Explain:

## Consumer Outreach

Describe consumer outreach efforts in the past 12 months: Given Shentel's affiliate relationship with Sprint Nextel, Shentel primarily relies on the consumer outreach efforts of Sprint (i.e., Sprint website, Sprint handset user guides and manuals, and other Sprint outreach efforts). In addition, each Sprint store in the Shentel service area continues to provide HAC handset rating information on its in-store "Fact Tags" and/or "Call-Out Cards."

## Methodology for Functionality Levels

Sprint categorizes its handsets into three levels of functionality - Basic, Middle, and Advanced. Sprint considers Basic phones to have basic functionalities that are low cost to consumers, including low and nominal cost devices. Sprint considers Middle phones to be those that include in-demand features, such as push-to-talk, high-resolution cameras and music players, and typically can cost considerably more than a Basic model. Sprint's Advanced phones often include its latest offerings and cutting edge technology demanded by the most tech-savvy consumers. Customers for these phones usually desire the latest functionality and capacity, and often are looking for handsets that offer both voice and data capabilities and/or can serve as a personal digital assistant. The cost for Advanced handsets typically is at the top of the range of devices offered, and can be significant compared to Sprint's other offerings.
