

Federal Communications Commission

Hearing Aid Compatibility Status Report (FCC Form 655)

Reporting Period: January 1, 2012 - December 31, 2012

Filing Confirmation Number: 0005595053

Filing Deadline: January 15, 2013

FRN: 0002751881

Filing Date: 01/09/2013 06:45 AM

General Report Information

Type of Company

Service Provider

De Minimis Exception

Did you offer any handsets to subscribers in the United States during the reporting period? Yes

Have you been offering handsets in the United States for at least three years prior to the end of the reporting period? Yes

Date that you began offering handsets in the United States

Are you a small entity? Yes

Were you a small entity at any time during the three years prior to the end of the reporting period?

Date that you ceased to be a small entity?

Company Information

Company Name: Thumb Cellular, LLC
 Brand Names: <NA>
 PO Box: 650
 Street Address: 7585 W. Pigeon Rd.
 City: Pigeon
 State: MI
 Zip Code: 48755

Contact Name: Paul Picklo
 Contact Phone: (989) 453-4333
 Contact Fax: (989) 453-4363
 Contact Email: paul.picklo@thumbcellular.com

Filing Agent

Is this report being filed by an agent on behalf of a manufacturer or service provider? No

Product Labeling

Do all hearing aid-compatible handsets include labeling? Yes

Explain:

Do all hearing aid-compatible handsets that are capable of voice communication over any air interface or frequency

band that does not have hearing aid compatibility technical standards under ANSI C63.19-2007 include the required language disclosing that the handset has not been rated for hearing aid compatibility with respect to such operations?
N/A

Explain:

Do all hearing aid-compatible handsets that the manufacturer also tested and found not to meet hearing aid compatibility requirements under ANSI C63.19-2011 for one or more operations that are not covered under ANSI C63.19-2007, include language informing users by clear and effective means that the handset does not meet the relevant rating or ratings with respect to such operation(s)?

N/A

Explain:

Do all handsets that are capable of use for Voice over LTE, and that were certified for inductive coupling capability under ANSI C63.19-2011 without being tested for inductive coupling capability over VoLTE, include language disclosing that they were not tested with respect to this operation?

N/A

Explain:

Do all handsets that meet the criteria for an M3 rating by allowing the user to reduce the maximum power for GSM operation in the 1900 MHz band include the required disclosure?

Explain:

Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? Yes

Website address: www.thumbcellular.com

Explain:

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: Potential customers are advised of the availability and functionality of Hearing Aid Compatible (HAC) handset models through in-store discussion as needed or requested and through information found on our website.

Methodology for Functionality Levels

Determination of a handset's level of functionality was based on the cost of the unit, the features offered, and the operating capabilities of the unit. Thumb Cellular has identified the following three (3) levels of handset functionality:

1. Basic: included handsets with a retail value of \$129 or less that offer basic calling ability, may or may not offer a camera and Bluetooth technology, and may only have limited data functions.
2. Advanced: includes handsets with a retail value of \$139 up to \$199 that offer all basic functionality, and also have a camera, bluetooth technology, an expansion memory slot, and music player capabilities. These models offer a full range of data functions on the high-speed, EV-DO, data network. In addition, some of these models offer touch-screen technology.
3. Smart Devices: includes handsets with a retail value of \$269 or higher, offer all the functions of the previous categories and also have the functionality of a PDA. Included in this category are BlackBerry devices and Android devices by HTC, LG, Motorola, Samsung, and Alcatel One Touch.

Report Remarks

Reporter does not sell any handsets which are configured for voice interface with Wi-Fi; Reporter is not aware that an HAC standard has been established for Wi-Fi; in store signage indicates that Wi-Fi capable handsets have not been HAC tested over that interface.

You have reported the following handset model summary information.

Total number of handsets offered: 33

Air Interface	Fully Hearing Aid Compatible		Acoustic Coupling Compatible Only		Non-Compliant Handsets		Excluded Handsets Number	Total by Air Interface
	Number	Percent	Number	Percent	Number	Percent		
CDMA	26	79%	7	21%				33
