace the requirement to register antenna structures on the FCC Form 854. For more information, see our web site at <http://www.fcc.gov/wtb/antenna>, call the National Call Center at 1-888-CALL-FCC (225-5322), or e-mail questions to FCCITD@fcc.gov.

FCC 601, Schedule F - Technical Data Schedule for the Cellular and Air-ground (Commercial Aviation) Radiotelephone Services (Part 22)

FCC 601, Schedule G - Technical Data Schedule for the Maritime and Aviation Services (Parts 80 and 87)

FCC 601, Schedule H - Technical Data Schedule for the Private Land Mobile and Broadcast Auxiliary Land Mobile Radio Services (Parts 90 and 74)

FCC 601, Schedule J - Technical Data Schedule for the Paging, Rural, Air-ground (General Aviation), and Offshore Radiotelephone Services (Part 22)

It is recommended that Schedule D be completed prior to completing any required technical data schedules.

If you are applying for authorization of a mobile station operating around a fixed location, you must also file FCC 601, Schedule E, Schedule for Mobile, Temporary Fixed, and 6.1 Meter Control Station Locations. It is also recommended that you complete Schedule D prior to completing Schedule E.

Note: Some services have specific requirements and/or restrictions for some of the items on this schedule. Please refer to the instructions of the appropriate technical data schedule for service specific response requirements and restrictions.

Schedule D Instructions

This schedule must be completed only when a fixed station location is to be added, modified, or deleted. Schedule D contains 2 sections, each of which contains Items 1 through 17. Each section identifies one fixed station location.

If you are adding a new fixed station location, complete all items in a section for each fixed station location being added.

If you are modifying a fixed station location, in addition to Items 1, 2, and 4 (provide the seven digit antenna structure registration number), complete only the items that have changed for each fixed station location. If the modification involves technical data filed on one of accompanying FCC Technical Data Service Schedules F, G, H, or J, or involves the relocation of a fixed station, then Items 16 and 17 (if required) must also be completed.

If you are deleting a fixed station location, only Items 1 and 2 are required. If a fixed station location is deleted, the frequency, emission, and all related technical data that is linked to the fixed station location will automatically be deleted and will no longer be part of your authorization. Therefore, it is not necessary to complete the complementary technical data service schedule to delete frequency and emissions when a fixed station location is deleted using this schedule.

Fixed station locations that are currently licensed under this call sign by the FCC will continue to be shown on the Authorization as is, unless a specific action is requested.

Item 1 This item must be completed. It indicates what action the applicant wants the FCC to take on the specified location. Enter 'A' for Add, 'M' for Modify, or 'D' for Delete.

Item 2 This item must be completed. If the fixed station location has been previously licensed under this call sign by the FCC, enter its FCC-assigned location number (located on the Authorization). For a new fixed station location, assign a temporary code to represent the fixed station location. The assigned code should begin with F to indicate it is a fixed location and end with a number to uniquely identify it (e.g., F1, F2, F3, etc.). The FCC will assign an official number to the new station, which will appear on the Authorization.

If a mobile station is operating around this fixed station location, also complete and attach Schedule E (Schedule for Mobile, Temporary Fixed, and 6.1 Meter Control Station Locations), entering the fixed location number into Schedule E Item 3.

Item 3 This item only requires completion if the response to Item 1 is 'A' or 'M'. If Commission's rules recognize Primary and Secondary protection in conjunction with other fixed site facilities in the service, enter 'P' if you wish primary protection for the site or 'S' if you wish no protection for the site. If Commission's rules do not recognize Primary and Secondary protection in conjunction with other fixed site facilities in the service, Item 3 can be left blank. Refer to the applicable Commission's rules for your service for more information on Primary and Secondary protection.

Item 4 This item is required if the action requested in Item 1 is 'A' or 'M'. If antenna structure registration is required and the owner of the structure has registered the structure with the FCC, enter the seven digit FCC Antenna Structure Registration Number (shown on the structure's registration, FCC Form 854R). If the owner of the structure has filed FCC Form 854 with the Commission to register the structure but has not yet received a registration number, enter the file number of the Form 854 application. Otherwise, enter N/A (FAA notification is not required).

Note: Effective 7/1/96 the Commission requires owners to register certain structures. For more information, see our web site at <http://www.fcc.gov/wtb/antenna>, call the National Call Center at 888-CALL-FCC (225-5322), or e-mail questions to FCCITD@fcc.gov.

Items 5 and 6 Enter the geographic coordinates of the location, referenced to the North American Datum of 1983 (NAD83). This information can be determined in many ways, including a GPS receiver, a 7.5 minute topographical quadrangle map of the area, or you may consult the city or county surveyor in your area. Topographical maps may be purchased from the U.S. Geological Survey, Washington, DC 20242 or from its office in Denver, Colorado 80225.

Note: If the source from which you obtain the coordinates still utilizes an older datum (i.e., NAD27, PRD40) you must convert to NAD83. Conversion routines are available through the internet at <http://www.fcc.gov/wtb/uls/nadcon.html>.

Enter the latitude using the format *DD-MM-SS*, where the degrees (*DD*) term can have a value in the range of 0 to 90, minutes (*MM*) can range from 0 to 59, and seconds (*SS*) can range from 0 to 59.9. If desired, seconds may be expressed to the nearest tenth of a second (in which case, use the format *DD-MM-SS.S*). In the lower right corner, specify the direction as either N for North or S for South.

Enter the longitude using the format *DDD-MM-SS*, where the degrees (*DDD*) term can have a value in the range of 0 to 180, minutes (*MM*) can range from 0 to 59, and seconds (*SS*) can range from 0 to 59.9. If desired, seconds may be expressed to the nearest tenth of a second (in which case, use the format *DDD-MM-SS.S*). In the lower right corner, specify the direction as either E for East or W for West.

Items 7-10 These items identify the location by its address or, if there is no address, by a brief specific geographic description of the location, such as distance and direction from known landmarks (e.g., '5 km S of Anytown, Adams County, NY'). P.O. Box numbers or geographic coordinates are not acceptable for Item 7. For rural or unincorporated areas, enter the nearest city or town to the transmitter antenna location for Item 8. Enter the county in Item 9 and the state in Item 10. Refer to FCC 601 Main Form Instructions, Appendix II, for a list of valid state, jurisdiction, and area abbreviations.

Item 11 Respond to this item only if you indicated N/A in Item 4 or if coordination procedures are required with the Canadian Government. Enter the elevation above mean sea level (AMSL) of the ground at the antenna location. Enter this item in meters, rounded to the nearest tenth. Refer to letter 'a' in the antenna structure figure examples at the end of the Form FCC 601 Schedule D instructions. This information can be determined in many ways, including a GPS receiver, 7.5 minute topographical quadrangle map of the area, or you may consult the city or county surveyor in your area. Topographical maps may be purchased from the U.S. Geological Survey, Washington, DC 20242 or from its office in Denver, Colorado 80225.

Note: Canadian coordination procedures are required if the station is located North of Line A or East of Line C. Refer to Section 1.955 of the Commission's rules for a detailed explanation of Lines A and C. Appendix I in FCC Form 601 Main Form Instructions contains a list of counties, by state, having areas North of Line A.

Item 12 Respond to this item only if you indicated N/A in Item 4. Enter the code for the type of structure on which the antenna is or will be mounted from the following valid structure types:

<u>Code</u>	<u>Definition</u>
B	Building with a side mounted antenna
BANT	Building with Antenna on Top
BMAST	Building with Mast/Antenna on Top
BPIPE	Building with Pipe/Antenna on Top
BPOLE	Building with Pole/Antenna on Top
BRIDG	Bridge
BTWR	Building with Tower/Antenna on Top
MAST	Self-Support Structure
NNTANN*	Antenna Tower Array
NTOWER**	Multiple Structures
PIPE	Any Type of Pipe
POLE	Any Type of Pole. Pole used only to mount an antenna.
RIG	Oil or Other Type of Rig
SILO	Any Type of Silo
STACK	Smoke Stack
TANK	Any Type of Tank, Water, Gas, etc.
TOWER	A Free Standing Guyed Structure Used for Communications Purposes
TREE	When Used as a Support for an Antenna
UPOLE	Utility Pole/Tower Used to Provide Service (Electric, Telephone, etc.)

* Valid Tower Arrays. Code definition: The first NN indicates the number of towers in an array. The second NN is optional and indicates the position of that tower in the array (Ex.: 3TA2 would identify the second tower in a three tower array).

** Valid Multiple Structures. Code Definition: The N indicates the number of towers in a multiple structure (Ex.: 2TOWER, 3TANK, 4TREE, 6BANT, 7BMAST).

Item 13 Applicable to Aviation Services (Part 87) only. Enter the three or four character code assigned to the airport (if applicable).

Item 14 Respond to this item only if you indicated N/A in Item 4. Enter the height above ground to the highest point of the **supporting structure only**. Enter this item in meters, rounded to the nearest tenth. For example, if the antenna structure consists of a building/tower combination, include any elevator shaft, flag pole, or penthouse in the **overall** support structure height, but not the antenna, tower, pole, or mast. If the antenna structure is a tower only, include the height of the tower but not the antenna. Refer to letter 'b' in the antenna structure figure examples at the end of the Form FCC 601 Schedule D instructions.

Item 15 Respond to this item only if you indicated N/A in Item 4. Enter the overall height above ground of the entire antenna structure to the highest point, including any appurtenances. Enter this item in meters, rounded to the nearest tenth. You must include antennas, dishes, obstruction lighting, etc. Refer to letter 'c' in the antenna structure figure examples at the end of the Form FCC 601 Schedule D instructions.

Item 16 This item is required for compliance with the National Environmental Policy Act of 1969, as amended, 42 U.S.C. 4321-4335. See also Part 1, Subpart I of the FCC rules (47 CFR 1.1301 - 1.1319). This item must be answered, either 'Y' or 'N'.

Enter 'Y' if an FCC grant of the proposed facility may have a significant environmental effect, as defined in Section 1.1307 of the FCC rules and provide the required environmental assessment. Otherwise enter 'N'. Examples of facilities that may have a significant effect on the environment include:

An antenna structure located in a residential area (as defined by applicable zoning laws) that will utilize high intensity aviation obstruction lighting

A facility located in an officially designated wilderness area, wildlife preserve, or floodplain

A facility that affects a site significant in American history

A facility whose construction involves extensive changes in surface features

Facilities, operations, or transmitters that would cause human exposure to levels of radio frequency radiation in excess of the limits as detailed in § 1.1310 and 2.109 of the Commission's rules.

Item 17 Applicants for stations located in one of the quiet zones listed below must notify the proper authority and indicate the date such notification was sent in Item 17.

1. National Radio Astronomy Observatory, Green Bank, Pocahontas County, West Virginia. The quiet zone is located within Virginia, West Virginia, and Garrett County, Maryland and bounded by 39 degrees 15' N on the north, 78 degrees 30' W on the east, 37 degrees 30' N on the south, and 80 degrees 30' W on the west. Contact the National Radio Astronomy Observatory, P.O. Box 2, Green Bank, West Virginia 24944.

2. Arecibo Observatory, Puerto Rico. The quiet zone consists of the islands of Puerto Rico, Desecheo, Mona, Vieques, and Culebra. Contact the Interference Office, Arecibo Observatory, Post Office Box 995, Arecibo, Puerto Rico 00613. Applicants for stations located in this quiet zone must indicate, in its application, the date such notification was sent.

Antenna Structure Figure Examples:

1) Action Requested: () <u>A</u> dd <u>M</u> od <u>D</u> el		2) Fixed Location Number:		3) Site Status:	
4) FCC Antenna Structure Registration # or Form 854 File Number or N/A (FAA Notification not Required)					
5) Latitude (DD-MM-SS.S):			NAD83 () <u>N</u> or <u>S</u>		6) Longitude (DDD-MM-SS.S):
					NAD83 () <u>E</u> or <u>W</u>
7) Street Address, Name of Landing Area, or Other Location Description:					
8) City:		9) County:		10) State:	
11) Elevation of Site AMSL (meters) ('a' in antenna structure example):		12) Support Structure Type:		13) Airport Identifier:	
14) Overall Ht AGL Without Appurtenances (meters) ('b' in antenna structure example):			15) Overall Ht AGL With Appurtenances (meters) ('c' in antenna structure example):		
16) Would a Commission grant of Authorization for this location be an action which may have a significant environmental effect as defined by Section 1.1307 of 47 CFR? If 'Yes', submit an environmental assessment as required by 47 CFR, Sections 1.1308 and 1.1311. () <u>Y</u> es <u>N</u> o					
17) If the proposed site is located in one of the quiet zones listed in Item 17 of the Instructions, provide the date the proper authority was notified:					

1) Action Requested: () <u>A</u> dd <u>M</u> od <u>D</u> el		2) Fixed Location Number:		3) Site Status:	
4) FCC Antenna Structure Registration # or Form 854 File Number or N/A (FAA Notification not Required)					
5) Latitude (DD-MM-SS.S):			NAD83 () <u>N</u> or <u>S</u>		6) Longitude (DDD-MM-SS.S):
					NAD83 () <u>E</u> or <u>W</u>
7) Street Address, Name of Landing Area, or Other Location Description:					
8) City:		9) County:		10) State:	
11) Elevation of Site AMSL (meters) ('a' in antenna structure example):		12) Support Structure Type:		13) Airport Identifier:	
14) Overall Ht AGL Without Appurtenances (meters) ('b' in antenna structure example):			15) Overall Ht AGL With Appurtenances (meters) ('c' in antenna structure example):		
16) Would a Commission grant of Authorization for this location be an action which may have a significant environmental effect as defined by Section 1.1307 of 47 CFR? If 'Yes', submit an environmental assessment as required by 47 CFR, Sections 1.1308 and 1.1311. () <u>Y</u> es <u>N</u> o					
17) If the proposed site is located in one of the quiet zones listed in Item 17 of the Instructions, provide the date the proper authority was notified:					

Information and Instructions

Wireless Telecommunications Bureau Schedule for Mobile, Temporary Fixed, and 6.1 Meter Control Station Locations

Form FCC 601, Schedule E, is a supplementary schedule for use with the FCC Application for Wireless Telecommunications Bureau Radio Service Authorization, FCC 601 Main Form. This schedule is used to supply technical information for mobile transmit locations, temporary fixed stations, itinerant stations, and 6.1 meter control stations. File as many schedules as needed to describe all mobile transmit locations, temporary fixed stations, itinerant stations, and 6.1 meter control stations included in your application. The FCC 601 Main Form must be filed in conjunction with this schedule. This schedule is used in conjunction with the following technical data schedules:

FCC 601, Schedule G - Technical Data Schedule for the Maritime and Aviation Services (Parts 80 and 87)

FCC 601, Schedule H - Technical Data Schedule for the Private Land Mobile and Broadcast Auxiliary Land Mobile Radio Services (Parts 90 and 74)

FCC 601, Schedule J - Technical Data Schedule for the Paging, Rural, Air-ground (General Aviation), and Offshore Radiotelephone Services (Part 22)

It is recommended that Schedule E be completed prior to completing any required technical data schedules.

If you are applying for authorization of a mobile station operating around a fixed location, you must also file FCC 601, Schedule D, Schedule for Fixed Station Locations and Antenna Structures. It is also recommended that you complete Schedule D prior to completing Schedule E.

Note: Some services have specific requirements and/or restrictions for some of the items on this schedule. Please refer to the instructions of the appropriate technical data schedule for service specific response requirements and restrictions.

Schedule E Instructions

This schedule must be completed only when a mobile transmit station, temporary fixed station, itinerant station, or 6.1 meter control station is to be added, modified, or deleted. Schedule E contains 2 sections, each of which contains Items 1 through 18. Each section identifies one mobile transmit location, temporary fixed station, itinerant station, or 6.1 meter control station.

If you are adding a new mobile station, temporary fixed station, itinerant station, or 6.1 meter control station, complete all items in a section for each station to be added. If the modification involves technical data filed on one of accompanying FCC Technical Data Service Schedules G, H, or J, or involves the relocation of a control station, then Items 16 and 17 (if required) must also be completed.

If you are modifying a station, in addition to Items 1, and 2, complete only the items that have changed for each station.

If you are deleting a station, only Items 1 and 2 are required. If a station is deleted, the frequency and emission data that is linked to the station will automatically be deleted and will no longer be part of your authorization. Therefore, it is not necessary to complete the complementary technical data service schedule to delete frequency and emissions when a station is deleted using this schedule.

Mobile transmit locations, temporary fixed stations, itinerant stations, and 6.1 meter control stations that are currently licensed under this call sign by the FCC will continue to be shown on the authorization as is, unless a specific action is requested.

Item 1 This item must be completed. It indicates what action the applicant wants the FCC to take on the specified location. Enter 'A' for Add, 'M' for Modify, or 'D' for Delete.

Item 2 If the location has been previously licensed under this call sign by the FCC, enter the FCC-assigned location number (located on the Authorization). For a new mobile transmit station, temporary fixed station, itinerant station, or 6.1 meter control station, assign a temporary code to represent the location. The assigned code should begin with M to indicate it is a mobile location and end with a number to uniquely identify it (e.g., M1, M2, M3, etc.). The FCC will assign an official number to the new station, which will appear on the Authorization.

Item 3 Respond to this item only if the mobile station for which you are applying is operating around a fixed location entered on FCC 601, Schedule D. Enter the fixed location number from Item 2 of Schedule D into Item 3 of this schedule. Also enter 'A' as the Area of Operation Code in Item 4 of this schedule.

Item 4 Enter the appropriate area of operation code using the table below. Additional Schedule E fields must be completed according to the area of operation code chosen. Refer to the table to determine which additional fields are required on Schedule E for the chosen area of operation code. Only one area of operation code may be selected for each mobile location.

Area of Operation Codes and Required Data Values

Code	Description	Additional Schedule E Data Elements Required to Complete for Area of Operation Code					
A	KMRA* around a Fixed location listed on Schedule D (option not available to Maritime or Aviation Services)	Temporary Fixed or Mobile Radius	Fixed Location Number				
P	KMRA* around a Centerpoint	Temporary Fixed or Mobile Radius	Latitude	Longitude	City**	County**	State**
N	Nationwide including Hawaii Alaska & US Territories						
U	Continental US						
C	County Wide Area of Operation	County	State				
S	Statewide Area of Operation	State					
O	Other - Narrative	Item 15					
R	Box / Rectangular Area of Operation	Maximum Latitude	Maximum Longitude	Latitude		Longitude	
X	Land Mobile Control Station Meeting the 6.1 Meter	State					

*Kilometers Radius

** Complete as applicable - refer to instructions for applicability.

Item 5 Complete this item for temporary or mobile stations where the area of operation will be defined as a radius around a specified set of coordinates. If 'A', or 'P' was entered for Item 4, enter the radius in this item. Enter in kilometers, rounded to the nearest tenth.

Item 6 Used for Aviation services only. Enter the three or four character code assigned to the airport (if applicable).

Items 7 and 8 If 'P' was entered in Item 4, enter the geographic coordinates (latitude and longitude) of the location. If 'R' was entered in Item 4, enter the minimum geographic coordinates of the rectangular area or box.

Coordinates entered must be referenced to the North American Datum of 1983 (NAD83). This information can be determined in many ways, including a GPS receiver, a 7.5 minute topographical quadrangle map of the area, or you may consult the city or county surveyor in your area. Topographical maps may be purchased from the U.S. Geological Survey, Washington, DC 20242 or from its office in Denver, Colorado 80225.

Note: If the source from which you obtain the coordinates still utilizes an older datum (i.e., NAD27, PRD40) you must convert to NAD83. Conversion routines are available through the internet at <http://www.fcc.gov/wtb/uls/nadcon.html>.

Enter the latitude using the format DD-MM-SS, where the degrees (DD) term can have a value in the range of 0 to 90, minutes (MM) can range from 0 to 59, and seconds (SS) can range from 0 to 59.9. If desired, seconds may be expressed to the nearest tenth of a second (in which case, use the format DD-MM-SS.S). In the lower right corner, specify the direction as either 'N' for North or 'S' for South.

Enter the longitude using the format DDD-MM-SS, where the degrees (DDD) term can have a value in the range of 0 to 180, minutes (MM) can range from 0 to 59, and seconds (SS) can range from 0 to 59.9. If desired, seconds may be expressed to the nearest tenth of a second (in which case, use the format DDD-MM-SS.S). In the lower right corner, specify the direction as either 'E' for East or 'W' for West.

Items 9 and 10 These items are to be completed for operations that are defined by a rectangular area or box coordinates. If code 'R' was entered in Item 4, enter the maximum geographic coordinates (latitude and longitude) in Items 9 and 10.

Coordinates entered must be referenced to the North American Datum of 1983 (NAD83). This information can be determined in many ways, including a GPS receiver, a 7.5 minute topographical quadrangle map of the area, or you may consult the city or county surveyor in your area. Topographical maps may be purchased from the U.S. Geological Survey, Washington, DC 20242 or from its office in Denver, Colorado 80225.

Note: If the source you obtain the coordinates from still utilizes an older datum (*i.e.*, NAD27, PRD40) you must convert to NAD83. Conversion routines are available through the internet at <http://www.fcc.gov/wtb/uls/nadcon.html>.

Enter the latitude using the format *DD-MM-SS*, where the degrees (*DD*) term can have a value in the range of 0 to 90, minutes (*MM*) can range from 0 to 59, and seconds (*SS*) can range from 0 to 59.9. If desired, seconds may be expressed to the nearest tenth of a second (in which case, use the format *DD-MM-SS.S*). In the lower right corner, specify the direction as either 'N' for North or 'S' for South.

Enter the longitude using the format *DDD-MM-SS*, where the degrees (*DDD*) term can have a value in the range of 0 to 180, minutes (*MM*) can range from 0 to 59, and seconds (*SS*) can range from 0 to 59.9. If desired, seconds may be expressed to the nearest tenth of a second (in which case, use the format *DDD-MM-SS.S*). In the lower right corner, specify the direction as either 'E' for East or 'W' for West.

Items 11 If 'P' was entered in Item 4, enter the city or town name of the location in this item. This item is required only if Item 12 is blank.

Items 12 If 'P' or 'C' was entered in Item 4, enter the county of the location in this item. This item is always required for area of operation code 'C'. This item is also required for area of operation code 'P' except when: (a) the city entered in Item 11 is an independent city that is not affiliated with a county (*i.e.*, Baltimore, MD), or (b) the state entered in Item 13 does not have counties (*i.e.*, Alaska, Virgin Islands).

Items 13 If 'P', 'C', 'S', or 'X' was entered in Item 4, enter the state of the location in this item (if 'X' was entered in Item 4, enter the state of the primary control station). Refer to FCC 601 Main Form Instructions, Appendix II, for a list of valid state, jurisdiction, and area abbreviations.

Item 14 This item helps the FCC to determine if it will initiate coordination procedures with the Government of Canada. If any part of the mobile location is North of Line A, enter 'Y' in the appropriate field. If any part of the mobile location is East of Line C (applies to stations located in Alaska only), enter 'Y' in the appropriate field. In the event the applicant needs to submit additional information regarding coordination of a channel assignment with the Government of Canada, this should be attached as an exhibit which references Schedule E Item 14. If 'N' is entered for both questions, the FCC will not initiate coordination procedures with the Government of Canada and your area of operation will be excluded from these border areas. Refer to Section 1.955 of the Commission's rules for a detailed explanation of Lines A and C. Appendix I in FCC Form 601 Main Form Instructions contains a list of counties, by state, having areas North of Line A.

Item 15 If the response to Item 4 was 'O', enter a description of the area of operation. P.O. Box numbers or geographic coordinates are not acceptable for Item 15. The use of Other-Narrative should only be used if the area of operation cannot be described by using one of the other codes. Area of operation provided as Other-Narrative may delay processing of the application.

Item 16 This item does not apply to Land Mobile or Broadcast Auxiliary Land Mobile Radio Services. Enter the number of units for each type listed: Hand Held, Mobile, Temporary Fixed, Aircraft, and Itinerant. For systems operating pursuant to Part 22, provide the number of subscribers (in mobiles) along with the number of temporary fixed transmitters.

Item 17 This item is required for compliance with the National Environmental Policy Act of 1969, as amended, 42 U.S.C. 4321-4335. See also Part 1, Subpart I of the FCC rules (47 CFR 1.1301 - 1.1319). This item must be answered, either 'Y' or 'N'.

Enter 'Y' if an FCC grant of the proposed facility may have a significant environmental effect, as defined in Section 1.1307 of the FCC rules and provide the required environmental assessment. Otherwise enter 'N'. Examples of facilities that may have a significant effect on the environment include:

An antenna structure located in a residential area (as defined by applicable zoning laws) that will utilize high intensity aviation obstruction lighting

A facility located in an officially designated wilderness area, wildlife preserve, or floodplain

A facility that affects a site significant in American history

A facility whose construction involves extensive changes in surface features

Facilities, operations, or transmitters that would cause human exposure to levels of radio frequency radiation in excess of the limits as detailed in § 1.1310 and 2.109 of the Commission's rules.

Item 18 This item should only be completed for control stations. Applicants for control stations located in one of the quiet zones listed below, must notify the proper authority.

1. National Radio Astronomy Observatory, Green Bank, Pocahontas County, West Virginia. The quiet zone is located within Virginia, West Virginia, and Garrett County, Maryland and bounded by 39 degrees 15' N on the north, 78 degrees 30' W on the east, 37 degrees 30' N on the south, and 80 degrees 30' W on the west. Contact the National Radio Astronomy Observatory, P.O. Box 2, Green Bank, West Virginia 24944.

2. Arecibo Observatory, Puerto Rico. The quiet zone consists of the islands of Puerto Rico, Desecheo, Mona, Vieques, and Culebra. Contact the Interference Office, Arecibo Observatory, Post Office Box 995, Arecibo, Puerto Rico 00613. Applicants for stations located in this quiet zone must indicate, in its application, the date such notification was sent.

1) Action Requested: () <u>Add</u> <u>Mod</u> <u>Del</u>		2) Mobile Location Number:		3) Fixed Location Number:	
4) Area of Operation Code:		5) Temporary Fixed or Mobile Radius (km):		6) Airport Identifier:	
7) Latitude (DD-MM-SS.S): NAD83 () <u>N</u> or <u>S</u>		8) Longitude (DDD-MM-SS.S): NAD83 () <u>E</u> or <u>W</u>			
9) Maximum Latitude (DD-MM-SS.S): Use for rectangle only NAD83 () <u>N</u> or <u>S</u>		10) Maximum Longitude (DDD-MM-SS.S): Use for rectangle only NAD83 () <u>E</u> or <u>W</u>			
11) City:		12) County:		13) State:	
14) Is any part of your operation North of Line A? () <u>Yes</u> <u>No</u> Is any part of your operation East of Line C? () <u>Yes</u> <u>No</u>					
15) Description: (only for Area of Operation Code 'O')					
16) Number of Units: <u> </u> Hand Held <u> </u> Mobile <u> </u> Temporary Fixed <u> </u> Aircraft <u> </u> Itinerant					
17) Would a Commission grant of Authorization for this location be an action which may have a significant environmental effect as defined by Section 1.1307 of 47 CFR? () <u>Yes</u> <u>No</u> If 'Yes', submit an environmental assessment as required by 47 CFR, Sections 1.1308 and 1.1311.					
18) If the proposed site is located in one of the quiet zones listed in Item 18 of the Instructions, provide the date the proper authority was notified:					

1) Action Requested: () <u>Add</u> <u>Mod</u> <u>Del</u>		2) Mobile Location Number:		3) Fixed Location Number:	
4) Area of Operation Code:		5) Temporary Fixed or Mobile Radius (km):		6) Airport Identifier:	
7) Latitude (DD-MM-SS.S): NAD83 () <u>N</u> or <u>S</u>		8) Longitude (DDD-MM-SS.S): NAD83 () <u>E</u> or <u>W</u>			
9) Maximum Latitude (DD-MM-SS.S): Use for rectangle only NAD83 () <u>N</u> or <u>S</u>		10) Maximum Longitude (DDD-MM-SS.S): Use for rectangle only NAD83 () <u>E</u> or <u>W</u>			
11) City:		12) County:		13) State:	
14) Is any part of your operation North of Line A? () <u>Yes</u> <u>No</u> Is any part of your operation East of Line C? () <u>Yes</u> <u>No</u>					
15) Description: (only for Area of Operation Code 'O')					
16) Number of Units: <u> </u> Hand Held <u> </u> Mobile <u> </u> Temporary Fixed <u> </u> Aircraft <u> </u> Itinerant					
17) Would a Commission grant of Authorization for this location be an action which may have a significant environmental effect as defined by Section 1.1307 of 47 CFR? () <u>Yes</u> <u>No</u> If 'Yes', submit an environmental assessment as required by 47 CFR, Sections 1.1308 and 1.1311.					
18) If the proposed site is located in one of the quiet zones listed in Item 18 of the Instructions, provide the date the proper authority was notified:					

Information and Instructions

Technical Data Schedule for the Cellular and Air-ground (Commercial Aviation) Radiotelephone Services (Part 22)

Form FCC 601, Schedule F, is a supplementary schedule for use with the FCC Application for Wireless Telecommunications Bureau Radio Service Authorization, FCC 601 Main Form. This schedule is used to apply for an authorization to operate a radio station, amend a pending application, or modify an existing license in the Cellular Radiotelephone and Commercial Air-ground Radiotelephone Services. The FCC 601 Main Form must be filed in conjunction with this schedule.

You must file technical information for each location and antenna structure using FCC 601, Schedule D, Schedule for Fixed Station Locations and Antenna Structures. It is recommended that you complete Schedule D prior to completing Schedule F.

Schedule F Instructions

Item 1 Indicate whether the application is for a Phase I Cellular unserved area or a Phase II Cellular unserved area, as defined by 47 CFR Section 22.949(a). If the application is neither a Phase I or Phase II filing, enter 'N/A' for not applicable. If application is for a Phase I Cellular unserved area, complete Items 2 through 6, as applicable (one row only). If application is for a Phase II Cellular unserved area, complete Items 2 through 6, as applicable.

► Cellular Unserved Area Information

Item 2 Enter the market(s) to which the filing pertains. If this application is for a Phase I Cellular unserved area, list the market in which the cells for the proposed unserved area is located. If this application is for Phase II Cellular unserved areas, list the markets contained within the proposed Service Area Boundaries. Market designators are listed in the FCC Public Notices. Only one Cellular Geographic Service Area (CGSA) may be listed on an application.

Item 3 Enter the market name of the specified market designator.

Item 4 Enter the sub-market designator only if the market has been subdivided. Sub-market designators are listed in the FCC Public Notices.

Item 5 Enter the channel block of the market, either 'A' or 'B'.

Item 6 For each antenna structure, enter its corresponding location number, as entered on Schedule D Item 2. If the location has been previously licensed under this call sign by the FCC, enter the FCC-assigned location number (located on the Authorization). Otherwise, enter the code assigned on Schedule D to represent the location. Refer to the instructions for Schedule D for more information on assigning location numbers.

► System Identification Numbers (Cellular Only)

This section must be completed only when a system identification number is to be added or deleted. If you are adding a new system identification numbers, complete all items in this section for each system identification number to be added. If you are deleting a system identification number, only Items 9, 10, 11 and 12 are required. System identification numbers that are currently licensed under this call sign by the FCC will continue to be shown on the Authorization as is, unless a specific action is requested in this section.

Item 7 This item indicates what action the filer wants the FCC to take in the database on the specified system identification number. Enter 'A' for Add, or 'D' for Delete.

Item 8 Enter the system identification (SID) number for the specified market. If the request is for a new cellular license or system, the FCC will provide a system identification number. If the SID entered is assigned to another cellular system, an attachment is required indicating concurrence of the licensee of the other system for use of the assigned SID. Refer to 47 CFR Section 22.941 for more information on system identification numbers.

Item 9 Enter the market(s) to which the filing pertains. The market designators are listed in the FCC Public Notices.

Item 10 In addition to Item 9, this item identifies the market(s) to which the filing pertains. The market names are listed in the FCC Public Notices.

Item 11 Enter the sub-market designator only if the market has been subdivided. The sub-market designators are listed in the FCC Public Notices.

Item 12 Enter the channel block of the specified market, either 'A' or 'B'.

►Control Points

This section must be completed only when a control point is to be added, modified, or deleted. If you are adding a new control point, complete all items in this section for each control point to be added. If you are modifying an existing control point, in addition to Items 13 and 14, complete only the items that have changed for each control point. If you are deleting a control point, only Items 13 and 14 are required. Control Points that are currently licensed under this call sign by the FCC will continue to be shown on the Authorization as is, unless a specific action is requested in this section.

Item 13 This item indicates what action the filer wants the FCC to take on the specified control point. Enter 'A' for Add, 'M' for Modify, or 'D' for Delete.

Item 14 If the control point has been previously licensed under this call sign by the FCC, enter its FCC-assigned control point number (located on the Authorization). For a new control point, assign a temporary code to represent the control point. The assigned code should begin with C to indicate it is a control point and end with a number to uniquely identify it (e.g., C1, C2, C3, etc.). The FCC will assign an official number to the new control point, which will appear on the Authorization.

Item 15 Enter the street address, city or town, county, and state of the control point. Refer to FCC 601 Main Form Instructions, Appendix II, for a list of valid state, jurisdiction, and area abbreviations.

Item 16 Enter the telephone number, including area code, where a person responsible for operation of the station or systems could be reached.

►Cellular Geographic Service Area

Item 17 If this filing requests a Cellular Geographic Service Area (CGSA) boundary to be determined using an alternative method, enter 'Y' for Yes. If you respond Yes to this item, you must attach an exhibit explaining the circumstances. Otherwise, enter 'N' for No.

► Commercial Aviation Air-ground Technical Parameters (Antenna Data)

This section must be completed by Commercial Air-ground applicants when antennas are to be added, modified, or deleted. If you are adding new antennas, complete all items in this section for each antenna to be added. If you are modifying an existing antenna, in addition to Items 18, 19, and 20, complete only the items that have changed for each antenna. If you are deleting antennas, only Items 18, 19, and 20 are required. Technical parameters currently licensed under this call sign by the FCC will continue to be shown on the Authorization as is, unless a specific action is requested in this section.

Item 18 This item indicates what action the filer wants the FCC to take on the specified antenna. Enter 'A' for Add, 'M' for Modify, or 'D' for Delete.

Item 19 For each antenna structure, enter its corresponding location number, as entered on Schedule D Item 2. If the location has been previously licensed under this call sign by the FCC, enter the FCC-assigned location number (located on the Authorization). Otherwise, enter the code assigned on Schedule D to represent the location. Refer to the instructions for Schedule D for more information on assigning location numbers.

Item 20 If the antenna has been previously licensed with the Commission, enter the antenna's FCC-assigned number (located on the Authorization). Otherwise, enter a temporary code to represent each antenna. The assigned code should begin with an A to indicate it is an antenna and end with a number to uniquely identify it (e.g., A1, A2, A3, etc.). A single location can have multiple antennas. Antenna numbers need only be unique within each location. The FCC will assign an official number to the new antenna, which will appear on the Authorization.

Item 21 This item reports the actual height at which the antenna is mounted. Enter this item in meters, rounded to the nearest tenth.

Item 22 This item reports the maximum effective radiated power (ERP) of the facility in any direction on the specified channel. The value must be stated in watts.

►Cellular Radial Data

This section must be completed by cellular applicants when adding a new location, modifying the radial data for an existing location, or amending the radial data proposed in a pending application. If you are adding a new location, complete all items in this section. If you are modifying existing radial data or amending a pending application, complete items 23, 24, and only those items that you are proposing to change. Radial data currently licensed under this call sign by the FCC will continue to be shown on the Authorization as is, unless a specific action is requested in this section.

Applicants must propose one set of radial data for each antenna used at a location. If a sectorized antenna system (i.e. multiple antennas) is to be used, submit separate radial data for each of the antennas. Likewise, if multiple antenna systems are to be used at a location -- for example, separate antenna systems for the control channels and voice channels -- submit radial data for each antenna in each system separately.

Item 23 This item indicates what action the filer wants the FCC to take on the radial data of the specified antenna. Enter 'A' for Add or 'M' for Modify.

Item 24 For each antenna structure, enter its corresponding location number, as entered on Schedule D Item 2. If the location has been previously licensed under this call sign by the FCC, enter the FCC-assigned location number (located on the Authorization). Otherwise, enter the code assigned on Schedule D to represent the location. Refer to the instructions for Schedule D for more information on assigning location numbers.

Item 25 If the antenna has been previously licensed with the Commission, enter the antenna's FCC-assigned number (located on the Authorization). Otherwise, enter a temporary code to represent each antenna. The assigned code should begin with an A to indicate it is an antenna and end with a number to uniquely identify it (e.g., A1, A2, A3, etc.). A single location can have multiple antennas. Antenna numbers need only be unique within each location. The FCC will assign an official number to the new antenna, which will appear on the Authorization.

Item 26 This item reports the height of the antenna center of radiation above the average terrain elevation (AAT) along each of the eight cardinal radials. Enter this item in meters, rounded to the nearest tenth.

Item 27 This item reports, in watts, the effective radiated power (ERP) along each of the eight cardinal radial directions.

Item 28 This item reports the distance to the Cellular Geographic Service Area (CGSA) produced from the specified antenna. This item should not include distances to the CGSA boundary established by other antennas. Enter this item in kilometers rounded to the nearest tenth. All azimuths may not have entries.

►Certification

By signing the FCC 601 Main Form, Cellular applicants certify compliance with this item and 47 CFR § 22.913.

Technical Data Schedule for the
Cellular and Air-ground (Commercial Aviation)
Radiotelephone Services (Part 22)

1) Identify whether this application is for a Phase I unserved area or a Phase II unserved area as defined by 47 CFR Section 22.949(a). If so, complete Items 2 through 6, as applicable.	<input type="checkbox"/> Phase I <input type="checkbox"/> Phase II <input type="checkbox"/> N/A
---	---

Unserved Area Information

2) Market Designator	3) Market Name	4) Sub-Market Designator	5) Channel Block	6) Location Number

System Identification Numbers

7) Action A/D	8) SIDS	9) Market Designator	10) Market Name	11) Sub-Market Designator	12) Channel Block

Control Points

13) Action A/M/D	14) Control Point Number	15) Location Street Address, City or Town, County, State	16) Telephone Number

17) Is this a request for a CGSA boundary to be determined using an alternative method? If 'Yes', attach an exhibit explaining circumstances.	<input type="checkbox"/> Yes <input type="checkbox"/> No
--	--

Cellular Radial Data

23) Action: () <u>A</u> dd <u>M</u> odify		24) Location Number:	25) Antenna Number:
Azimuth (degrees from true north)	26) Antenna Height AAT (meters)	27) Transmitting ERP (watts)	28) Distance to CGSA (kilometers)
0°			
45°			
90°			
135°			
180°			
225°			
270°			
315°			

23) Action: () <u>A</u> dd <u>M</u> odify		24) Location Number:	25) Antenna Number:
Azimuth (degrees from true north)	26) Antenna Height AAT (meters)	27) Transmitting ERP (watts)	28) Distance to CGSA (kilometers)
0°			
45°			
90°			
135°			
180°			
225°			
270°			
315°			

I certify that (1) the maximum ERP for the proposed cellular base or repeater station will never exceed 500 Watts and (2) if the distance to the SAB as calculated in accordance with 47 CFR § 22.911 exceeds 79.1 km (45 miles) [Gulf of Mexico MSA] or 40.2 km (25 miles) [all other cellular markets], I have coordinated such use with the licensees of all affected cellular systems on the same channel block within 121 km (75 miles) and concurrence has been obtained from each licensee.

Information and Instructions

Technical Data Schedule for the
Maritime and Aviation Services (Parts 80 and 87)

Form FCC 601, Schedule G, is a supplementary schedule for use with the FCC Application for Wireless Telecommunications Bureau Radio Service Authorization, FCC 601 Main Form. This schedule is used to apply for an authorization to operate a land station in the Maritime Service or a ground station in the Aviation Service, as defined in 47 CFR, Part 80 or Part 87, respectively. It is also used to amend a pending application or modify an existing license in these services. The FCC 601 Main Form must be filed in conjunction with this schedule.

If you are applying for authorization of fixed transmit station locations, you must file technical information for each location, including the antenna structures, using FCC 601, Schedule D, Schedule for Fixed Station Locations and Antenna Structures. It is recommended that you complete Schedule D (if required) prior to completing Schedule G.

If you are applying for authorization of hand held units/mobile transmit locations, temporary fixed station locations, or itinerant stations, you must file technical information for each location or station using FCC 601, Schedule E, Schedule for Mobile, Temporary Fixed, and 6.1 Meter Control Station Locations. It is recommended that you complete Schedule E (if required) prior to completing Schedule G.

The following instructions apply when filing Schedules D or E in tandem with this schedule:

Maritime coast and aviation ground stations may not submit both schedules D and E in the same application package (one application package being an FCC 601 Main Form and any associated schedules). Separate application packages must be submitted for fixed and mobile operations.

Schedule E Item 3 This item does not apply to Maritime Coast and Aviation Ground stations.

Schedule E Item 16 Each mobile location can contain only one occurrence of a unit type. For example, if a number of units is entered for 'Hand Held', then all other unit types should be blank. 'Hand Held', 'Mobile', and 'Temporary Fixed' unit types are applicable to any Maritime and Aviation service. 'Aircraft' and 'Itinerant' choices are only applicable to flight test stations.

Schedule G
Instructions

►Station Class

Item 1 Enter the appropriate station class code from one of the following tables. There are separate tables for Maritime Service and Aviation Service.

For Maritime Service, select the station class code from the following table:

Alaska Private	APX
Alaska Public	APC
Marine OPS Fixed	MFX
Marine Utility	FCU
Maritime Receiver Test	MRT
Maritime Support-Testing and Training	FCA
Private Coast	FCL
Public Coast	FC
Shore Radionavigation	MSR
Shore Radionavigation/RACON	RLR
Shore Radar Test	MSC
Shore Radiolocation Test	RLC

Note: Where appropriate, follow each code with 1 for Hand Held/Mobile operations or 2 for Temporary operations.

For Aviation Service, select the station class code from the following tables:

AF Service

Aeronautical Advisory (Unicom)	FAA
Aeronautical Enroute	FA
Aeronautical Fixed	AX
Aeronautical Multicom	MFL
Aircraft (Flight Test Stations only)	FMA
Airport Control Tower or RCO	FAC
Automatic Weather Observation	FAB
Aviation Support Instructional	FAS
Aviation Support Service	FLU
Flight Test	FAT

AA Service

Aeronautical Search and Rescue	SAR
Aeronautical Utility Mobile	MOU
Operational Fixed	AOX

AR Service

Aeronautical Marker Beacon	RLA
Aeronautical Radio Beacon	RLB
ELT Test	ELT
Glide Path (Slope)	RLG
Localizer	RLL
Omnidirectional Radio Range	RLO
Radar/Radar Test	RLD
Radionavigation Land	RNV
Radionavigation Land Test	RLT

Note: Where appropriate, follow each code with 1 for Mobile operations, 2 for Temporary operations, or (for flight test stations only) 3 for Itinerant operations.

Item 2 This item must be answered 'Y' for Yes for the following station classes:

Aeronautical Advisory
Aeronautical Enroute/Fixed
Airport Control Tower Stations

For all other station classes, answer this item 'N' for No.

Item 3 This item must be answered by all applicants for public coast and Alaska public fixed stations. Otherwise, leave this item blank.

Control Points

This section must be completed only when a control point is to be added, modified, or deleted. If you are adding a new control point, complete all items in this section for each control point to be added. If you are modifying an existing control point, in addition to Items 4 and 5, complete only the items that have changed for each control point. If you are deleting a control point, only Items 4 and 5 are required. Control points that are currently licensed under this call sign by the FCC will continue to be shown on the Authorization as is, unless a specific action is requested in this section.

Item 4 This item indicates what action the filer wants the FCC to take on the specified control point. Enter 'A' for Add, 'M' for Modify, or 'D' for Delete.

Item 5 Enter the FCC-assigned control point number (located on the Authorization). For a new control point, assign a temporary code to represent the control point. The assigned code should begin with C to indicate it as a control point and end with a number to uniquely identify it (e.g., C1, C2, C3, etc.). The FCC will assign an official number to the control point, which will appear on the Authorization.

Item 6 Enter the street address, city or town, county, and state of the control point. Refer to FCC 601 Main Form Instructions, Appendix II, for a list of valid state, jurisdiction, and area abbreviations.

Item 7 Enter the telephone number (including area code) where a person responsible for operation of the station or systems could be reached.

►Antenna Information

This section must be completed only when antennas are to be added, modified, or deleted. If you are adding a new antenna, complete all items for each antenna to be added. If you are modifying an existing antenna, in addition to Items 8, 9, and 10, complete only the items for the antenna that have changed. If you are deleting an antenna, only Items 8, 9, and 10 are required. Antennas that are currently licensed under this call sign by the FCC will continue to be shown on the Authorization as is, unless a specific action is requested in this section.

Item 8 This item indicates what action the filer wants the FCC to take on the specified antenna. Enter 'A' for Add, 'M' for Modify, or 'D' for Delete.

Item 9 For each antenna, enter its corresponding location number, as entered on Schedule D Item 2 or Schedule E Item 2. If the location has been previously licensed under this call sign by the FCC, enter the FCC-assigned location number (located on the Authorization). Otherwise, enter the code assigned on Schedule D or Schedule E to represent the location. Refer to the instructions for Schedules D and E for more information on assigning location numbers.

Item 10 If the antenna has been previously licensed under this call sign by the FCC, enter the antenna's FCC-assigned number (located on the Authorization). Otherwise, enter a temporary code to represent each antenna. The assigned code should begin with an A to indicate it is an antenna and end with a number to uniquely identify it (e.g., A1, A2, A3, etc.). A single location can have multiple antennas. Antenna numbers need only be unique within each location. The FCC will assign the new antenna an official number, which will appear on the Authorization. If using hand held transmitters, consider all hand held transmitters at a given location to be one antenna.

Note: Location number (Item 9) and antenna number (Item 10) are used to associate information in the Antenna Information Section with information in the Frequency Information Section. To do this, enter the necessary information into the Antenna Information Section using the appropriate location number and antenna number. Then, enter the necessary information in the Frequency Information Section for that antenna, using the same location number/antenna number pair. Each antenna specified must have corresponding frequency information.

Item 11 Enter the ratio (decibels) of the power required at the input of a loss-free reference antenna to the power supplied to the input of the given antenna to produce, in a given direction, the same field strength or the same power-flux density at the same distance. This information should be available from the specification sheet included with the antenna at the time of purchase.

Item 12 Enter the angle in the horizontal plane of the transmitting antenna main lobe measured clockwise with respect to True North in degrees, or enter '360°' to indicate that the transmitting antenna is omni-directional.

Item 13 Enter the actual height from the ground to the tip of the antenna. Enter this item in meters, rounded to the nearest tenth.

Item 14 Enter the approximate attenuation, including any padding, to the nearest tenth of a dB, between the point at which the power output of the transmitter is measured for type-acceptance/notification approval and the input to the antenna. If this value is less than 1 dB, leave this item blank. For power splits, the power reduction for a particular path will be considered the loss.

Item 15 Enter the Half Power Beamwidth (Aeronautical Enroute HF and Public Coast HF stations only).

Item 16 Enter the Receive Zone (Aeronautical Enroute HF and Public Coast HF stations only).

►Frequency Information

This section must be completed only when frequencies are to be added, modified, or deleted. If you are adding new frequencies, complete all items for each frequency to be added. If you are modifying existing frequencies, complete all items for each frequency to be modified. If you are deleting frequencies, only Items 17 through 21 are required. Frequencies that are currently licensed under this call sign by the FCC will continue to be shown on the Authorization as is, unless a specific action is requested in this section.

Note: If station class FAC (for Airport Control Tower/RCO station) was entered in Item 1, complete Items 17, 18, 19, 20b, 20c, 21, 22, and 24 on page 4 of this schedule. All station classes except FAC complete Items 17, 18, 19, 20a, 21, 22, 23, and 24 on page 4 of this schedule. For multiple frequency lines, repeat the location number/antenna number combination for each frequency. For example:

<u>Location</u>	<u>Antenna</u>	<u>Frequency (MHz)</u>
F1	A1	XXXXX.XXXX
F1	A1	YYYYY.YYYY
F1	A1	ZZZZZ.ZZZZ
F1	A2	AAAAA.AAAA
F1	A2	BBBBB.BBBB
F2	A1	CCCCC.CCCC
F2	A1	DDDDD.DDDD

Item 17 This item indicates what action the filer wants the FCC to take on the specified antenna. Enter 'A' for Add, 'M' for Modify, or 'D' for Delete.

Item 18 For each antenna structure, enter its corresponding location number, as entered in Item 9 of the Antenna Information Section of this schedule.

Item 19 For each antenna, enter its corresponding antenna number, as entered in Item 10 of the Antenna Information Section of this schedule.

Item 20a (All station classes except Airport Control Tower/FAC) Enter the specific frequencies in Megahertz (MHz) in the 'Lower' column. The requested frequencies must be available in the Commission's rules governing the radio service in which you are seeking eligibility. If applying for a single-sideband frequency, show carrier frequency only. If applying for a frequency band, show the lower and upper frequencies in the appropriate columns. Use a separate line for each frequency. For Aviation Ground Radionavigation (Nav aids) or Automatic Weather Observation/Automatic Surface Observation stations: if frequency is not known, you may leave Item 20a blank. Items 21 and 22 must be completed.

If multiple frequencies are being added to one location, complete as many lines as necessary, repeating the location number in Item 18 and the antenna number in Item 19 for each frequency added. A separate line needs to be completed for each frequency if there are multiple emissions, multiple antenna tips, multiple station classes, etc. To do this, complete as many lines for each frequency as necessary, repeating the location number in Item 18, the antenna number in Item 19, the frequency in Item 20a, and the remaining technical information for each frequency line, as appropriate.

Item 20b (Station Class Airport Control Tower/FAC only) Enter the specific frequencies in Megahertz (MHz), if known. The requested frequencies must be available in the Commission's rules governing the radio service in which you are seeking eligibility. Use a separate line for each frequency.

If multiple frequencies are being added to one location, complete as many lines as necessary, repeating the location number in Item 18 and the antenna number in Item 19 for each frequency added. A separate line needs to be completed for each frequency if there are multiple emissions, multiple antenna tips, multiple station classes, etc. To do this, complete as many lines as for each frequency as necessary, repeating the location number in Item 18, the antenna number in Item 19, the frequency in Item 20b, and the remaining technical information for each frequency line, as appropriate.

Item 20c (Station Class FAC only) Enter one of the following frequency type codes for each requested frequency:

- L Local Control
- G Ground Control
- E Emergency (121.5 MHz) - List this frequency **only** if you wish to transmit on the frequency 121.5 MHz. Do not list the frequency if you intend to **monitor only**. If you wish to be exempt from the monitoring requirement, you must submit your exemption request as an attachment to this form.
- O Other - Use this code for ATIS (Automatic Terminal Information Service) and any other frequency not defined above.

If a Local Control, Ground Control, or Other frequency has not yet been reserved by FAA, you may leave Item 20b blank. However, you must complete a line for each requested frequency (Items 17, 18, 19, 20c, 21, 22, 23).

Item 21 Enter the maximum transmitter output power in watts.

Item 22 Enter the Proposed Hours of Operation (Public Coast, Public Fixed, and Airport Control Tower stations only).

Item 23 Enter the Operational Altitude (Aeronautical Enroute VHF stations only).

Item 24 Enter the emission designator for each station. The new ITU (International Telecommunications Union) emission designators may be used in place of the old designators. The following are samples of the corresponding new ITU designators for the most commonly used emission designators.

Note: These are samples only and do not necessarily represent an emission for which you should apply.

	Old	New
Frequency modulated (FM) voice	16F3	16K0F3E
Frequency modulated (FM) voice	13.6F3	13K6F3E
Frequency modulated digitized voice	20F3Y	20K0F1E
Frequency modulated digitized non-voice	20F9Y	20K0F1D
Amplitude modulated single sideband voice	2.8A3J	2K80J3E
Amplitude modulated (AM) voice	6A3	6K00A3E

►FAA Coordination Information

Item 25 This item must be completed if the filer has specified any of the following station classes in Item 1 and is requesting a new or modified station license:

Aviation Support (121.950 MHz only)
Airport Control Tower, including RCO
Radionavigation Land (all Navigational Aids)
Radionavigation Land Test (RLT)
AWOS/ASOS (Automatic Weather Observation/Automatic Surface Observation)

Enter the FAA regional office to where the notification was sent and the date that the FAA was notified. The Federal Aviation Administration (FAA) must be notified that this application is being submitted. Notification to the FAA must be made concurrently with the filing of this application. Applications submitted without the required FAA notification will be returned to the applicant without action.

►Certifications

Indicate the certifications that pertain to the type of station for which this application is being filed. By signing the Main Form filed in conjunction with this schedule, the applicant certifies that the statements listed in this section are true, complete, correct, and made in good faith.

International Registration Information

As a signatory party to international treaty agreements, the FCC performs certain actions regarding the use of radio. The technical details of your station parameters may be reported to the International Telecommunications Union, Geneva, Switzerland, and to countries which border on or in close proximity to the United States. This information along with data reported by other nations will be used to protect reported stations and aid in resolution of interference disputes between licensees in different countries.

Certain marine coast stations, because of their geographic location, would be best protected by provision of additional information. Specifically, this includes any proposed station which is located in the region north of Line 'A', or in the State of Alaska east of Line 'C'. Refer to Section 1.955 of the Commission's rules for a detailed explanation of Lines A and C. Appendix I in FCC Form 601 Main Form Instructions contains a list of counties, by state, having areas North of Line A.

Unless advised to the contrary, the FCC will make certain assumptions which reflect the typical fixed or temporary fixed VHF marine coast station. Carefully review the list below with respect to your particular situation. If you believe that these assumptions would leave your station insufficiently protected, provide the correct data in Schedule G. If you do not provide the actual data and an interference problem arises involving another country's station, your station will be protected only to the limit of the FCC's assumptions.

The following station parameters will be assumed unless otherwise stated:

- 1) **Antenna Polarization.** All stations will be reported as having antennas with vertical polarization.
- 2) **Antenna Gain.** The antenna gain for all fixed and temporary fixed VHF marine coast stations will be assumed to be 6 dB.

3) **Antenna Azimuth of Main Lobe.** The FCC will report each fixed or temporary fixed VHF marine coast station as having an omnidirectional (360) azimuth.

4) **Beamwidth.** Where an omnidirectional antenna is assumed, beamwidth has no relevance, and therefore, no assumed value will be used.

Certifications

Private Coast station and Marine Utility station certification. Check all that apply.

I certify that I am:

- Seeking authorization in an area having a recognized frequency coordinating committee (Southern California Marine Radio Council, North Pacific Marine Radio Council) and the committee has endorsed the use of the frequency(ies) and location(s) requested.
- Regularly engaged in the operation, docking, direction, construction, repair, servicing or management of one or more commercial transport vessels or U.S. state or local government vessels; or, responsible for the operation, control, maintenance, or development of a harbor, port, or waterway used by commercial transport vessels; or responsible for the operation of bridges, structures, or other installations that are part of, or directly related to, a harbor, port, or waterway when the operation of such facilities requires radio communications with vessels for safety or navigation.
- Engaged in furnishing a ship arrival and departure service; or, a corporation furnishing a nonprofit radio communication service to its parent corporation, a subsidiary of the parent, or its own subsidiary, where the party to be served is eligible for a private coast or marine utility station license; or, a nonprofit corporation or association organized to furnish a maritime mobile service solely to persons who operate one or more commercial transport vessels.
- A person controlling public mooring facilities; or, a yacht club with moorage facilities.
- A person servicing or supplying vessels other than commercial transport vessels; or, a nonprofit organization providing noncommercial communications to vessels other than commercial transport vessels.

Operational Fixed station certification.

- I certify that I am the licensee of a coast station and no other suitable telecommunications facilities are available to satisfy coast station requirements.

Maritime Support station certification.

- I certify that I intend to use this authorization to train personnel associated with the maritime service, or to test, demonstrate, or maintain ship or coast radio equipment.

Aeronautical Fixed station certification.

- I certify that I am the licensee of an associated aeronautical enroute station and that adequate land line facilities are not available to fulfill this communications need.

Aeronautical Advisory station (Unicom) certification.

- I certify that the station will be located on the property of the airport to be served and, in cases where the airport does not have a control tower, RCO, or FAA flight service station, that I have notified the owner of the airport and all aviation service organizations located at the airport at least ten days prior to application.

Aeronautical Search and Rescue station certification.

- I certify that I am a governmental entity or private organization chartered to perform aeronautical search and rescue functions.

Flight Test station certification. Check all that apply.

I certify that I am:

- Applying for UHF frequencies and request use of them in support of a contract with the U.S. Government.
- A manufacturer of aircraft or major aircraft components.
- A parent corporation or its subsidiary if either corporation is a manufacturer of aircraft or major aircraft components.
- An educational institution or person primarily engaged in the design, development, modification, and flight test evaluation of aircraft or major aircraft components.

Aviation support station certification. Check all that apply.

I certify that I am:

- The operator of a flight school.
- An operator of lighter than air aircraft.
- Engaged in soaring or free ballooning.
- The operator of an airport or aviation service organization located on an airport.

Radiodetermination station certification. Check all that apply.

- The FAA is not prepared to render the service for which I am applying.
- I am engaged in the development, manufacture, or maintenance of aircraft radionavigation equipment.
- I intend to establish the proposed facility at an airport for the use of the public.
- I am engaged in the testing, manufacture, or design of ELTs or I train personnel in the operation and location of ELTs.

Civil Air Patrol station certification.

- I certify that I represent Wings or the Headquarters of the Civil Air Patrol.

Aeronautical Enroute/122.825 or 122.875 MHz Certification.

- I certify that this station will provide communications only to aircraft with a maximum capacity of up to 56 passengers or carrying up to 18,000 lbs. of cargo.

Aeronautical Utility Mobile certification. Check all that apply.

- I certify that I have a need to routinely operate a ground vehicle on the airport movement area.
- I certify that I am the airport owner or operator, or a state or local governmental agency; or I have obtained permission from the airport owner/operator to operate a vehicle on the airport movement area.
- I certify that I have obtained an agreement from the Air Traffic Manager of the airport control tower that approves the requested use of the local control (tower) or RCO frequency.

Information and Instructions

**Technical Data Schedule for the
Private Land Mobile and Land Mobile Broadcast Auxiliary Radio Services
(Parts 90 and 74)**

FCC Form 601, Schedule H, is a supplementary schedule for use with the FCC Application for Wireless Telecommunications Bureau Radio Service Authorization, FCC 601 Main Form. This schedule is used to apply for an authorization to operate a radio station in the Private Land Mobile and Land Mobile Broadcast Auxiliary Radio Services, as defined in 47 CFR, Parts 90 and 74. It is also used to amend a pending application or modify an existing license in these services. The FCC 601 Main Form must be filed in conjunction with this schedule.

If you are applying for authorization of fixed transmit station locations, you must file technical information for each location, including the antenna structures, using FCC 601, Schedule D, Schedule for Fixed Station Locations and Antenna Structures. It is recommended that you complete Schedule D (if required) prior to completing Schedule H.

If you are applying for authorization of mobile transmit locations, temporary fixed station locations, or 6.1 meter control stations, you must file technical information for each location or station using FCC 601, Schedule E, Schedule for Mobile, Temporary Fixed, and 6.1 Meter Control Station Locations. It is recommended that you complete Schedule E (if required) prior to completing Schedule H.

If you are applying for authorization of a mobile station operating around a fixed location, you must file both Schedule D and Schedule E. Technical information for each schedule must be collected separately. The fixed location value entered in Item 2 on Schedule D must also be entered in Item 3 on Schedule E. It is recommended that you complete Schedules D and E (if required) prior to completing Schedule H.

**Schedule H
Instructions**

► **Eligibility**

Item 1 Enter the number and paragraph of the FCC Rule Section that describes the eligibility for the radio service you specified in Item 1 of the FCC 601 Main Form.

► **Frequency Coordinator Information**

Items 2, 3, 4 These items will be completed by the appropriate certified frequency coordinators for those applicants who are required to comply with the frequency coordination requirements. Broadcast Auxiliary Applicants who have notified their local frequency coordination committee should enter the name of the frequency coordinator and the telephone number, including area code, of the person contacted (Item 2 can be left blank).

► **Associated Call Signs**

Item 5 List any call signs that are part of the system and licensed separately.

► **Control Points**

This section must be completed only when a control point is to be added, modified, or deleted. If you are adding a new control point, complete all items in this section for each control point to be added. If you are modifying a control point, in addition to Items 6 and 7, complete only the items that have changed for each control point. If you are deleting a control point, only Items 6 and 7 are required. Control points that are currently licensed under this call sign by the FCC will continue to be shown on the authorization as is, unless a specific action is requested in this section.

Item 6 This item indicates what action the filer wants the FCC to take on the specified control point. Enter 'A' for Add, 'M' for Modify, or 'D' for Delete.

Item 7 Enter the FCC-assigned control point number (located on the Authorization). For a new control point, assign a temporary code to represent the control point. The assigned code should begin with C to indicate it as a control point and end with a number to uniquely identify it (e.g., C1, C2, C3, etc.). The FCC will assign an official number to the new control point, which will appear on the Authorization.

Item 8 Enter the street address, city or town, county, and state of the control point. Refer to FCC Main Form Instructions, Appendix II, for a list of valid state, jurisdiction, and area abbreviations.

Item 9 Enter the telephone number (including area code) where a person responsible for operation of the control point could be reached.

►Broadcast Auxiliary Only

Item 10 This item applies only to the Land Mobile Broadcast Auxiliary Radio services. If there is an associated parent station, enter the facility Id of the parent station, the class of the parent station (i.e., AM, FM, or TV), and the city and state of the parent station principal community. If there is no associated parent station, enter the appropriate code for the applicant and the state of primary operation.

►Technical Information

This section must be completed only when technical information is to be added, modified, or deleted. Technical information that is currently licensed under this call sign by the FCC will continue to be shown on the Authorization as is, unless a specific action is requested in this section.

To add new technical information, complete Items 11 through 13, providing a specific frequency at a specific location. Enter all the technical information associated with that location/frequency combination in each of Items 14 through 21. Items 14 through 21 may require multiple entries to adequately describe the frequency at the location. Repeat for each new location/frequency combination.

To modify existing technical information, complete Items 11 through 13, providing a specific frequency at a specific location. Enter all the technical information associated with that location/frequency combination in each of Items 14 through 21. Enter all the previous technical information that is still applicable along with all new technical information. Items 14 through 21 may require multiple entries to adequately describe the frequency at the location. Repeat for each modified location/frequency combination.

To delete technical information, complete only Items 11 through 13, providing a specific frequency at a specific location. All technical information for that frequency at that location will be deleted. Repeat for each deleted location/frequency combination.

Note: For purposes of using this schedule, technical information will be associated by frequency and location. Thus, each location may have multiple frequencies and any given frequency may be present at multiple locations.

Item 11 This item indicates what action the filer wants the FCC to take on the specified technical information for the frequency. Enter 'A' for Add, 'M' for Modify, or 'D' for Delete.

Item 12 For each frequency, enter its corresponding location number, as entered on Schedule D Item 2 or on Schedule E Item 2. If the location has been previously licensed under this call sign by the FCC, enter the FCC-assigned location number (located on the Authorization). Otherwise, enter the code assigned on Schedule D or Schedule E to represent the location. Refer to the instructions for Schedules D and E for more information on assigning location numbers.

Item 13 Enter the specific frequencies in Megahertz. The requested frequencies must be available in the Commission's rules governing the radio service in which you are seeking eligibility. Use a separate line for each frequency (the exceptions being that 800 MHz SMR mobiles and controls are now designated by frequency range 806-821 and 900 MHz SMR mobiles and controls are now designated by frequency range 896-901). Low Power Broadcast Auxiliary applicants should refer to Rule Section 74.802 for a complete and accurate listing of the acceptable frequency ranges.

Note: If you are required to complete the Additional Technical Information Section, location number (Item 12) and frequency (Item 13) are used to associate information in the Technical Information Section with data in the Additional Technical Information Section. To do this, enter information into the Technical Information Section using the appropriate location number and frequency. Then enter information in the Additional Technical Information Section for that frequency, using the same location number and frequency.

Item 14 Enter the appropriate station class code from the following table. Definitions for most of these items are listed in the Commission's rules.

Note: Where appropriate, follow each code with 'T' for Temporary, 'I' for Itinerant, 'S' for Standby, 'C' for Interconnect, 'J' for Temporary Interconnect, 'K' for Standby Interconnect, or 'L' for Itinerant Interconnect. For example, FBT means Temporary Base.

Base	FB
Mobile Relay	FB2
Community Repeater	FB4
Private Carrier (Profit)	FB6
Private Carrier (Nonprofit)	FB7
Control	FX1*
Mobile	MO
Mobile/Vehicular Repeater	MO3
Private Carrier Mobile Operation (Profit)	MO6
Private Carrier Mobile Operation (Non-profit)	MO7
Operational Fixed	FXO
Fixed Relay	FX2
Fixed	FX**
Radiolocation Land	LR
Radiolocation Weather Radar	WDX
Radiolocation Mobile	MR
Secondary Fixed Signaling (for 800 MHz only)	FX3

*Station associated with a mobile relay that employs the same frequency as the associated mobile station for control purposes.

**Station operating on frequencies available for fixed use for control purposes in accordance with applicable rules.

Item 15 Enter the number of actual transmitting units at each station.

Normally, only one transmitter (base, mobile, relay, etc.) is associated with station classes that indicate operation at a permanent/fixed location. Therefore, for these station classes, the number 1 should usually be entered. However, if more than one transmitter is placed at the same location, then enter the appropriate number.

For transmitters associated with station classes that indicate mobile operation, enter the total number of mobile units. The total number of mobile units is normally the sum of vehicular, portable, aircraft, and marine units that will be placed in operation at the time of grant plus the units for which purchase orders have been signed and will be in use within eight months. Some exceptions are provided for in the rules, which should be noted.

Note: Paging receivers should not be counted as mobile units. These receivers should be listed separately in Item 16 of this Schedule H.

Item 16 Enter the number of paging receivers in this system.

Item 17 Enter the emission designator for each station. Normally, land mobile operations are intended to provide voice communications. The new ITU (International Telecommunications Union) emission designators must be used in place of the old designators. The following provides samples of the corresponding new ITU designators for the most commonly used emission designators. These are samples only and do not necessarily represent an emission for which you should apply.

	Old	New
Frequency modulated (FM) voice	20F3	20K0F3E
Frequency modulated (FM) voice	13.6F3	13K6F3E
Frequency modulated digitized voice	20F3Y	20K0F1E
Frequency modulated digitized non-voice	20F9Y	20K0F1D
Amplitude modulated single sideband voice	3A3J	3K00J3E
Amplitude modulated (AM) voice	8A3	8K00A3E

Item 18 When operating with single sideband (A3J or new designator J3E) emission, enter the peak envelope power (watts), followed by the letter X, which represents peak envelope power in accordance with Appendix 1 of the ITU Radio Regulations. For operations using the emission designators NON, A1A, A2D, A3E, A9W, F1B, F2D, F3E, and F9W – enter the mean RF output power (watts) normally supplied by the transmitter to the antenna feedline. (See the applicable rules.)

Note: The power entered should be the minimum required for satisfactory operations.

Item 19 This information is required for operations above 10 MHz, from applicants requesting new station authorizations, and for major modifications described in the applicable rules.

Enter the effective radiated power (ERP). The ERP is the transmitted output power times the net gain of the antenna system. This is the gain of the antenna minus the transmission losses, which include losses attributable to the transmission line, duplexers, cavity filters, and isolators. The actual formula is:

ERP (watts) equals Power (watts) times Antilog of (net gain in dB divided by 10)

Item 20 This is not required for Land Mobile Broadcast Auxiliary Radio Services. For operations in 150-174 MHz, 220-222 MHz, 450-470 MHz, and above 470 MHz, enter the height of the antenna above ground elevation for the average terrain. Enter this item in meters, rounded to the nearest tenth. See the applicable rules for instructions for computing the height above average terrain for the antenna. Applicants applying on frequencies not mentioned in this paragraph may omit this item.

Item 21 Enter the overall height above ground of the highest part of your antenna (refer to letter 'c' in the antenna figure examples at the end of Form FCC 601 Schedule D instructions). This is the antenna structure plus the height of the antenna (if top-mounted) or the total height from ground to the tip of the antenna (if side-mounted). Enter this item in meters, rounded to the nearest tenth.

►Additional Technical Information

All Remote Pick Up Broadcast Auxiliary Radio Service fixed location stations and all stations proposing to operate on frequencies below 27.5 MHz **Must** complete this section if the filing is for a new Authorization or if a modification or deletion of the existing Additional Antenna Information needs to be reported. Failure to do so will result in the return of your application without further action. Land Mobile stations located near international borders that seek protection from interference should also complete this section. If you believe that these assumptions would leave your station insufficiently protected internationally, please provide the actual data on which interference protection should be based. The assumptions made by the FCC are listed below in the International Registration Information Section. If you do not provide the actual data and an interference problem arises involving another country's station, your station will be protected only to the limit of the FCC's assumptions. This is especially important for stations proposed to be operated in any of the counties listed in Appendix I of the FCC 601 Main Form instructions.

This section must be completed only when technical information is to be added, modified, or deleted. Technical information that is currently licensed under this call sign by the FCC will continue to be shown on the Authorization as is, unless a specific action is requested in this section.

To add new technical information, complete Items 22 through 24, providing a specific frequency at a specific location. Enter all the technical information associated with that location/frequency combination in each of Items 25 through 28. Items 25 through 28 may require multiple entries to adequately describe the frequency at the location. Repeat for each new location/frequency combination.

To modify existing technical information, complete Items 22 through 24, providing a specific frequency at a specific location. Enter all the technical information associated with that location/frequency combination in each of Items 25 through 28. Enter all the previous technical information that is still applicable along with all new technical information. Items 25 through 28 may require multiple entries to adequately describe the frequency at the location. Repeat for each modified location/frequency combination.

To delete technical information, complete only Items 22 through 24, providing a specific frequency at a specific location. All technical information for that frequency at that location will be deleted. Repeat for each deleted location/frequency combination.

Note: For purposes of using this schedule, technical information will be associated by frequency and location. Thus, each location may have multiple frequencies and any given frequency may be present at multiple locations.

Item 22 This item indicates what action the filer wants the FCC to take on the specified technical information for the frequency. Enter 'A' for Add, 'M' for Modify, or 'D' for Delete.

Item 23 For each frequency, enter its corresponding location number, as entered in Item 12 of this schedule.

Item 24 Enter the specific frequencies in Megahertz. The requested frequencies must be available in the Commission's rules governing the radio service in which you are seeking a license. Use a separate line for each frequency (the exceptions being that 800 MHz SMRS mobiles and controls are now designated by frequency range 806-821 and 900 MHz SMR mobiles and controls are now designated by frequency range 896-901). Low Power Broadcast Auxiliary applicants should refer to Rule Section 74.802 for a complete and accurate listing of the acceptable frequency ranges.

Item 25 Enter the angle in the horizontal plane of the transmitting antenna main lobe measured clockwise with respect to True North (degrees) or enter 360 to indicate the transmitting antenna is omni-directional.

Item 26 For directional antennas, enter the total angle (degrees) measured horizontally in a plane containing the direction of maximum radiation within which the power radiated in any direction does not fall more than 3 dB below the power radiated in the direction of maximum radiation. This information should be available from the specification sheet included with the antenna at time of purchase.

Item 27 Enter one of the following code letters to represent the polarization of the transmitting antenna for those circuits above 27.5 MHz:

- E - Elliptical
- F - 45 degrees
- H - Horizontal
- J - Linear
- L - Left-hand circular
- R - Right-hand circular
- S - Horizontal and vertical
- T - Right and left-hand circular
- V - Vertical
- X - Other (provide a description)

Item 28 Enter the ratio (decibels) of the power required at the input of loss-free reference antenna to the power supplied to the input of the given antenna to produce, in a given direction, the same field strength or the same power flux-density at the same distance. This information should be available from the specification sheet included with the antenna at time of purchase.

International Registration Information

As a signatory party to international treaty agreements, the FCC performs certain actions regarding the use of radio. The technical details of your station parameters may be reported to the International Telecommunications Union, Geneva, Switzerland, and to countries which border on or in close proximity to the United States. This information along with data reported by other nations will be used to protect reported stations and aid in resolution of interference disputes between licensees in different countries.

Certain stations, because of their geographic location, would be best protected by provision of additional information. Specifically, this includes any proposed station which is located in the region north of Line 'A', or in the State of Alaska east of Line 'C'. Refer to Section 1.955 of the Commission's rules for a detailed explanation of Lines A and C. Appendix I in FCC Form 601 Main Form Instructions contains a list of counties, by state, having areas North of Line A. If the desired station is to operate in the 806-821/851-866, 821-824/866-869, 896-901/935-940 MHz bands, please consult the applicable rules for available frequencies and use near the United States/Canada/Mexico borders.

Note: For control stations meeting the 6.1 meter (20 foot) criteria that require greater than 5 watts output power/ERP for operations in regions north of Line 'A' or in Alaska east of Line 'C', complete Form FCC 601 Schedule D, as applicable, and Items 11-19 and 21 of this Schedule H.

Unless advised to the contrary, the FCC will make certain assumptions which reflect the typical station in these services. Carefully review the list below with respect to your particular situation. If you believe that these assumptions would leave your station insufficiently protected, provide the correct data in the Additional Technical Information Section of this Schedule H. If you do not provide the actual data and an interference problem arises involving another country's station, your station will be protected only to the limit of the FCC's assumptions.

The following station parameters will be assumed unless otherwise stated:

- 1) **Antenna Polarization.** All stations will be reported as having antennas with vertical polarization.
- 2) **Antenna Gain.** The antenna gain for all stations will be assumed to be 6 dB.
- 3) **Antenna Azimuth of Main Lobe.** The FCC will report each base or mobile relay station as having an omnidirectional (360°) azimuth. It will also be assumed that each control station associated with a mobile relay station has a directional antenna with its azimuth of maximum radiation directed toward the mobile relay station.
- 4) **Beamwidth.** Where an omnidirectional antenna is assumed, beamwidth has no relevance, and therefore, no assumed value will be used. For control stations we will assume 20°.
- 5) **Class of Operation for HF Fixed Stations.** All HF Fixed applicants must file using the Additional Technical Information Section of this schedule. Therefore, no assumptions will be made.
- 6) **Receiver Information.** All stations specified on the same application form are assumed to be communicating with each other as a system. Receivers will be assumed to operate at the same location as the transmitter. In other words, it is assumed that the receiver site for a mobile station transmission is the location of the associated base station. The receiver site for a base station transmission is assumed to be the area of operation of the associated mobile stations. For a control station transmission, it is assumed that the location of the associated mobile relay station is the location of the receiver.
- 7) **Control stations meeting the 6.1 meter (20 foot) criteria that are operating in the region north of Line 'A' or in Alaska east of Line 'C' will not be coordinated unless FCC 601 Schedule D is completed as applicable, along with Items 11-19 and 21 of this Schedule. The ERP will be limited to 5 watts if the fixed location is not provided for controls meeting the 6.1 meter (20 foot) criteria operating in these areas.**

Technical Data Schedule for the
Private Land Mobile and Land Mobile Broadcast Auxiliary
Radio Services (Parts 90 and 74)

Eligibility

1) Rule Section:

Frequency Coordinator Information (if not self-coordinated)

2) Frequency Coordination Number	3) Name of Frequency Coordinator	4) Telephone Number

5) Associated Call Signs (Attach additional sheets if required)

Control Point(s) (Other than at the transmitter)

6) Action A/M/D	7) Control Point Number	8) Location Street Address, City or Town, County, State	9) Telephone Number

10) Broadcast Auxiliary Only

If there is an associated Parent Station, provide:	Facility Id of Parent Station:	Class of Parent Station:	City and State of Parent Station Principal Community:
If there is no associated parent station, this applicant is a: () Broadcast Network Entity Television Cable Operator Motion Picture Producer Television Producer			State of Primary Operation:

Technical Information

11) Action: () <u>A</u> dd <u>M</u> odify <u>D</u> elete			12) Location Number:			13) Frequency (MHz)	
14) Station Class	15) No. of Units	16) No. of Paging Receivers	17) Emission Designators	18) Output Power (watts)	19) ERP (watts)	20) AAT (meters)	21) Ant. Ht. (meters)

11) Action: () <u>A</u> dd <u>M</u> odify <u>D</u> elete			12) Location Number:			13) Frequency (MHz)	
14) Station Class	15) No. of Units	16) No. of Paging Receivers	17) Emission Designators	18) Output Power (watts)	19) ERP (watts)	20) AAT (meters)	21) Ant. Ht. (meters)

11) Action: () <u>A</u> dd <u>M</u> odify <u>D</u> elete			12) Location Number:			13) Frequency (MHz)

--	----------------------	---------------------

25) Azimuth	26) Beamwidth (degrees)	27) Polarization	28) Gain (dBi)

Information and Instructions

**Instructions for Technical Data Schedule for the
Fixed Microwave and Microwave Broadcast Auxiliary Services
(Parts 101 and 74)**

Form FCC 601, Schedule I, is a supplementary schedule for use with the FCC Application for Wireless Telecommunications Bureau Radio Service Authorization, FCC 601 Main Form. This schedule is used to apply for an authorization to operate a radio station in the Fixed Microwave and Microwave Broadcast Auxiliary Services, as defined in 47 CFR, Parts 101 and 74. It is also used to amend a pending application or modify an existing license in these services. The FCC 601 Main Form must be filed in conjunction with this schedule.

All site and technical information, whether pertaining to a fixed location or a mobile location, is filed on Schedule I. Do not file FCC 601, Schedule D - Schedule for Fixed Station Locations and Antenna Structures, or FCC 601, Schedule E - Schedule for Mobile, Temporary Fixed, and 6.1 Meter Control Station Locations, in conjunction with Schedule I.

**Schedule I
Instructions**

•Administrative Information

Item 1 Enter 'Y' if this application is being filed as part of a system; otherwise enter 'N'.

Item 2 If the answer to Item 1 is 'Y', enter the System Registration Number (required if a System Registration Number has already been assigned by the FCC). If the answer to Item 1 is 'Y', and a System Registration Number is not provided in Item 1, a new System Registration Number will be assigned by the FCC.

Note: In order to incorporate a new paper-filed application into a previously filed existing system, the existing System Registration Number must be provided in Item 2 (call the FCC at 1-888-CALL-FCC (225-5322) for previously-assigned System Registration Numbers). In order to incorporate new paper-filed applications into a new system, all the paper-filed applications for the new system must be filed together.

Item 3 Enter the type of operation code (select one only). Valid type of operation codes are:

- D - Digital Electronic Message (DEM)
- M - Multiple Address Stations (MAS)
- F - Fixed Point to Point
- T - Temporary Fixed/Mobile
- 18 - 18 GHz Low Power
- 31 - 31 GHz Systems
- 38 - 38 GHz Systems.

Item 4 For Multiple Address Stations (MAS) type of operations only (i.e., 'M' was entered in Item 3), enter the type of MAS operation. Enter all that apply. This item classifies various Private Operational Fixed Multiple Address Station (MAS) operations.

•Control Point

Fixed Microwave and Microwave Broadcast Auxiliary Services authorize only one control point per license. Therefore, this section must be completed only when a control point is to be added or modified. If you are adding a new control point (for a new license only), complete all items in this section. If you are modifying an existing control point, in addition to Item 5, complete only the items that have changed for the control point. The control point that is currently licensed under this call sign by the FCC will continue to be shown on the Authorization as is, unless a specific action is requested in this section.

Item 5 This item indicates what action the filer wants the FCC to take on the specified control point. Enter 'A' for Add or 'M' for Modify.

Item 6 Enter the street address, city or town, county, and state of the control point. Refer to FCC 601 Main Form Instructions, Appendix II, for a list of valid state, jurisdiction, and area abbreviations.

Item 7 Enter the telephone number, including area code, where a person responsible for operation of the station or systems can be reached.

►Broadcast Auxiliary Only

This item applies to Microwave Broadcast Auxiliary Stations only. Complete either Item 8 or Item 9.

Item 8 If there is an associated parent station, enter the facility Id of the parent station (Item 8a), the class of the parent station (Item 8b), and the city and state of the parent station principal community (Item 8c).

Item 9 If there is no associated parent station, certify that the applicant is a broadcast network entity by entering the state of primary operation (Item 9a). By signing the FCC 601 Main Form filed in conjunction with this schedule, the applicant certifies that the statement listed in Item 9 is true, complete, correct, and made in good faith.

►Frequency Coordinator Information

The items in this section must be completed if the station is not self-coordinated.

Item 10 Enter the frequency coordination number.

Item 11 Enter the name of the local frequency coordinator.

Item 12 Enter the telephone number (including area code) of the frequency coordinator.

Instructions for Schedule I Supplement 1 - Transmit Site Data

Item 1 Enter the code indicating the action requested. To add a new transmit location (for new licenses only), enter 'A'. If the new transmit location you are adding is a fixed transmit location, also complete Items 2 through 15. If the new transmit location you are adding is a mobile transmit location, also complete Items 2 through 4 and Items 16 through 26.

Note: Part 101 Microwave Services and Part 74 Broadcast Auxiliary Microwave Services only authorize one transmit location, fixed or mobile, per license.

To modify existing transmit location data (for existing licenses only), enter 'M'. Only complete those items that are being modified (enter the new data only).

Item 2 Enter the station class code that identifies the transmitter class. The codes are as follows:

Operational Fixed	FXO
Temporary Fixed	FX5
Mobile	MO
Mobile & Temporary Fixed	MO5

Item 3 Enter the transmitter site or station name. If a new station is proposed, give it a name that relates to its location (up to 20 characters). For example, the name of a city, statistical area, town, or prominent geographical feature may be used. If necessary, abbreviate the name, without punctuation (e.g., Bald Mtn).

Item 4 This item is required for compliance with the National Environmental Policy Act of 1969, as amended, 42 U.S.C. 4321-4335. See also Part 1, Subpart I of the FCC rules (47 CFR 1.1301 - 1.1319). This item must be answered, either 'Y' or 'N'.

Enter 'Y' if an FCC grant of the proposed facility may have a significant environmental effect, as defined in Section 1.1307 of the FCC rules and provide the required environmental assessment. Otherwise enter 'N'. Examples of facilities that may have a significant effect on the environment include:

An antenna structure located in a residential area (as defined by applicable zoning laws) that will utilize high intensity aviation obstruction lighting

A facility located in an officially designated wilderness area, wildlife preserve, or floodplain

A facility that affects a site significant in American history

A facility whose construction involves extensive changes in surface features

Facilities, operations, or transmitters that would cause human exposure to levels of radio frequency radiation in excess of the limits as detailed in § 1.1310 and 2.109 of the Commission's rules.

►Transmit Location (Fixed Point)

Items 5 and 6 Enter the geographic coordinates of the location, referenced to the North American Datum of 1983 (NAD83). This information can be determined in many ways, including a GPS receiver, a 7.5 minute topographical quadrangle map of the area, or you may consult the city or county surveyor in your area. Topographical maps may be purchased from the U.S. Geological Survey, Washington, DC 20242 or from its office in Denver, Colorado 80225.

Note: If the source from which you obtain the coordinates still utilizes an older datum (*i.e.*, NAD27, PRD40) you must convert to NAD83. Conversion routines are available through the Internet at <http://www.fcc.gov/wtb/uls/nadcon.html>.

Enter the latitude using the format *DD-MM-SS.S*, where the degrees (*DD*) term can have a value in the range of 0 to 90, minutes (*MM*) can range from 0 to 59, and seconds (*SS.S*) can range from 0 to 59.9. In the lower right corner, specify the direction as either 'N' for North or 'S' for South.

Enter the longitude using the format *DDD-MM-SS.S*, where the degrees (*DDD*) term can have a value in the range of 0 to 180, minutes (*MM*) can range from 0 to 59, and seconds (*SS.S*) can range from 0 to 59.9. In the lower right corner, specify the direction as either 'E' for East or 'W' for West.

Item 7-10 These items identify the location by its address or, if there is no address, by a brief specific geographic description of the location, such as distance and direction from known landmarks (*e.g.*, '5 km S of Anytown, Adams County, NY'). P.O. Box numbers or geographic coordinates are not acceptable for Item 7. For rural or unincorporated areas, enter the nearest city or town to the transmitter antenna location for Item 7. Refer to FCC 601 Main Form Instructions, Appendix II, for a list of valid state, jurisdiction, and area abbreviations.

Item 11 If antenna structure registration is required and the owner of the structure has licensed the structure with the FCC, enter the seven digit FCC Antenna Structure Registration Number (shown on the structure's registration, FCC Form 854R). If the owner of the structure has filed FCC Form 854 with the Commission to register the structure but has not yet received a registration number, enter the file number of the Form 854 application. Otherwise, enter 'N/A' (FAA notification is not required).

Note: Effective 7/1/96 the Commission requires owners to register certain structures. When required, antenna structures must be registered using FCC Form 854. The use of this form to supply antenna structure information does not replace the requirement to register antenna structures on the FCC Form 854. For more information, see our web site at <http://www.fcc.gov/wtb/antenna>, call the National Call Center at 1-888-CALL-FCC (225-5322), or e-mail questions to FCCITD@fcc.gov.

Item 12 Respond to this item only if you indicated 'N/A' in Item 11. Enter the elevation above mean sea level (AMSL) of the ground at the antenna location. Enter this item in meters, rounded to the nearest tenth. This information can be determined in many ways, including a GPS receiver, 7.5 minute topographical quadrangle map of the area, or you may consult the city or county surveyor in your area. Topographical maps may be purchased from the U.S. Geological Survey, Washington, DC 20242 or from its office in Denver, Colorado 80225. Refer to letter 'a' in the Antenna Structure Sample Figures, located at the end of the FCC 601 Schedule I instructions.

Item 13 Respond to this item only if you indicated 'N/A' in Item 11. Enter the height above ground to the highest point of the supporting structure only. Enter this item in meters, rounded to the nearest tenth. For example, if the antenna structure consists of a building/tower combination, include any elevator shaft, flag pole, or penthouse in the overall support structure height, but not the antenna, tower, pole, or mast. If the antenna structure is a tower only, include the height of the tower but not the antenna. Refer to letter 'b' in the Antenna Structure Sample Figures, located at the end of the FCC 601 Schedule I instructions.

Item 14 Respond to this item only if you indicated 'N/A' in Item 11. Enter the overall height above ground of the entire antenna structure to the highest point, including any appurtenances. Enter this item in meters, rounded to the nearest tenth. You must include antennas, dishes, obstruction lighting, etc. Refer to letter 'c' in the Antenna Structure Sample Figures, located at the end of the FCC 601 Schedule I instructions.

Item 15 Respond to this item only if you indicated 'N/A' in Item 11. Enter the code for the type of structure on which the antenna is or will be mounted from the following valid structure types:

<u>Code</u>	<u>Definition</u>
B	Building with a side mounted antenna
BANT	Building with Antenna on Top
BMAST	Building with Mast/Antenna on Top
BPIPE	Building with Pipe/Antenna on Top
BPOLE	Building with Pole/Antenna on Top
BRIDG	Bridge
BTWR	Building with Tower/Antenna on Top
MAST	Self-Support Structure
NNTANN*	Antenna Tower Array
NTOWER**	Multiple Structures
PIPE	Any Type of Pipe
POLE	Any Type of Pole. Pole used only to mount an antenna.
RIG	Oil or Other Type of Rig
SILO	Any Type of Silo
STACK	Smoke Stack
TANK	Any Type of Tank, Water, Gas, etc.
TOWER	A Free Standing Guyed Structure Used for Communications Purposes
TREE	When Used as a Support for an Antenna
UPOLE	Utility Pole/Tower Used to Provide Service (Electric, Telephone, etc.)

* Valid Tower Arrays. Code definition: The first NN indicates the number of towers in an array. The second NN is optional and indicates the position of that tower in the array (e.g., 3TA2 would identify the second tower in a three tower array).

** Valid Multiple Structures. Code Definition: The N indicates the number of towers in a multiple structure (Ex.: 2TOWER, 3TANK, 4TREE, 6BANT, 7BMAST).

► **Transmit Location (Area or Mobile)**

Item 16 Enter the appropriate area of operation code using the table below. Additional mobile location fields must be completed according to the area of operation code chosen. Refer to the table to determine which additional fields are required for the chosen area of operation code.

Area of Operation Codes and Required Data Values

Code	Description	Additional Schedule I Data Elements Required to Complete for Area of Operation Code					
P	KMRA* around a Centerpoint	Temporary Fixed or Mobile Radius	Latitude	Longitude	City**	County**	State**
N	Nationwide including Hawaii Alaska & US Territories						
U	Continental US						
C	County Wide Area of Operation	County	State				
S	Statewide Area of Operation	State					
O	Other - Narrative	Item 26					
R	Box / Rectangular Area of Operation	Maximum Latitude	Maximum Longitude	Latitude		Longitude	

*Kilometers Radius

** Complete as applicable - refer to instructions for applicability.

Item 17 Complete this item for temporary fixed or mobile stations where the area of operation will be defined as a radius around a specified set of coordinates. If 'P' was entered for Item 16, enter the radius. Enter in kilometers, rounded to the nearest tenth.

Items 18 and 19 If 'P' was entered in Item 16, enter the geographic coordinates (latitude and longitude) of the location. If 'R' was entered in Item 16, enter the minimum geographic coordinates of the rectangular area or box.

Coordinates entered must be referenced to the North American Datum of 1983 (NAD83). This information can be determined in many ways, including a GPS receiver, a 7.5 minute topographical quadrangle map of the area, or you may consult the city or county surveyor in your area. Topographical maps may be purchased from the U.S. Geological Survey, Washington, DC 20242 or from its office in Denver, Colorado 80225.

Note: If the source from which you obtain the coordinates still utilizes an older datum (i.e., NAD27, PRD40) you must convert to NAD83. Conversion routines are available through the Internet at <http://www.fcc.gov/wtb/uls.nadcon.html>.

Enter the latitude using the format *DD-MM-SS.S*, where the degrees (*DD*) term can have a value in the range of 0 to 90, minutes (*MM*) can range from 0 to 59, and seconds (*SS.S*) can range from 0 to 59.9. In the lower right corner, specify the direction as either 'N' for North or 'S' for South.

Enter the longitude using the format *DDD-MM-SS.S*, where the degrees (*DDD*) term can have a value in the range of 0 to 180, minutes (*MM*) can range from 0 to 59, and seconds (*SS.S*) can range from 0 to 59.9. In the lower right corner, specify the direction as either 'E' for East or 'W' for West.

Items 20 and 21 These items are to be completed for operations that are defined by a rectangular area or box coordinates. If code 'R' was entered in Item 16, enter the maximum geographic coordinates (latitude and longitude).

Coordinates entered must be referenced to the North American Datum of 1983 (NAD83). This information can be determined in many ways, including a GPS receiver, a 7.5 minute topographical quadrangle map of the area, or you may consult the city or county surveyor in your area. Topographical maps may be purchased from the U.S. Geological Survey, Washington, DC 20242 or from its office in Denver, Colorado 80225.

Note: If the source from which you obtain the coordinates still utilizes an older datum (i.e., NAD27, PRD40) you must convert to NAD83. Conversion routines are available through the Internet at <http://www.fcc.gov/wtb/uls.nadcon.html>.

Enter the latitude using the format *DD-MM-SS.S*, where the degrees (*DD*) term can have a value in the range of 0 to 90, minutes (*MM*) can range from 0 to 59, and seconds (*SS.S*) can range from 0 to 59.9. In the lower right corner, specify the direction as either 'N' for North or 'S' for South.

Enter the longitude using the format *DDD-MM-SS.S*, where the degrees (*DDD*) term can have a value in the range of 0 to 180, minutes (*MM*) can range from 0 to 59, and seconds (*SS.S*) can range from 0 to 59.9. In the lower right corner, specify the direction as either 'E' for East or 'W' for West.

Item 22 If 'P' was entered in Item 16, enter the city or town name of the location. This item is required only if Item 23 is blank.

Item 23 If 'P' or 'C' was entered in Item 16, enter the county of the location. This item is always required for area of operation code 'C'. This item is also required for area of operation code 'P' except when: (a) the city entered in Item 22 is an independent city that is not affiliated with a county (i.e., Baltimore, MD), or (b) the state entered in Item 24 does not have counties (i.e., Alaska, Virgin Islands).

Item 24 If 'P', 'C', or 'S' was entered in Item 16, enter the state of the location. Refer to FCC 601 Main Form Instructions, Appendix II, for a list of valid state, jurisdiction, and area abbreviations.

Item 25 This item helps the FCC to determine if it will initiate coordination procedures with the Government of Canada. If any part of the mobile location is North of Line A, enter 'Y' in the appropriate field. If any part of the mobile location is East of Line C (applies to stations located in Alaska only), enter 'Y' in the appropriate field. In the event the applicant needs to submit additional information regarding coordination of a channel assignment with the Government of Canada, this should be attached as an exhibit which references Schedule I Item 25. If 'N' is entered for both questions, the FCC will not initiate coordination procedures with the Government of Canada and your area of operation will be excluded from these border areas. Refer to FCC 601 Main Form Instructions, Appendix I, for a list of counties, by state, having areas North of Line A.

Item 26 If the response to Item 16 was 'O', enter a description of the area of operation. P.O. Box numbers or geographic coordinates are not acceptable for Item 26. The use of Other-Narrative should only be used if the area of operation cannot be described by using one of the other codes. Area of operation provided as Other-Narrative may delay processing of the application.

Instructions for Schedule I Supplement 2 - Frequency Data

If the application purpose indicated on the FCC 601 Main Form is New, file as many copies of Supplement 2 as necessary to describe all transmitters and frequencies associated with each transmission path. Transmitters and frequency data for each transmission path must be listed on a separate Supplement 2 (refer to the instructions for Supplement 3 for information about entering and assigning path numbers).

If the application purpose indicated on the FCC 601 Main Form is Amendment, Modification, or Renewal/Modification, complete as many copies of Supplement 2 as necessary to describe all transmitter and frequency data being amended, added, modified, or deleted. Transmitters and frequency data for each transmission path must be listed on a separate Supplement 2 (refer to the instructions for Supplement 3 for information about entering and assigning path numbers). If the proposed amendment/modification does not affect any transmitter or frequency data, do not complete Supplement 2.

Note: Deletion of a path (Supplement 3) will delete the entire path, including all frequencies. Modification of a path will affect all parameters of that path.

►Transmit Site Information

This section identifies the transmit site and path for the listed transmitters and frequency data. Transmit site information is entered on Supplement 1 of Schedule I. Path data information is entered on Supplement 3 of Schedule I.

Item 1 Enter the transmit site name as entered in Item 3 of Supplement 1.

Item 2 Enter the path number, as entered in Item 2 of the corresponding Supplement 3. Refer to the instructions for Supplement 3, Item 2 for information about entering and assigning path numbers.

Paths are defined in the instructions for Supplement 3 (Path Data).

Items 3 and 4 Enter the coordinates of the transmit site, as entered in Items 5 and 6 or Items 18 and 19 of Supplement 1.

►Transmitter Information

This section must be completed only when a transmitter is to be added, modified, or deleted. If you are adding a new transmitter, complete all items in this section for each transmitter to be added. If you are modifying an existing transmitter, in addition to Items 5 and 6, complete only the items that have changed for each transmitter. If you are deleting a transmitter, only Items 5 and 6 are required. Transmitters that are currently licensed under this call sign by the FCC will continue to be shown on the Authorization as is, unless a specific action is requested in this section. If a transmitter is deleted, the frequency and emission data that is linked to the transmitter will automatically be deleted and will no longer be part of your authorization.

Item 5 This item indicates what action the filer wants the FCC to take on the specified transmitter. Enter 'A' for Add, 'M' for Modify, or 'D' for Delete.

Item 6 If the transmitter has been previously licensed under this call sign by the Commission, enter its FCC-assigned transmitter number (located on the Authorization). For a new transmitter, assign a code to represent the transmitter. The assigned code should begin with T to indicate it is a transmitter and end with a number to uniquely identify it (e.g., T1, T2, T3, etc.). The FCC will assign an official number to the new transmitter, which will appear on the Authorization.

Items 7 and 8 Enter the manufacturer and model of the transmitter, respectively.

Item 9 Automatic Transmitter Power Control (ATPC) is a feature that automatically adjusts transmitter output power based on path fading detected at the far-end receivers. Enter 'Y' or 'N' here to indicate use of ATPC.

Item 10 Enter the Effective Isotropic Radiated Power (EIRP), in dBm rounded to one decimal place, radiated off the transmitting antenna. For a periscope antenna system, this is the anticipated EIRP radiated off its reflector. If Automatic Transmitter Power Control transmitters are used, specify the maximum EIRP in Item 10. Do not enter the coordinated or nominal transmit power.

•Frequency Information

This section must be completed only when frequencies are to be added, modified, or deleted. If you are adding new frequencies, complete all items in this section for each frequency to be added. If you are modifying frequencies, in addition to Items 11, 12, and 13 complete only the items that have changed for each frequency line (see note). If you are deleting frequency data, only Items 11, 12, and 13 are required. Frequencies that are currently licensed under this call sign by the FCC will continue to be shown on the Authorization as is, unless a specific action is requested in this section.

Note: In order to modify Tolerance (Item 14), Digital Modulation Rate (Item 16), and Digital Modulation Type (Item 17), complete Items 11, 12, and 13, specifying the appropriate transmitter ID and frequency, in addition to entering the new data for the modified item(s). In order to modify an Emission Designator (Item 15), complete Items 11, 12, and 13, specifying the appropriate transmitter ID and frequency, and list all active emission designators associated with the specified transmitter and frequency. Provide all existing and all new emission designators - do not provide emission designators that are no longer to be used.

Item 11 This item indicates what action the filer wants the FCC to take on the specified frequency data. Enter 'A' for Add, 'M' for Modify, or 'D' for Delete.

Item 12 Enter the appropriate transmitter number, as entered in Item 6, so that frequencies in this section are associated with the correct transmitter in the Transmitter Information Section.

Item 13 Enter one frequency or one frequency band per line (e.g., 952.00625 or 1990-2210, as listed in the rules). To request more than 12 frequencies or frequency bands, file multiple copies of Supplement 2.

Item 14 Enter the tolerance or frequency stability (in percent) of the transmitter under the conditions in which it will be operated. Normally, this is the same as the type accepted/notification value.

Item 15 Enter the full emission designator of the transmitter, composed of its necessary bandwidth and emission type.

Item 16 For digital systems, enter the digital modulation rate.

Item 17 For digital systems, enter the digital modulation type.

Instructions for Schedule I Supplement 3 - Path Data

This Supplement must be completed only when a transmission path is to be added, modified, or deleted. For purposes of filing this application, a 'path' is defined as the antennas, the location of the antennas, the orientation, and the polarization for the transmitter and receiver and any associated passive repeaters. A Supplement 3 must be completed for each transmission path added, modified, or deleted.

If you are adding a new transmission path, complete a Supplement 3 for each transmission path to be added. If you are modifying a transmission path, in addition to Items 1 through 5, complete only the items that have changed for each transmission path. If you are deleting a transmission path, only Items 1 through 5 are required. Transmission paths that are currently licensed under this call sign by the FCC will continue to be shown on the Authorization as is, unless a specific action is requested in this Supplement.

File as many copies of Supplement 2 (Frequency Data) as necessary to describe all transmitters and frequencies associated with each transmission path. Transmission paths are linked on Supplement 2 and Supplement 3 by Item 2, path number, located respectively on each supplement.

•Transmit Site

This section identifies the transmit site and path number of the transmission paths. Transmit site information is entered on Supplement 1 of Schedule I. Path information is entered in the remaining sections of this Supplement 3.

Item 1 Enter the transmit site name as entered in Item 3 of Supplement 1.

Item 2 Enter the path number. If the path has been previously licensed under this call sign by the Commission, enter its FCC-assigned path number (located on the Authorization). If you are adding a new path to the transmit site as part of this filing, assign a code to represent the path. Number each new path consecutively, beginning each assigned path number with P to indicate it is a path and end with a number to uniquely identify it (e.g., P1, P2, P3, etc.). A single transmitter can have multiple paths. Path numbers need only be unique for each transmitter. The FCC will assign an official number to the new path, which will appear on the Authorization.

Items 3 and 4 Enter the coordinates of the transmit site, as entered in Items 5 and 6 or Items 18 and 19 of Supplement 1.

Item 5 This item indicates what action the filer wants the FCC to take on the path specified in Items 1 through 4. Enter only one action per copy of Supplement 3. Enter 'A' to Add a New Path, 'M' to Modify an Existing Path, or 'D' to Delete an Existing Path.

If 'A' is entered, complete all remaining items on this supplement (Items 6 through 36). Also complete as many copies of Supplement 2 (Frequency Data) as necessary to describe all transmitters and frequencies associated with the new path. If 'M' is entered, complete Items 1 through 5 and only those Items of 6 through 36 that are being modified (enter new data only). If the modification also affects transmitters or frequencies, also complete as many copies of Supplement 2 as necessary to describe the transmitter or frequency modifications (enter new data only). Modification of a path will affect all parameters of that path. If 'D' is entered, only complete Items 1 through 5. Deletion of a path will delete the entire path, including all frequencies.

Note: To add one path and modify another, complete two Supplement 3 forms.

►Transmit Antenna

Items 6 and 7 Enter the name of the manufacturer and model number of the transmit antenna.

Item 8 Enter the height above ground to the center of the final radiating element. Enter this item in meters, rounded to the nearest tenth. For a parabolic dish antenna, this is the height to the center of the dish. For a periscope antenna system, this is the height to the center of the reflector. In all cases, the height should not exceed the overall height of the structure.

Item 9 Enter the beamwidth (degrees, rounded to one decimal place) of the transmitting antenna. That is, enter the angular distance between the half power points of the antenna's major lobe in the horizontal plane. For omnidirectional antennas, enter 360°.

Item 10 Enter the gain (in dBi, rounded to one decimal place), over an isotropic radiator.

Items 11-13 If a diversity antenna is used, complete Items 11 through 13 with the antenna height, beamwidth, and gain for the diversity antenna. See instructions for previous Items 8 through 10.

Item 14 For fixed stations only, enter the elevation height of the antenna (rounded to the nearest degree), measured in degrees from the horizontal up to the center line of radiation of the antenna. If the antenna tilts down (depression angle), indicate with a minus sign.

Item 15 Indicate polarization with the following codes:

- V – Vertical
- H – Horizontal
- R – Right-hand circular
- L – Left-hand circular
- H/V – Variable

For linear polarization other than horizontal or vertical, the polarization should be stated in degrees measured from the vertical, with angles between 0 and +90 degrees denoting the outgoing electric field vector displacement in the clockwise direction, and angles between 0 and -90 degrees denoting the outgoing electric field vector displacement in the counterclockwise direction. For a periscope antenna system, enter the expected polarization of the signal radiated off the reflector.

Item 16 Enter the azimuth, clockwise from True North (degrees, rounded to one decimal place), from the station to the receive site or to the first passive repeater, if any, on this transmission path.

For omnidirectional antennas, enter 360. For a directional antenna without a fixed azimuth -- as with temporary, mobile, Multiple Address Remote, or Digital Electronic Message stations -- enter 999.

Item 17 Enter the height and width for a periscope reflector, if used. Enter this item in meters, rounded to the nearest tenth.

Item 18 Enter the separation distance between the transmit antenna and the periscope reflector, if used. Enter this item in meters, rounded to the nearest tenth.

Item 19 If this path includes a passive repeater, enter 'Y'. Supplement 4 requests information about passive repeaters. If none, enter 'N'.

Item 20 If the final receiver is located outside of the United States, enter the name of the country and attach an exhibit explaining the circumstances.

Item 21 If the application proposes installation or reorientation of a transmitting antenna to operate with a frequency in the 5925-6425 MHz band and aimed within 2 degrees of the geostationary satellite orbit, enter 'Y' and submit as an exhibit a justification for waiver. Otherwise, enter 'N'.

►Final Receiver

Item 22 Enter the receiver site name. If a new station is proposed, give it a name that relates to its location. For example, the name of a city, statistical area, town, or prominent geographical feature may be used. If necessary, abbreviate the name, without punctuation (e.g., Bald Mtn).

Item 23 Enter the call sign of the station at the far end of the transmission path. This is the station that will receive the transmissions of this path on the frequencies entered in Item 13 of Supplement 2. For a receive-only station or a new station, leave this item blank.

Items 24 and 25 Enter the geographic coordinates of the receive site, referenced to the North American Datum of 1983 (NAD83). This information can be determined in many ways, including a GPS receiver, a 7.5 minute topographical quadrangle map of the area, or you may consult the city or county surveyor in your area. Topographical maps may be purchased from the U.S. Geological Survey, Washington, DC 20242 or from its office in Denver, Colorado 80225.

Note: If the source from which you obtain the coordinates still utilizes an older datum (i.e., NAD27, PRD40) you must convert to NAD83. Conversion routines are available through the Internet at <http://www.fcc.gov/wtb/uls/nadcon.html>.

Enter the latitude using the format *DD-MM-SS.S*, where the degrees (*DD*) term can have a value in the range of 0 to 90, minutes (*MM*) can range from 0 to 59, and seconds (*SS.S*) can range from 0 to 59.9. In the lower right corner, specify the direction as either 'N' for North or 'S' for South.

Enter the longitude using the format *DDD-MM-SS.S*, where the degrees (*DDD*) term can have a value in the range of 0 to 180, minutes (*MM*) can range from 0 to 59, and seconds (*SS.S*) can range from 0 to 59.9. In the lower right corner, specify the direction as either 'E' for East or 'W' for West.

Item 26 Enter the ground elevation above mean sea level of the receive site. Enter this item in meters, rounded to the nearest tenth.

Items 27 and 28 Enter the name of the manufacturer and model number of the receiving antenna.

Item 29 Enter the height above ground to the center of the receiving antenna. Enter this item in meters, rounded to the nearest tenth. For a parabolic dish antenna, this is the height to the center of the dish. For a periscope antenna system, this is the height to the center of its reflector.

Item 30 Enter the beamwidth (degrees, rounded to one decimal place) of the receiving antenna. That is, enter the angular distance between the half power points of the antenna's major lobe in the horizontal plane. For omnidirectional antennas, enter 360.

Item 31 Enter the gain (dBi, rounded to one decimal place), over an isotropic radiator, of the receiving antenna.

Item 32 Enter the height above ground to the center of the diversity receiving antenna. Enter this item in meters, rounded to the nearest tenth. For a parabolic dish antenna, this is the height to the center of the dish. For a periscope antenna system, this is the height to the center of its reflector.

Item 33 Enter the beamwidth (degrees, rounded to one decimal place) of the diversity receiving antenna. That is, enter the angular distance between the half power points of the antenna's major lobe in the horizontal plane. For omnidirectional antennas, enter 360.

Item 34 Enter the gain (dBi, rounded to one decimal place), over an isotropic radiator, of the diversity receiving antenna.

Item 35 Enter the height and width for a periscope reflector, if used. Enter this item in meters, rounded to the nearest tenth.

Item 36 Enter the separation distance between the receive antenna and the periscope reflector, if used. Enter this item in meters, rounded to the nearest tenth.

Instructions for Schedule I Supplement 4 - Passive Repeaters (PR)

This Supplement must be completed only when a passive repeater is to be added, modified, or deleted. Each transmission path may have one or more passive repeaters. Each Supplement 4 describes one passive repeater. If you have more than one passive repeater, submit an additional Supplement 4 for each. If you are adding a new passive repeater, complete a Supplement 4 for each passive repeater to be added. If you are modifying an existing passive repeater, in addition to Items 1 through 7 and Item 19, complete only the items that have changed for each passive repeater. If you are deleting a passive repeater, only Items 1 through 6 are required. Passive repeaters that are currently licensed under this call sign by the FCC will continue to be shown on the Authorization as is, unless a specific action is requested in this Supplement.

►Transmit Site

This section identifies the transmit site and path numbers on which the passive repeater is located. Transmit site information is entered on Supplement 1 of Schedule I. Path information is entered on Supplement 3 of Schedule I.

Item 1 Enter the transmit site name as entered in Item 3 of Supplement 1.

Item 2 Enter the path number on which the passive repeater is located, as entered on Supplement 3 Item 2.

Items 3 and 4 Enter the coordinates of the transmit site, as entered in Items 5 and 6 or Items 18 and 19 of Supplement 1.

Item 5 This item indicates what action the filer wants the FCC to take on the specified passive repeater. Enter 'A' for Add, 'M' for Modify, or 'D' for Delete.

Enter only one action per copy of Supplement 4. To add one passive repeater and modify another, complete two Supplement 4 forms. At least one Supplement 3, Path Data, must be filed if you add or modify a PR. Deletion of a path (Supplement 3) will delete the entire path, including all PRs on that path.

►Passive Repeater Site

Item 6 If the passive repeater has been previously licensed under this call sign by the FCC, enter its FCC-assigned passive repeater number (located on the Authorization).

Item 7 For a new passive repeater, or to reassign the sequence number of an existing passive repeater, enter the new passive repeater number. The passive repeater number is used to identify the sequence of passive repeaters on a specific path. Thus, the passive repeater number is the same as the sequence number. It is not the segment number. PR#1 would receive the signal from the transmitter and PR#2 would receive the signal from PR#1, and so forth.

Note: If a passive repeater sequence is reassigned, a Supplement 4 must be completed and attached for every passive repeater on the path that is being assigned a new passive repeater sequence number.

Item 8 Enter the passive repeater site name. If a new station is proposed, give it a name that relates to its location. For example, the name of a city, statistical area, town, or prominent geographical feature may be used. If necessary, abbreviate the name, without punctuation (e.g., Bald Mtn).

Items 9 and 10 Enter the geographic coordinates of the passive repeater, referenced to the North American Datum of 1983 (NAD83). This information can be determined in many ways, including a GPS receiver, a 7.5 minute topographical quadrangle map of the area, or you may consult the city or county surveyor in your area. Topographical maps may be purchased from the U.S. Geological Survey, Washington, DC 20242 or from its office in Denver, Colorado 80225.

Note: If the source from which you obtain the coordinates still utilizes an older datum (i.e., NAD27, PRD40) you must convert to NAD83. Conversion routines are available through the Internet at <http://www.fcc.gov/wtb/uls/nadcon.html>.

Enter the latitude using the format *DD-MM-SS.S*, where the degrees (*DD*) term can have a value in the range of 0 to 90, minutes (*MM*) can range from 0 to 59, and seconds (*SS.S*) can range from 0 to 59.9. In the lower right corner, specify the direction as either 'N' for North or 'S' for South.

Enter the longitude using the format *DDD-MM-SS.S*, where the degrees (*DDD*) term can have a value in the range of 0 to 180, minutes (*MM*) can range from 0 to 59, and seconds (*SS.S*) can range from 0 to 59.9. In the lower right corner, specify the direction as either 'E' for East or 'W' for West.

Items 11 and 12 Enter the name of the manufacturer and model number of the passive repeater antenna.

Item 13 Enter the height above ground to the center of the reflector or back-to-back dishes. Enter this item in meters, rounded to the nearest tenth.

Items 14 and 15 For back-to-back dishes, enter the gain, over an isotropic radiator (dBi, rounded to one decimal place) of the transmitting (TX) and receiving (RX) antennas.

Item 16 Enter the height and width for a periscope reflector, if used. Enter this item in meters, rounded to the nearest tenth.

Item 17 Indicate polarization with the following codes:

- V - Vertical
- H - Horizontal
- R - Right-hand circular
- L - Left-hand circular
- H/V - Variable

For linear polarization other than horizontal or vertical, the polarization should be stated in degrees measured from the vertical, with angles between 0 and +90 degrees denoting the outgoing electric field vector displacement in the clockwise direction, and angles between 0 and -90 degrees denoting the outgoing electric field vector displacement in the counterclockwise direction. For a periscope antenna system, enter the expected polarization of the signal radiated off the reflector.

Item 18 Enter the azimuth, clockwise from True North (degrees, rounded to one decimal place), from this Passive Repeater (PR) to the receive site or to the next PR, if any, on this transmission path.

►Environmental Data Question

Item 19 This item is required for compliance with the National Environmental Policy Act of 1969, as amended, 42 U.S.C. 4321-4335. See also Part 1, Subpart I of the FCC rules (47 CFR 1.1301 - 1.1319). This item must be answered, either 'Y' or 'N'.

Enter 'Y' if an FCC grant of the proposed facility may have a significant environmental effect, as defined in Section 1.1307 of the FCC rules and provide the required environmental assessment. Otherwise enter 'N'. Examples of facilities that may have a significant effect on the environment include:

An antenna structure located in a residential area (as defined by applicable zoning laws) that will utilize high intensity aviation obstruction lighting

A facility located in an officially designated wilderness area, wildlife preserve, or floodplain

A facility that affects a site significant in American history

A facility whose construction involves extensive changes in surface features

Facilities, operations, or transmitters that would cause human exposure to levels of radio frequency radiation in excess of the limits as detailed in § 1.1310 and 2.109 of the Commission's rules.

►Passive Repeater Antenna Structure Information

Item 20 If antenna structure registration is required and the owner of the structure has licensed the structure with the FCC, enter the seven-digit FCC Antenna Structure Registration Number (shown on the structure's registration, FCC Form 854R). If the owner of the structure has filed FCC Form 854 with the Commission to register the structure but has not yet received a registration number, enter the file number of the Form 854 application. Otherwise, enter 'N/A' (FAA notification is not required).

Note: Effective 7/1/96 the Commission requires owners to register certain structures. When required, antenna structures must be registered using FCC Form 854. The use of this form to supply antenna structure information does not replace the requirement to register antenna structures on the FCC Form 854. For more information, see our web site at <http://www.fcc.gov/wtb/antenna>, call the National Call Center at 1-888-CALL-FCC (225-5322), or e-mail questions to FCCITD@fcc.gov.

Item 21 Respond to this item only if you indicated 'N/A' in Item 20. Enter the elevation above mean sea level (AMSL) off the ground at the antenna location. Enter this item in meters, rounded to the nearest tenth. This information can be determined in many ways, including a GPS receiver, 7.5 minute topographical quadrangle map of the area, or you may consult the city or county surveyor in your area. Topographical maps may be purchased from the U.S. Geological Survey, Washington, DC 20242 or from its office in Denver, Colorado 80225. Refer to letter 'a' in the Antenna Structure Sample Figures, located at the end of the FCC 601 Schedule I instructions.

Item 22 Respond to this item only if you indicated 'N/A' in Item 20. Enter the height above ground to the highest point of the **supporting structure only**. Enter this item in meters, rounded to the nearest tenth. For example, if the antenna structure consists of a building/tower combination, include any elevator shaft, flag pole, or penthouse in the **overall** support structure height, but not the antenna, tower, pole, or mast. If the antenna structure is a tower only, include the height of the tower but not the antenna. Refer to letter 'b' in the Antenna Structure Sample Figures, located at the end of the FCC 601 Schedule I instructions.

Item 23 Respond to this item only if you indicated 'N/A' in Item 20. Enter the overall height above ground of the entire antenna structure to the highest point, including any appurtenances. Enter this item in meters, rounded to the nearest tenth. You must include antennas, dishes, obstruction lighting, etc. Refer to letter 'c' in the Antenna Structure Sample Figures, located at the end of the FCC 601 Schedule I instructions.

Item 24 Respond to this item only if you indicated 'N/A' in Item 20. Enter the code for the type of structure on which the antenna is or will be mounted from the following valid structure types:

<u>Code</u>	<u>Definition</u>
B	Building with a side mounted antenna
BANT	Building with Antenna on Top
BMAST	Building with Mast/Antenna on Top
BPIPE	Building with Pipe/Antenna on Top
BPOLE	Building with Pole/Antenna on Top
BRIDG	Bridge
BTWR	Building with Tower/Antenna on Top
MAST	Self-Support Structure
NNTANN*	Antenna Tower Array
NTOWER**	Multiple Structures
PIPE	Any Type of Pipe
POLE	Any Type of Pole. Pole used only to mount an antenna.
RIG	Oil or Other Type of Rig
SILO	Any Type of Silo
STACK	Smoke Stack
TANK	Any Type of Tank, Water, Gas, etc.
TOWER	A Free Standing Guyed Structure Used for Communications Purposes
TREE	When Used as a Support for an Antenna
UPOLE	Utility Pole/Tower Used to Provide Service (Electric, Telephone, etc.)

* Valid Tower Arrays. Code definition: The first NN indicates the number of towers in an array. The second NN is optional and indicates the position of that tower in the array (e.g., 3TA2 would identify the second tower in a three tower array).

** Valid Multiple Structures. Code Definition: The N indicates the number of towers in a multiple structure (e.g., 2TOWER, 3TANK, 4TREE, 6BANT, 7BMAST).

Antenna Structure Sample Figures

**Technical Data Schedule for the
Fixed Microwave and Microwave Broadcast Auxiliary Services
(Parts 101 and 74)**

Administrative Information

1) Is this application being filed as part of a system: () Yes/No	
2) If the answer to Item 1 is 'Yes', enter the system identification number (required if the system identification number has already been assigned by the FCC): _____	
3) Type of Operation (refer to instructions):	4) For MAS Type of Operations Only, Type of MAS Operation (Enter all that apply): <input type="checkbox"/> Two-way master-remote <input type="checkbox"/> One-way Inbound <input type="checkbox"/> One-way Outbound <input type="checkbox"/> Mobile meter reader <input type="checkbox"/> Subfrequency operation <input type="checkbox"/> Multiple master operation

Control Point (Other than at the transmitter)

5) Action A/M	6) Location Street Address, City or Town, County, State	7) Telephone Number

Broadcast Auxiliary Only

8) If there is an associated Parent Station, provide:	8a) Facility Id of Parent Station:	8b) Class of Parent Station:	8c) City and State of Parent Station Principal Community:
9) If there is no associated parent station, applicant certifies that it is a Broadcast Network Entity			9a) State of Primary Operation:

Frequency Coordinator Information (if not self-coordinated)

10) Frequency Coordination Number	11) Name of Frequency Coordinator	12) Telephone Number

Transmit Site Data

Transmit Site Information

1) Action Requested: () <u>Add a New Transmit Site (for New Licenses Only)</u> <u>Modify an Existing Site (for Existing Licenses Only)</u>
2) Station Class:
3) Transmitter Site Name:
4) Would a Commission grant of Authorization for this location be an action which may have a significant environmental effect as defined by Section 1.1307 of 47 CFR? If 'Yes', submit an environmental assessment as required by 47 CFR, Sections 1.1308 and 1.1311. () <u>Yes</u> <u>No</u>

Transmit Location (Fixed Point)

5) Latitude (DD-MM-SS.S): NAD83 () <u>N</u> or <u>S</u>	6) Longitude (DDD-MM-SS.S): NAD83 () <u>E</u> or <u>W</u>	
7) Street Address, Name of Landing Area, or Other Location Description:		
8) City:	9) County:	10) State:
11) FCC Antenna Structure Registration # or Form 854 File Number or N/A (FAA Notification not Required):		12) Elevation of Site AMSL (meters) ('a' in Antenna Structure Sample Figures):
13) Overall Ht AGL Without Appurtenances (meters) ('b' in Antenna Structure Sample Figures):	14) Overall Ht AGL With Appurtenances (meters) ('c' in Antenna Structure Sample Figures):	15) Support Structure Type:

Transmit Location (Area or Mobile)

16) Area of Operation Code:	17) Temporary Fixed or Mobile Radius (km):	
18) Latitude (DD-MM-SS.S): NAD83 () <u>N</u> or <u>S</u>	19) Longitude (DDD-MM-SS.S): NAD83 () <u>E</u> or <u>W</u>	
20) Maximum Latitude (DD-MM-SS.S): <u>Use for rectangle only</u> NAD83 () <u>N</u> or <u>S</u>	21) Maximum Longitude (DDD-MM-SS.S): <u>Use for rectangle only</u> NAD83 () <u>E</u> or <u>W</u>	
22) City:	23) County:	24) State:
25) Is any part of your operation North of Line A? () <u>Yes</u> <u>No</u>		Is any part of your operation East of Line C? () <u>Yes</u> <u>No</u>
26) Description: (Only for Area of Operation Code 'O')		

Path Data

Transmit Site

1) Transmit site name:	2) Path number:
3) Latitude (DD-MM-SS.S):	4) Longitude (DDD-MM-SS.S):
5) Action Requested: () <u>A</u> dd New Path <u>M</u> odify Existing Path <u>D</u> elete Existing Path	

Transmit Antenna

6) Antenna Manufacturer:	7) Antenna Model Number:	
8) Height to Center of Antenna AGL (meters):	9) Beamwidth (degrees):	10) Antenna Gain (dBi):
11) Diversity Antenna Height AGL (meters):	12) Diversity Beamwidth (degrees):	13) Diversity Antenna Gain (dBi):
14) Elevation (tilt) Angle (degrees):	15) Polarization:	16) Azimuth to RX Site or Passive Repeater (degrees):
17) Periscope Reflector Dimensions (meters): Height: Width:	18) Periscope Reflector Separation (meters):	
19) Does path include passive repeater? () <u>Y</u> es <u>N</u> o		
20) If the final receiver is located outside of the United States, enter the country in the space provided and attach exhibit explaining circumstances.		
21) Does this filing pose potential interference to Geostationary Satellite Operation? () <u>Y</u> es <u>N</u> o *If 'Yes', attach waiver request explaining circumstances.		

Final Receiver

22) Receiver Site Name:	23) Call Sign or File Number:	
24) Latitude (DD-MM-SS.S): <u>NAD83</u> () <u>N</u> or <u>S</u>	25) Longitude (DDD-MM-SS.S): <u>NAD83</u> () <u>E</u> or <u>W</u>	26) Ground Elevation (meters):
27) Receiver antenna manufacturer:	28) Receiver antenna model number:	
29) Height to Center of Rx Antenna AGL (meters):	30) Rx Antenna Beamwidth (degrees)	31) Rx Antenna Gain (dBi)
32) Diversity Rx Antenna Height AGL (meters):	33) Diversity Rx Antenna Beamwidth (degrees)	34) Diversity Rx Antenna Gain (dBi):
35) Rx Periscope Reflector Dimensions (meters): Height: Width:	36) Rx Periscope Reflector Separation (meters):	

Passive Repeaters (PR)

Transmit Site

1) Transmit Site Name:	2) Path Number:
3) Latitude (DD-MM-SS.S):	4) Longitude (DDD-MM-SS.S):

5) Action Requested: () Add New Passive Repeater Modify Existing Passive Repeater Delete Existing Passive Repeater

Passive Repeater Site Information

6) Existing Passive Repeater Number: ()		7) New Passive Repeater Number: ()	
8) PR Site Name:			
9) Latitude (DD-MM-SS.S):		10) Longitude (DDD-MM-SS.S):	
NAD83 () <u>N</u> or <u>S</u>		NAD83 () <u>E</u> or <u>W</u>	
11) Passive Repeater Antenna Manufacturer:		12) Passive Repeater Antenna Model Number:	
13) Height to Center of Passive Repeater Antenna AGL (meters):	14) Back-to-Back Tx Dish Gain (dBi):	15) Back-to-Back Rx Dish Gain (dBi):	
16) Reflector Dimensions (meters): Height: Width:	17) Transmit Polarization:	18) Azimuth to Rx Site or Next Passive Repeater:	
19) Would a Commission grant of Authorization for this location be an action which may have a significant environmental effect as defined by Section 1.1307 of 47 CFR? If 'Yes', submit an environmental assessment as required by 47 CFR, Sections 1.1308 and 1.1311. () <u>Yes</u> <u>No</u>			

Passive Repeater Structure Information

20) FCC Antenna Structure Registration # or Form 854 File Number or N/A (FAA Notification Not Required):	21) Elevation of Site AMSL (meters) ('a' in figures):	22) Overall Ht AGL Without Appurtenances (meters) ('b' in figures):	23) Overall Ht AGL With Appurtenances (meters) ('c' in figures):	24) Support Structure Type:

Information and Instructions

**Technical Data Schedule for the Paging, Rural,
Air-ground (General Aviation), and
Offshore Radiotelephone Services (Part 22)**

Form FCC 601, Schedule J, is a supplementary schedule for use with the FCC Application for Wireless Telecommunications Bureau Radio Service Authorization, FCC 601 Main Form. This schedule is used to apply for an authorization to operate a radio station in the Paging Services, as defined in 47 CFR, Part 22. It is also used to amend a pending application or modify an existing license in these services. The FCC 601 Main Form must be filed in conjunction with this schedule.

If you are applying for authorization of fixed transmit station locations and antenna structures, you must file technical information for each location and/or structure using FCC 601, Schedule D, Schedule for Fixed Station Locations and Antenna Structures. It is recommended that you complete Schedule D (if required) prior to completing Schedule J.

If you are applying for authorization of mobile transmit locations or a temporary fixed station locations, you must file technical information for each location or station using FCC 601, Schedule E, Schedule for Mobile, Temporary Fixed, and 6.1 Meter Control Station Locations. It is recommended that you complete Schedule E (if required) prior to completing this schedule. When filed in conjunction with Schedule J, Schedule E only applies to Rural Radio (CR), Offshore (CO), and BETRS (CB) radio services.

**Schedule J
Instructions**

► **Control Points**

This section must be completed only when a control point is to be added, modified, or deleted. If you are adding a new control point, complete all items in this section for each control point to be added. If you are modifying an existing control point, in addition to Items 1 and 2, complete only the items that have changed for the control point. If you are deleting a control point, only Items 1 and 2 are required. Control points that are currently licensed under this call sign by the FCC will continue to be shown on the Authorization as is, unless a specific action is requested in this section.

Item 1 This item indicates what action the filer wants the FCC to take on the specified control point. Enter 'A' for Add, 'M' for Modify, or 'D' for Delete.

Item 2 If the control point has been previously licensed under this call sign to the applicant by the FCC, enter its FCC-assigned control point number (located on the Authorization). For a new control point, assign a temporary code to represent the control point. The assigned code should begin with C to indicate it is a control point and end with a number to uniquely identify it (e.g., C1, C2, C3, etc.). The FCC will assign an official number to the new control point, which will appear on the Authorization.

Item 3 Enter the street address, city or town, county, and state of the control point. Refer to FCC 601 Main Form Instructions, Appendix II, for a list of valid state, jurisdiction, and area abbreviations.

Item 4 Enter the telephone number, including area code, where a person responsible for operation of the station or systems could be reached.

► **Antenna Information**

This section must be completed only when antenna information is to be added, modified, or deleted. If you are adding a new antenna, complete all items for each antenna to be added. If you are modifying an existing antenna, in addition to Items 5, 6, and 7, complete only the items that have changed for the antenna. If you are deleting an antenna, only Items 5, 6, and 7 are required. Antennas that are currently licensed under this call sign by the FCC will continue to be shown on the Authorization as is, unless a specific action is requested in this section.

Item 5 This item indicates what action the filer wants the FCC to take on the specified antenna. Enter 'A' for Add, 'M' for Modify, or 'D' for Delete.

Item 6 For each antenna, enter its corresponding location number, as entered on Schedule D Item 2 or Schedule E Item 2. If the location has been previously licensed under this call sign by the FCC, enter the FCC-assigned location number (located on the Authorization). Otherwise, enter the code assigned on Schedule D or Schedule E to represent the location. Refer to the instructions for Schedules D and E for more information on assigning location numbers.

Item 7 If the antenna has been previously licensed under this call sign by the FCC, enter the antenna's FCC-assigned number (located on the Authorization). Otherwise, enter a temporary code to represent each antenna. The assigned code should begin with an A to indicate it is an antenna and end with a number to uniquely identify it (e.g., A1, A2, A3). A single location can have multiple antennas. Antenna numbers need only be unique within each location. The FCC will assign an official number to the new antenna, which will appear on the Authorization.

Note: Location number (Item 6) and antenna number (Item 7) are used to associate information in the Antenna Information Section with information in the following sections: Frequency Information, Radial Data for Antennas, and Points of Communication for Transmitters. To do this, enter the necessary technical information into the Antenna Information Section using the appropriate location number and antenna number. Then, enter the necessary technical information in each of the related sections for that antenna, using the same location number/antenna number pair. Each antenna specified in the Frequency Information, Radial Data for Antennas, and Points of Communication for Transmitters Sections must have corresponding data in the Antenna Information Section.

Item 8 Enter the actual height to the tip of the antenna. Enter this item in meters, rounded to the nearest tenth.

Item 9 Enter the average radiation center height above average terrain of the eight cardinal radials. Enter this item in meters, rounded to the nearest tenth.

Item 10 This item provides the beamwidth of the main lobe of a directional antenna used with a fixed station. Complete this item for fixed stations only.

Item 11 Enter the ratio (decibels) of the power required at the input of loss-free reference antenna to the power supplied to the input of the given antenna to produce, in a given direction, the same field strength or the same power-flux density at the same distance. This information should be available from the specification sheet included with the antenna at the time of purchase.

Item 12 Enter the angle in the horizontal plane of the transmitting antenna main lobe measured clockwise with respect to True North in degrees, or enter 360 to indicate that the transmitting antenna is omni-directional.

► Frequency Information

This section must be completed only when frequencies are to be added, modified, or deleted. If you are adding a new frequency, complete all items for each frequency to be added. If you are modifying an existing frequency, in addition to Items 13 and 14, complete only the items that have changed for the frequency. If you are deleting a frequency, only Items 13 through 17 are required. Frequencies that are currently licensed under this call sign by the FCC will continue to be shown on the Authorization as is, unless a specific action is requested in this section.

Enter frequency information for each antenna specified in the Antenna Information Section. For multiple frequency lines, repeat the location number/antenna number combination for each frequency. For example:

<u>Location</u>	<u>Antenna</u>	<u>Frequency (MHz)</u>
F1	A1	XXX.XXXX
F1	A1	YYY.YYYY
F1	A1	ZZZ.ZZZZ
F1	A2	AAA.AAAA
F1	A2	BBBBB.BBBB
F2	A1	CCCCC.CCCC
F2	A1	DDDDD.DDDD

Item 13 This item indicates what action the filer wants the FCC to take on the specified antenna. Enter 'A' for Add, 'M' for Modify, or 'D' for Delete.

Item 14 For each antenna, enter its corresponding location number, as entered in Item 6 of the Antenna Information Section of this Schedule.

Item 15 For each antenna, enter its corresponding antenna number, as entered in Item 7 of the Antenna Information Section of this Schedule.

Note: Each location number (Item 14) and antenna number (Item 15) pair specified in the Frequency Information Section must have corresponding data in the Antenna Information Section.

Item 16 Enter, in Megahertz (MHz), the center frequencies of the channels on which the transmitters operate or are proposed to operate. The pertinent channel(s) must be specified for each frequency.

Item 17 Enter the appropriate station class code from the following table. Definitions for most of these items are listed in the Commission's rules.

Air-ground Signaling	FBSI
Auxiliary Test	FXTS
Base	FBBS
Central Office	FXCO
Control	FXCT
Dispatch	FXDI
Fixed Relay	FXRX
Fixed Subscriber	FXSB
Ground	FBGS
Inter-Office	FXIO
Mobile Subscriber	MLSB
Repeater	FXRP
Standby	FBST
Temporary Fixed	FX5

Item 18 This item reports the maximum effective radiated power (ERP) in any direction on the specified channel. The answer must be stated in watts.

Item 19 Enter the actual transmitter output power in watts.

Item 20 Complete this item only if the filing requests authority to use an emission type that is not already authorized in the FCC rules for use by all stations in the pertinent radio service.

► Radial Data for Antennas

This section must be completed only when radial data for antennas is to be added, modified, or deleted. If you are adding new radial data, complete all items for each radial data block to be added. If you are modifying existing radial data, complete all items for the radial data block to be modified. If you are deleting radial data, only Items 21 through 24 are required. Radial data that is currently licensed under this call sign by the FCC will continue to be shown on the Authorization as is, unless a specific action is requested in this section.

Item 21 Indicate what action the filer wants the FCC on the radial data of the specified antenna. Enter 'A' for Add, 'M' for Modify, or 'D' for Delete.

Items 22-24 Enter the location number, antenna number, and channel center frequency, as specified in the Antenna Information and Frequency Information Sections.

Note: Each location number, antenna number, and channel center frequency specified in the Radial Data for Antennas Section must have corresponding data in the Antenna Information and Frequency Information Sections.

Item 25 Enter the height of the antenna center of radiation above the average terrain elevation (RCHAAT) along each of the eight cardinal radials. Enter this item in meters, rounded to the nearest tenth.

Item 26 Enter the effective radiated power (ERP) for each of the eight cardinal radials.

•Points of Communication for Transmitters

These items describe fixed points of communication for: (1) stations in the Rural Radiotelephone Services serving individually licensed subscribers; (2) point to point transmitters; and (3) point-to-multipoint transmitters operating on channels that are assigned only to stations that communicate with four or more points. These items should not be completed by filers for any other purpose. In the Rural Radiotelephone Services (radio service code CR) only those stations operating under station class code FXCT (fixed control station) may complete this section.

This section must be completed only when points of communication are to be added, modified, or deleted. If you are adding new points of communication, complete all items for each point of communication to be added. If you are modifying existing points of communication, complete all items for the point of communication to be modified. If you are deleting points of communication, only Items 28 through 30 are required. Points of communication that are currently licensed under this call sign by the FCC will continue to be shown on the Authorization as is, unless a specific action is requested in this section.

Item 27 This item indicates what action the filer wants the FCC to take on the specified point of communication. Enter 'A' for Add, 'M' for Modify, or 'D' for Delete.

Item 28 Enter the corresponding transmit location number, as entered in Item 14 of this schedule.

Item 29 Enter the corresponding transmitting antenna number, as entered in Item 15 of this schedule.

Item 30 Enter the corresponding transmitting channel center frequency, as entered in Item 16 of this schedule.

Item 31 Enter the name of the city or town of the point of communication.

Item 32 Enter the state of the point of communication. Refer to FCC 601 Main Form Instructions, Appendix II, for a list of valid state, jurisdiction, and area abbreviations.

Item 33 Enter in Megahertz (MHz), the center frequencies of the point of communication.

Items 34 and 35 Enter the geographic coordinates of the location, referenced to the North American Datum of 1983 (NAD83). This information can be determined in many ways, including a GPS receiver, a 7.5 minute topographical quadrangle map of the area, or you may consult the city or county surveyor in your area. Topographical maps may be purchased from the U.S. Geological Survey, Washington, DC 20242 or from its office in Denver, Colorado 80225.

Note: If the source from which you obtain the coordinates still utilizes an older datum (*i.e.*, NAD27, PRD40), you must convert to NAD83. Conversion routines are available through the Internet at <http://www.fcc.gov/wtb/uls/nadcon.html>.

Enter the latitude using the format *DD-MM-SS*, where the degrees (*DD*) term can have a value in the range of 0 to 90, minutes (*MM*) can range from 0 to 59, and seconds (*SS*) can range from 0 to 59.9. If desired, seconds may be expressed to the nearest tenth of a second (in which case, use the format *DD-MM-SS.S*). In the lower right corner, specify the direction as either N for North or S for South.

Enter the longitude using the format *DDD-MM-SS*, where the degrees (*DDD*) term can have a value in the range of 0 to 180, minutes (*MM*) can range from 0 to 59, and seconds (*SS*) can range from 0 to 59.9. If desired, seconds may be expressed to the nearest tenth of a second (in which case, use the format *DDD-MM-SS.S*). In the lower right corner, specify the direction as either E for East or W for West.

Item 36 Enter the subscriber call sign of the point of communication.

Information and Instructions

**Schedule for
Required Notifications for Wireless Services**

Form FCC 601, Schedule K, is a supplementary schedule for use with the FCC Application for Wireless Telecommunications Bureau Radio Service Authorization, FCC 601 Main Form. Complete this schedule to notify the FCC that, within the required time period, either buildout/coverage or construction requirements have been satisfied, an assignment of authorization or transfer of control has been consummated, or to request a regular authorization for paging facilities currently operating under developmental authority. The FCC 601 Main Form must be filed in conjunction with this schedule.

► **Purpose**

Enter the one-letter abbreviation that indicates the purpose for which the application is being filed (1, 2, 3, 4, S, D, or C), as specified in Sections 1, 2, 3, and 5 of this schedule.

Note: Only one Notification purpose code may be selected per FCC 601 Main Form/Schedule K filing.

► **Section 1 - Satisfaction of Buildout/Coverage Requirements (Market based services only)**

Note: Cellular Radiotelephone Services (CL) should use the Construction Requirements portion of this schedule (Section 2).

Use this section if this notification is for satisfaction of buildout/coverage requirements. Typically, buildout/coverage requirements apply when a specific portion of a geographic area and a specific portion of the population contained within that geographic area must be provided service by a specific date. Not all radio services use all buildout/coverage requirements. Refer to the Commission's rules for more information on buildout/coverage requirements and how they may apply to your service.

On the Purpose line at the top of this schedule, enter one of the following Notification Purpose Codes:

Enter '1' if 1st buildout/coverage requirement has been satisfied.

Enter '2' if 2nd buildout/coverage requirement has been satisfied.

Enter '3' if 3rd buildout/coverage requirement has been satisfied.

Enter '4' if 4th buildout coverage requirement has been satisfied.

Note: Licensees must notify the FCC of satisfaction of buildout/coverage requirements when they are met. In instances where notification of buildout/coverage requirements are received for a call sign and previous buildout/coverage requirements have not been received by the FCC, it will be assumed that the higher requirement and all lower requirements have been satisfied (e.g., requirement 2 is submitted and requirement 1 has not been received - it will be assumed that buildout/coverage requirement 1 and buildout/coverage requirement 2 have been satisfied).

Also complete Section 4. List in Item 4a the call signs held by the applicant where the indicated buildout/coverage requirement has been satisfied.

► **Section 2 - Satisfaction of Construction Requirements (Site-licensed services only)**

Note: Cellular Radiotelephone Services (CL) should use the Construction Requirements portion of this schedule (Section 2).

Use this section if this notification is for satisfaction of construction requirements. Typically, construction requirements apply when specific authorized components of a license must be constructed and service commenced by a specific date. Refer to the Commission's rules for more information on construction requirements and how they may apply to your service.

On the Purpose line at the top of this schedule, enter S. Also complete Section 4. List the call signs, location numbers, frequencies, etc., where construction requirements have been satisfied.

► **Section 3 - Request for Regular Authorization for Facilities Previously Operating under Developmental Authority (Paging Services only)**

Use this section if this notification is for a notification to request regular authorization for paging facilities previously operating under developmental authority. On the Purpose line at the top of this schedule, enter 'D'.

Also complete Section 4. List in Item 4a the call signs held by the applicant where a request is being made for a regular authorization for paging facilities previously operating under developmental authority.

► **Section 4 - Call Signs/Locations/Frequencies**

This section applies only to a notification indicated by use of Sections 1, 2, or 3 of this schedule.

For notification of buildout/coverage requirements, only complete Item 4a.

For notification of construction requirements, complete Items 4a through 4e, as required. Only complete those items necessary to describe what has been constructed. For example, to notify construction of a site under a call sign, only complete Items 4a and 4b.

For notification of a request for regular paging authorization for facilities previously operating under developmental authority, only complete Item 4a.

4a In this item list the call signs where buildout/coverage or construction requirements indicated in Sections 1 or 2 have been satisfied, or where a regular paging authorization for facilities previously operating under developmental authority is being requested in Section 3. Call signs are located on FCC Authorizations.

4b In this item list the location numbers or transmitter numbers where construction requirements have been satisfied. Location numbers are listed on FCC Authorizations and are used in the following radio services: Aviation Ground, Maritime Coast, Cellular, Land Mobile, and Paging Services. Transmitter numbers are listed on FCC Authorizations and are only used in the Microwave Radio Services.

4c In this item list the path numbers where construction requirements have been satisfied. Path numbers are located on FCC Authorizations and are only used in the Microwave Radio Services.

4d In this item list the frequencies, in Megahertz (MHz), where construction requirements have been satisfied. Authorized frequencies are located on FCC Authorizations.

4e In this item list number of operational mobiles. Land Mobile Radio Services operating in the 470 - 512 MHz band only.

► **Section 5 - Consummation of Assignment of Authorization or Transfer of Control**

If this notification is for consummation of assignment of authorization or transfer of control, the assignee or transferee must complete this section.

On the Purpose line at the top of this schedule, enter 'C'. In this section, enter the file number of the application for Assignment of Authorization or Transfer of Control, and the date that the transaction was consummated.

Information and Instructions

Schedule for Extension of Time Requests for Wireless Services

Form FCC 601, Schedule L, is a supplementary schedule for use with the FCC Application for Wireless Telecommunications Bureau Radio Service Authorization, FCC 601 Main Form. Complete this schedule to request additional time to either satisfy buildout/coverage or construction requirements, or to consummate an assignment of authorization or transfer of control. The FCC 601 Main Form must be filed in conjunction with this schedule.

► **Purpose**

Enter the one-letter abbreviation that indicates the purpose for which the application is being filed (1, 2, 3, 4, S or C), as specified in Sections 1, 2, and 4 of this schedule.

Note: Only one Extension of Time Request purpose code may be selected per FCC 601 Main Form/Schedule L filing.

► **Section 1 - Buildout/Coverage Requirements (Market based services only)**

Note: Cellular Radiotelephone Services (CL) should use the Construction Requirements portion of this schedule (Section 2).

Use this section if this is a request for an extension of time to complete buildout/coverage requirements. Typically, buildout/coverage requirements apply when a specific portion of a geographic area and a specific portion of the population contained within that geographic area must be provided service by a specific date. Refer to the Commission's rules for more information on buildout/coverage requirements and how they may apply to your service.

On the Purpose line at the top of this schedule, enter one of the following Extension Request Purpose Codes:

Enter '1' if an extension is being requested for 1st buildout/coverage requirements.

Enter '2' if an extension is being requested for 2nd buildout/coverage requirements.

Enter '3' if an extension is being requested for 3rd buildout/coverage requirements.

Enter '4' if an extension is being requested for 4th buildout/coverage requirements.

Also complete Section 3. List in Item 3a the call signs for which the extension of time to meet buildout/coverage requirements is being requested. Additionally, in the field provided at the bottom of this section, enter the new buildout/coverage expiration date being requested. You must also attach an exhibit describing the circumstances and justification for this extension request.

► **Section 2 - Construction Requirements (Site-licensed services only)**

Note: Cellular Radiotelephone Services (CL) should use the Construction Requirements portion of this schedule (Section 2).

Use this section if this is a request for an extension of time to complete construction requirements. Typically, construction requirements apply when specific authorized components of a license must be constructed and service commenced by a specific date. Refer to the Commission's rules for more information on construction requirements and how they may apply to your service.

On the Purpose line at the top of this schedule, enter 'S' to request an extension to meet construction requirements for a site licensed service (i.e., location, frequency, etc.). Note, an extension of time may be requested for specific portions of a system. Also complete Section 3, Call Signs, as applicable, indicating the call signs, location numbers, frequencies, etc., for which an extension of time to meet construction requirements is being requested. Additionally, in the field provided at the bottom of this section, enter the new construction expiration date requested. You must also attach an exhibit describing the circumstances and justification for this extension of time request.

► **Section 3 - Call Signs/Locations/Frequencies**

This section applies only to an extension to complete buildout/coverage and construction requirements, as indicated by use of Sections 1 or 2 of this schedule.

To request an extension of time to meet buildout/coverage requirements, only complete Item 3a.

To request an extension of time to meet construction requirements, complete Items 3a through 3d, as required. Only complete those items necessary to describe the extension of time requested. For example, to request an extension of time to construct a site under a call sign, only complete Items 3a and 3b.

3a In this item list the call signs where an extension of time to meet buildout/coverage or construction requirements has been requested in Sections 1 or 2. Call signs are located on FCC Authorizations.

3b In this item list the location numbers or transmitter numbers where an extension of time to meet construction requirements has been requested. Location numbers are listed on FCC Authorizations and are used in the following radio services: Aviation Ground, Maritime Coast, Cellular, Land Mobile, and Paging Services. Transmitter numbers are listed on FCC Authorizations and are only used in the Microwave Radio Services.

3c In this item list the path numbers where an extension of time to meet construction requirements has been requested. Path numbers are located on FCC Authorizations and are only used in the Microwave Radio Services.

3d In this item list the frequencies, in Megahertz (MHz), where an extension of time to meet construction requirements has been requested. Authorized frequencies are located on FCC Authorizations.

► **Section 4 - Consummation of Assignment of Authorization or Transfer of Control**

The assignee or transferee should use this section to request an extension of time to consummate an assignment of authorization or a transfer of control.

On the Purpose line at the top of this schedule, enter 'C'. In this section, enter the file number of the application for Assignment of Authorization or Transfer of Control, and the requested expiration date for the consummation. You must also attach an exhibit describing the circumstances and justification for this extension of time request.

**Schedule for
Extension of Time Requests for Wireless Services**

Purpose

The purpose of this submission: () (Enter one purpose only - 1, 2, 3, 4, S or C. See Sections 1, 2 & 4 below and refer to instructions)

1) Buildout/Coverage Requirements (Market based services only)

- 1** Extension of Time to meet 1st buildout/coverage requirements. (List call signs in 3a)
- 2** Extension of Time to meet 2nd buildout/coverage requirements. (List call signs in 3a)
- 3** Extension of Time to meet 3rd buildout/coverage requirements. (List call signs in 3a)
- 4** Extension of Time to meet 4th buildout/coverage requirements. (List call signs in 3a)

New buildout/coverage expiration date requested:

Attach exhibit describing circumstances/justification.

2) Construction Requirements (Site-licensed services only)

- S** Extension of Time to meet construction requirements (site, frequency, etc.). (List, as applicable, call signs, locations, frequencies, etc., in Section 3)

New construction expiration date requested:

Attach exhibit describing circumstances/justification.

3) Call Signs/Locations/Frequencies

3a) Call Sign	3b) Location Number or Transmitter Number	3c) Path Number (Microwave only)	3d) Frequency (MHz)

4) Consummation of Assignment of Authorization or Transfer of Control

- C** Extension of Time to Consummate Assignment of Authorization or Transfer of Control.

File Number of Assignment of Authorization or Transfer of Control:

New Consummation Expiration Date Requested:

Attach exhibit describing circumstances/justification.
