Explain:

Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? Yes

Website address: www.astac.net/compatiblephones.html

Explain:

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: ASTAC uses its billing messages capability and website for outreach efforts with regard to hearing aid compatibility as well as flyers in its storefront. All sales staff are trained to assist customers in identifying hearing aid compatible products that best meet their needs and budget. ASTAC also has an Inupiat speaking service representative to meet the unique communication needs of our Inupiat Eskimo membership. ASTAC also sells its lowest priced HAC phone below cost so that it is priced the same as ASTAC's lowest cost non-HAC phone.

Methodology for Functionality Levels

ASTAC offers its limited market a choice of inexpensive phones costing less than \$125 or more expensive, feature-rich phone costing greater than \$125, in both HAC rated and non-rated models. This requires significant management to meet M3/T3 ratios, maintain balanced functionality and choices between the HAC and non-HAC phones, while reacting to model phase out and limited vendor choice and pricing, based on ASTAC's volume of purchases.
