Product Labeling

Do all hearing aid-compatible handsets include labeling? Yes

Explain:

Do all hearing aid-compatible handsets that are capable of voice communication over any air interface or frequency band that does not have hearing aid compatibility technical standards under ANSI C63.19-2007 include the required language disclosing that the handset has not been rated for hearing aid compatibility with respect to such operations?
No

Explain: All handsets to which the disclosure applies have the applicable disclosure, however, during the reporting period the company launched a new 4G LTE Website and, initially, inadvertently did not include the disclosure.

Do all hearing aid-compatible handsets that the manufacturer also tested and found not to meet hearing aid compatibility requirements under ANSI C63.19-2011 for one or more operations that are not covered under ANSI C63.19-2007, include language informing users by clear and effective means that the handset does not meet the relevant rating or ratings with respect to such operation(s)?

N/A

Explain:

Do all handsets that are capable of use for Voice over LTE, and that were certified for inductive coupling capability under ANSI C63.19-2011 without being tested for inductive coupling capability over VoLTE, include language disclosing that they were not tested with respect to this operation?

N/A

Explain:

Do all handsets that meet the criteria for an M3 rating by allowing the user to reduce the maximum power for GSM operation in the 1900 MHz band include the required disclosure?

Explain:

Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? Yes

Website address: <http://www.cv4g.com/index.php/2012-07-16-14-32-05/hearing-aid-compatible>

Explain:

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: Chariton Valley maintains a public website displaying our entire selection of handsets and devices, including those that are HAC compliant. Our sales staff is trained to assist existing and prospective customers in identifying HAC compliant handsets. Customers can also be referred to www.accesswireless.org/hearingaid/brochures.cfm and other public websites dedicated to HAC education.

Methodology for Functionality Levels

Chariton Valley offers HAC compatible handsets in various feature categories, including Featured Phones and Smart

Phones. We label handsets with features that work well with hearing aids. The sales staff is trained to assist customers looking for a HAC compliant handset with features suited to the customer.
