Explain:

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: LCW is a joint venture that includes Cricket Communications, Inc. ("Cricket"). Pursuant to a Management Agreement between LCW and Cricket, Cricket provides certain operational, administrative, customer service and marketing services to LCW. LCW is allowed to use certain trademarks in connection with the promotion and supply of Cricket wireless services and handsets. Consequently, LCW customers can purchase wireless service and handsets from Cricket stores, and the LCW handset line-up mirrors the Cricket handset line-up.

In addition to providing information on the Cricket and LCW websites (mycricketoregon.com) regarding HAC handset models, Cricket sales personnel have been made aware of the HAC requirements and the HAC handsets offered by Cricket. Cricket makes HAC handsets available to customers for testing in its retail stores, as required by Section 20.19(c)(4)(i) of the FCC's rules.

Methodology for Functionality Levels

Cricket offers handsets with a wide range of features and capabilities, and at varying price points. Because LCW and its partner Cricket are not Tier I carriers, however, the number of handsets LCW offers is not large enough to justify marketing based on levels of functionality. For instance, unlike some Tier 1 carriers, Cricket does not currently offer handsets with WiFi capability, nor does it carry a wide range of PDAs or smartphones. As demonstrated on Cricket's webpage describing its handset models, Cricket's HAC handsets cover a broad range of prices and functions, including multiple frequency bands, text messaging and data capabilities, as well as other features that may be desirable to customers with hearing disabilities or impairments. For purposes of this filing, LCW is following Cricket's practice of classifying its handset models into three categories:

Good - includes basic calling and texting functions, mobile web access, GPS

Better - may also include camera phone, Bluetooth, mobile email, QWERTY keypad, multimedia messaging service

Best - may also include touchscreen, high-speed data, video

Report Remarks

LCW timely filed its 2009 HAC Status Report on 1-15-2010. Two handsets inadvertently were left off that report, and are being added to LCW's HAC Status Report via an amendment submitted on 2/23/2010. The addition of these handsets has no impact on LCW's compliance with the FCC's HAC rules.
