MTPCS trains its salespeople on which digital phones are compliant. Compliant HAC phones are identified at the point of sale in retail locations on the merchandising call out cards. Consumers are given a 30 day trial period within which to try out digital wireless phones to determine whether they will work properly with their hearing aids. Flexible return policies are made known to consumers seeking to obtain compliant phones.

## Methodology for Functionality Levels

Levels of functionality are determined by consultation with the phone vendor/manufacturer on the subject of HAC functionality and the retail price class of the phone.
