

Federal Communications Commission

Hearing Aid Compatibility Status Report (FCC Form 655)

Reporting Period: January 1, 2009 - December 31, 2009

Filing Confirmation Number: 0004090258

Filing Deadline: January 15, 2010

FRN: 0004979233

General Report Information

Type of Company

Service Provider

De Minimis Exception

Did you offer more than two handsets over any air interface to service providers (if you are a device manufacturer) or to subscribers (if you are a service provider) during this reporting period? Yes

Did you offer any handsets to service providers (if you are a device manufacturer) or to subscribers (if you are a service provider) during this reporting period?

Company Information

Company Name: AT&T Mobility
PO Box:
Street Address: 1120 20th St, NW, Suite 1000
City: Washington
State: DC
Zip Code: 20036

Contact Name: Myra Creeks
Contact Phone: (202) 457-3009
Contact Fax:
Contact Email: myra.creeks@att.com

Filing Agent

Is this report being filed by an agent on behalf of a manufacturer or service provider? No

Product Labeling

Do all hearing aid-compatible handsets include labeling? Yes

Explain:

Do all hearing aid-compatible handsets with the Wi-Fi air interface have clear and effective disclosure that the handset has not been tested for hearing aid compatibility with respect to its Wi-Fi voice operation? Yes

Explain:

Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? Yes

Website address:

<http://www.wireless.att.com/learn/articles-resources/disability-resources/hearing-aid-compatibility.jsp>

Explain:

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: American Academy of Audiology: AT&T joined forces with Brenda Battat, Executive Director of the Hearing Loss Association of America on a workshop called “Help Your Clients Find Cell Phones They Can Use” at Audiology Now!, the American Academy of Audiology conference. This presentation targeted the important information hearing health professionals should know about hearing aid compatibility with digital wireless devices.

Videos and Support information:

AT&T was a sponsor and key contributor to Hearing Aid Compatibility Videos: Choosing a Cell Phone That Works For You, a five part video series developed by the Wireless Rehabilitation Engineering Research Center (Wireless RERC) and CTIA - The Wireless Association® -- a five-part video series to help consumers choose a hearing aid compatible wireless device that meets their needs. Each video breaks down the information consumers need into easy to understand segments and is free to the public.

Celebrate Communicate:

AT&T sponsored and exhibited at the Northern Virginia Resource Center’s regional conference allowing users to understand hearing aid compatibility as well as a range of communications options available at AT&T for people who have a hearing loss or are deaf.

Hearing Loss Association of America National Convention:

AT&T helped develop a 3 part series of workshops including: “The Wireless Industry: What’s New? What’s Available? What’s Right for You?” to help people with hearing loss understand hearing aid compatibility, texting and new applications that are beneficial or appealing to this population. AT&T also exhibited at this convention

TDI Biennial Conference:

AT&T participated in a panel presentation titled “Pagers, PDAs, and HAC Phones in the Market” and was the recipient of the 2009 James C. Marsters Promotion Award by TDI (formally known as Telecommunications for the Deaf and Hard of Hearing, Inc.) for its relentless efforts to provide unmatched accessibility for people with disabilities.

'Cell Phones For Seniors' Event Series:

AT&T hosted a series free “Cell Phones for Seniors” at local community venues and senior centers across the nation. Participants were encouraged to bring their mobile phones, regardless of which wireless carrier they currently use. AT&T representatives provided demos and one-on-one instructional support. Sessions, tailored to meet the needs of each participant, covered everything from mobile phone basics, such as controlling the volume, to checking voice mail to storing a number in a phone's address book. Seniors also had the opportunity to learn about AT&T's Hearing Aid Compatible (HAC) options as well as how to send text messages and share pictures on their phones.

AT&T has also provided support for the following organizations in 2009:

American Association of People With Disability’s
Disability Rights Education & Defence Fund
American Foundation for the Blind
Telecommunications for the Deaf Inc
The Chicago Disability Pride Parade 2009
Disability Right Advocates
World Institute on Disability – Ever Widening Circle
National Hispanic Council on Aging

Methodology for Functionality Levels

The Levels of Functionality explanation is as follows: “Good” depicts devices with basic technology on entry level data speeds; “Better” depicts devices with advanced technology and/or with advanced functionality; and “Best” depicts devices with new technology and/or with new functionality that operate on faster data speeds.
