Website address: www.camelliacom.com

Explain:

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: Signage at display area letting consumers know that the handsets are compatible.

Methodology for Functionality Levels

Offer handsets and devices in all major price categories, including low cost (C), moderate-cost (B) and high-end/feature rich (A). Costs generally correlate with the number of features, but if though experience, finds that a certain handset contains features that work wwell with hearing aids, such as volume control, it will be labeled accordingly with a "A" level for functionality. Hayneville Fiber's sales staff is trained to assist all existing and prospective customers looking for a HAC-compatible device/handset. HAC compatible handsets and devisces vvary in their inherent "levels of functionality," but typically at least one (1) HAC - compliant handset/device with features and services typically at least one (1) HAC compliant handset/device with features and services typical of its price category can be found that meets each customer's price range.
