Consumer Outreach

Describe consumer outreach efforts in the past 12 months: XIT maintains a public website displaying its entire selection of handsets/devices, including those that are HAC-compliant. XIT's sales staff is trained to assist existing and prospective customers in identifying HAC-compatible handsets and devices. Existing or prospective customers can typically find whether a handset or device is HAC-compliant by either checking the packaging containing the handset/device, or by consulting the packaging insert or operations manual. XIT displays the HAC rating for all HAC-compliant handsets/devices on the pricing information card. XIT also has a large poster on display to advise customers that HAC rated phones are available. For more HAC information, existing and prospective customers can be directed to www.accesswireless.org/hearingaid/brochures.cfm and other public websites dedicated to HAC education.

Methodology for Functionality Levels

XIT offers HAC-compatible handsets and devices in the low-cost ("C" level) (<\$100) price category. XIT's sales staff is trained to assist all existing and prospective customers looking for a HAC-compliant device/handset. HAC-compatible handsets and devices vary in their inherent "levels of functionality," but typically at least one HAC-compliant handset/device with features and services typical of its price category can be found that meets each customer's price range.

Report Remarks

AT&T purchased XIT in 2011. On September 21, 2011, XIT became an authorized AT&T dealer.
