Consumer Outreach

Describe consumer outreach efforts in the past 12 months: Allied Wireless' compliant handset devices are publicly available on its website. The information includes a listing of each handset device and its M-ratings/T-ratings. A description of the ANSI Standard (M-ratings and T-ratings) is also included.

Sales personnel at Allied Wireless' retail stores have been familiarized with HAC requirements and HAC ratings. Retail Store employees and call center employees are provided with direct access to HAC requirements and ratings on the internet to ensure Allied Wireless' employees are able to respond to customer inquiries accurately. Retail Store employees and call center employees are also required to complete HAC training on an annual basis.

All price tags of handsets in retail stores clearly identify the handset's M-rating and/or T-rating. Customers are provided a 15-day trial period within which a customer may try out the handset device and determine whether the handset device will work properly with the customer's hearing aid.

Methodology for Functionality Levels

Functionality level describes the general capabilities of the device. Tier 1 devices offer basic features and/or data speeds. Tier 2 devices offer advanced features and/or data speeds. Tier 3 devices are PDAs and Smartphones that offer more advanced computer-like features such as full-featured email, personal organizer and often the ability to add applications.
