## Hearing Aid Compatibility Status Report (FCC Form 655)

Reporting Period: January 1, 2012 - December 31, 2012

Filing Confirmation Number: 0005602872

Filing Deadline: January 15, 2013

FRN: 0001630201

Filing Date: 01/14/2013 03:38 PM

### General Report Information

#### Type of Company

Service Provider

#### De Minimis Exception

Did you offer any handsets to subscribers in the United States during the reporting period? Yes

Have you been offering handsets in the United States for at least three years prior to the end of the reporting period? Yes

Date that you began offering handsets in the United States

Are you a small entity? Yes

Were you a small entity at any time during the three years prior to the end of the reporting period?

Date that you ceased to be a small entity?

#### Company Information

Company Name: Union Telephone Company

Brand Names: Union Wireless

PO Box: 160

Street Address: 850 N. Hwy 414

City: Mountain View

State: WY

Zip Code: 82939

Contact Name: Carl Smith

Contact Phone: (307) 782-4190

Contact Fax:

Contact Email: cjsmith@unionwireless.com

#### Filing Agent

Is this report being filed by an agent on behalf of a manufacturer or service provider? Yes

Agent Name: Lukas, Nace, Gutierrez & Sachs, LLP

PO Box:

Street Address: 8300 Greensboro Drive, Suite 1200

City: McLean

State: VA

Contact Name: Pamela L. Gist, Esq.  
Contact Phone: (703) 584-8665  
Contact Fax: (703) 584-8696  
Contact Email: pgist@fcclaw.com

### Product Labeling

Do all hearing aid-compatible handsets include labeling? Yes

Explain:

Do all hearing aid-compatible handsets that are capable of voice communication over any air interface or frequency band that does not have hearing aid compatibility technical standards under ANSI C63.19-2007 include the required language disclosing that the handset has not been rated for hearing aid compatibility with respect to such operations? Yes

Explain:

Do all hearing aid-compatible handsets that the manufacturer also tested and found not to meet hearing aid compatibility requirements under ANSI C63.19-2011 for one or more operations that are not covered under ANSI C63.19-2007, include language informing users by clear and effective means that the handset does not meet the relevant rating or ratings with respect to such operation(s)?

N/A

Explain:

Do all handsets that are capable of use for Voice over LTE, and that were certified for inductive coupling capability under ANSI C63.19-2011 without being tested for inductive coupling capability over VoLTE, include language disclosing that they were not tested with respect to this operation?

N/A

Explain:

Do all handsets that meet the criteria for an M3 rating by allowing the user to reduce the maximum power for GSM operation in the 1900 MHz band include the required disclosure?

Yes

Explain:

### Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? Yes

Website address: <http://www.unionwireless.com/Phones.aspx>

Explain:

### Consumer Outreach

Describe consumer outreach efforts in the past 12 months: Compliant handset models are publicly identified for consumers and audiologists. Compliant models are listed on the company web site, and retail salespeople are trained to assist with complaint digital wireless phones. Compliant handsets are available for testing from live phone displays in retail locations. Written materials, pamphlets and other promotional literature are provided at the point of sale and on the website, addressing the needs of individuals with hearing disabilities. Consumers are given a 30-day trial period within which to try out digital wireless phones to determine whether they will work properly with their hearing aids.

### Methodology for Functionality Levels

Basic phones are primarily designed for users that just use the phone for voice calls and text messages. They may not have email, Bluetooth, music players, picture messaging, MMS, mobile web or WAP. These phones will usually be

offered at a low price.

Standard phones are moderately priced and offer some additional features over the basic phones. Standard phones will often be offered in varied colors and will always offer MMS and WAP functionality. These phones will usually have a camera and tend to be more durable and offer better RF performance than would a Basic phone. Most Standard phones will offer Bluetooth and music players, but not always.

Fashion phones vary greatly in price and are designed with a fashion conscious consumer in mind. Fashion phones will have a unique style and often be offered in varied colors. All Fashion phones will offer MMS and WAP functionality. Most fashion phones have Bluetooth and offer basic email synchronization from a POP3 account using the WAP connectivity.

Utility phones vary from a moderate to high price and are designed to have the type of features that business customers desire. All utility phones will offer Bluetooth, Good RF Performance and MMS / WAP functionality. Utility phones are normally one of the staple products offered to most consumers since they have a better than average life in use.

Entertainment phones vary from a moderate to high price and are designed to offer a large number of entertainment functions in a single device. Entertainment phones will always offer Bluetooth and a media player. Most Entertainment phones will offer expandable memory or a larger memory for storing music, pictures and video. Varied colors are often offered with this type of phone. A software package and USB cable will often be provided to allow synchronization to a computer for music or other data.

Enterprise devices are usually the higher priced phones with the highest amount of functionality. These devices typically have the ability to sync with POP3 email services and often offer synchronization with exchange or other corporate style email and calendar services. These products will offer some type of media player although its primary function is to provide the connectivity and messaging features a user will need for personal and business use.

#### Report Remarks

Union Telephone Company does not operate network facilities utilizing a WCDMA air interface.

You have reported the following handset model summary information.

Total number of handsets offered: 94

Air Interface	Fully Hearing Aid Compatible		Acoustic Coupling Compatible Only		Non-Compliant Handsets		Excluded Handsets Number	Total by Air Interface
	Number	Percent	Number	Percent	Number	Percent		
GSM	23	24%	5	5%	66	70%		94
WCDMA	4	21%	1	5%	14	74%		19

#### Handset 1: HTC S743

##### Handset Maker

HTC

##### Handset Model Name

S743

##### FCC ID

NM8RSB

##### Air Interfaces/Frequency Bands

850 MHz GSM

1900 MHz GSM

2.4 GHz Wi-Fi

##### Dates

This handset model was offered from: 01/12 to 12/12

### Ratings

M-Rating: M3

T-Rating: T3

Did this handset meet the criteria for an M3 rating for operations over GSM at 1900 MHz by enabling the user optionally to reduce the maximum power at which the handset will operate by no more than 2.5 decibels, except for emergency calls to 911? N

### Functionality Level

Enterprise

### Remarks
