Methodology for Functionality Levels

We determined each handset would be rated on three levels (tiers) low, mid and high. We determined tiers based on price, features, level of functionality (wifi, edge, mms, sms, email) and we rated on features such as camera, camera resolution, display, qwerty keypads, and price. See below for our current tiers as they are listed in our locations and on our internet site.

High Tier Handsets range from (\$250.99 - \$399.99) may have advanced features such as a 2MP or above camera, Advanced Bluetooth, expandable memory, email access, Touch screen, and Internet access capability.
