Filing Agent

Is this report being filed by an agent on behalf of a manufacturer or service provider? No

Product Labeling

Do all hearing aid-compatible handsets include labeling? Yes

Explain:

Do all hearing aid-compatible handsets that are capable of voice communication over any air interface or frequency band that does not currently have hearing aid compatibility technical standards have clear and effective disclosure that the handset has not been rated for hearing aid compatibility with respect to such operations? Yes

Explain:

Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those

models, and an explanation of the rating system? Yes

Website address: <http://www.cellonation.com/phones/HAC.php>

Explain:

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: MTPCS's compliant handset models are publicly identified for consumers and audiologists. Compliant models are listed on MTPCS' web site. MTPCS trains its salespeople on which digital phones are compliant. Compliant HAC phones are identified at the point of sale in retail locations on the merchandising cards. Consumers are given a 30 day trial period to try out digital wireless phones to determine whether they will work with their hearing aids. Flexible return policies are made known to consumers seeking to obtain compliant phones.

Methodology for Functionality Levels

Levels of functionality are determined by consultation with the phone vendor/manufacturer on the subject of HAC functionality and the price class of the phone. Operating capabilities and functionality of compliant handset models are verified through the MTPCS operator acceptance program for MTPCS' cellular network.
