#### Product Labeling

Do all hearing aid-compatible handsets include labeling? No

Explain: Hearing aid-compatible handsets do not include labeling because the phones and the associated packaging were manufactured prior to the effective date of the current product labeling requirements. STi Prepaid understands that it is not required to comply with the labeling requirements pursuant to the de minimis exception.

Do all hearing aid-compatible handsets that are capable of voice communication over any air interface or frequency band that does not currently have hearing aid compatibility technical standards have clear and effective disclosure that the handset has not been rated for hearing aid compatibility with respect to such operations? Yes

Explain:

#### Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? Yes

Website address: www.stimobile.com

Explain:

### Consumer Outreach

Describe consumer outreach efforts in the past 12 months: STi Mobile has identified whether the handsets available on its website are hearing aid-compatible and trained its personnel to respond to customer inquiries regarding hearing aid-compatibility issues.

### Methodology for Functionality Levels

Basic - entry-level handset that contains standard voice and text functionality.

Enhanced - mid-level handset that contains advanced functionality, such as mobile Internet, camera phone, and Bluetooth features.

### Report Remarks

STi Prepaid understands that it is not required to comply with the majority of the hearing aid-compatibility rules pursuant to the de minimis exception because it only offers two (2) handsets for sale on its website.
