

Federal Communications Commission

Hearing Aid Compatibility Status Report (FCC Form 655)

Reporting Period: January 1, 2010 - December 31, 2010

Filing Confirmation Number: 0004577940

Filing Deadline: January 18, 2011

FRN: 0004979233

Filing Date: 01/18/2011 10:13 PM

General Report Information

Type of Company

Service Provider

De Minimis Exception

Did you offer more than two handsets over any air interface to service providers (if you are a device manufacturer) or to subscribers (if you are a service provider) during this reporting period? Yes

Did you offer any handsets to service providers (if you are a device manufacturer) or to subscribers (if you are a service provider) during this reporting period?

Company Information

Company Name: AT&T Mobility
 Brand Names: AT&T
 PO Box:
 Street Address: 1120 20th St, NW, Suite 1000
 City: Washington
 State: DC
 Zip Code: 20036

Contact Name: Myra Creeks
 Contact Phone: (202) 457-3009
 Contact Fax:
 Contact Email: myra.creeks@att.com

Filing Agent

Is this report being filed by an agent on behalf of a manufacturer or service provider? No

Product Labeling

Do all hearing aid-compatible handsets include labeling? Yes

Explain:

Do all hearing aid-compatible handsets that are capable of voice communication over any air interface or frequency band that does not currently have hearing aid compatibility technical standards have clear and effective disclosure that the handset has not been rated for hearing aid compatibility with respect to such operations? Yes

Explain:

Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those

models, and an explanation of the rating system? Yes

Website address:

<http://www.wireless.att.com/learn/articles-resources/disability-resources/hearing-aid-compatibility.jsp>

Explain:

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: Celebrate Communicate:

AT&T sponsored and exhibited at the Northern Virginia Resource Center's regional conference allowing users to understand hearing aid compatibility as well as a range of communications options available at AT&T for people who have a hearing loss or are deaf.

Hearing Loss Association of America National Convention:

AT&T participated on a panel presentation titled "The Wireless Industry: Finding the Cell Phones or Mobile Devices to Meet Your Needs." The panel featured industry experts, wireless carrier and manufacturer representatives and individuals with a hearing loss who shared their wireless experience.

'Cell Phones For Seniors' Event Series:

AT&T hosted a free series titled "Cell Phones for Seniors" at local community venues and senior centers across the nation. Participants were encouraged to bring their mobile phones, regardless of which wireless carrier they currently use. AT&T representatives provided demos and one-on-one instructional support. Sessions, tailored to meet the needs of each participant, covered everything from mobile phone basics, such as controlling the volume, to checking voice mail to storing a number in a phone's address book. Seniors also had the opportunity to learn about AT&T's Hearing Aid Compatible (HAC) options as well as how to send text messages and share pictures on their phones.

AT&T has also provided support for the following organizations in 2010:

American Association of People With Disabilities

National Association of the Deaf

American Council of the Blind

Telecommunications for the Deaf Inc

Hearing Loss Association of America

National Hispanic Council on Aging

The Chicago Disability Pride Parade 2010

World Institute on Disability – Ever Widening Circle

Methodology for Functionality Levels

The Levels of Functionality explanation is as follows: "Good" depicts devices with basic technology on entry level data speeds; "Better" depicts devices with advanced technology and/or with advanced functionality; and "Best" depicts devices with new technology and/or with new functionality that operate on faster data speeds.

Report Remarks

You have reported the following handset model summary information.

Total number of handsets offered: 96

Air Interface	Fully Hearing Aid Compatible		Acoustic Coupling Compatible Only		Non-Compliant Handsets		Total by Air Interface
	Number	Percent	Number	Percent	Number	Percent	
GSM	41	43%	9	9%	46	48%	96
WCDMA	31	44%	8	11%	31	44%	70
