

Federal Communications Commission

Hearing Aid Compatibility Status Report (FCC Form 655)

Reporting Period: January 1, 2012 - December 31, 2012

Filing Confirmation Number: 0005604214

Filing Deadline: January 15, 2013

FRN: 0018080523

Filing Date: 01/15/2013 11:24 AM

General Report Information

Type of Company

Service Provider

De Minimis Exception

Did you offer any handsets to subscribers in the United States during the reporting period? Yes

Have you been offering handsets in the United States for at least three years prior to the end of the reporting period?

Date that you began offering handsets in the United States 03/10

Are you a small entity? No

Were you a small entity at any time during the three years prior to the end of the reporting period? No

Date that you ceased to be a small entity?

Company Information

Company Name: True Wireless, LLC
Brand Names: True Wireless
PO Box:
Street Address: 3124 Brother Blvd., Suite 104
City: Bartlett
State: TN
Zip Code: 38133

Contact Name: Shannon Bing
Contact Phone: (901) 415-1741
Contact Fax:
Contact Email: sbing@gotruewireless.com

Filing Agent

Is this report being filed by an agent on behalf of a manufacturer or service provider? No

Product Labeling

Do all hearing aid-compatible handsets include labeling? No

Explain: True Wireless enables customers to obtain previously-used handsets free of charge through a refurbishing company. It has recently come to True Wireless' attention that refurbished phones shipped by the refurbishing company to True Wireless customers have been provided without original packaging or other hearing aid

compatibility information. True Wireless has discussed this matter with its vendor and the company expects to be able to report compliance in its next Form 655 submitted to the commission.

Do all hearing aid-compatible handsets that are capable of voice communication over any air interface or frequency band that does not have hearing aid compatibility technical standards under ANSI C63.19-2007 include the required language disclosing that the handset has not been rated for hearing aid compatibility with respect to such operations?
N/A

Explain:

Do all hearing aid-compatible handsets that the manufacturer also tested and found not to meet hearing aid compatibility requirements under ANSI C63.19-2011 for one or more operations that are not covered under ANSI C63.19-2007, include language informing users by clear and effective means that the handset does not meet the relevant rating or ratings with respect to such operation(s)?

Explain:

Do all handsets that are capable of use for Voice over LTE, and that were certified for inductive coupling capability under ANSI C63.19-2011 without being tested for inductive coupling capability over VoLTE, include language disclosing that they were not tested with respect to this operation?

N/A

Explain:

Do all handsets that meet the criteria for an M3 rating by allowing the user to reduce the maximum power for GSM operation in the 1900 MHz band include the required disclosure?

Explain:

Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? Yes

Website address: www.gotruewireless.com

Explain:

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: True Wireless provides hearing aid compatibility information to its customers through its website. True Wireless does not own or operate any retail stores, so is not able to offer customers the ability to test phones in such stores, but if a hearing-impaired customer has difficulty using a handset, True Wireless will allow the customer to substitute for a different handset free of charge.

Methodology for Functionality Levels

True Wireless designated its handsets into functionality classifications based on the objective criteria provided by the handset manufacturers. Handsets with touch-screen and rich access to media were classified as smartphones. Handsets with small screens and with only limited navigational functionality were classified as basic handsets. Other handsets were classified as mid-range handsets.

Report Remarks

You have reported the following handset model summary information.

Total number of handsets offered: 102

Air Interface	Fully Hearing Aid Compatible		Acoustic Coupling Compatible Only		Non-Compliant Handsets		Excluded Handsets Number	Total by Air Interface
	Number	Percent	Number	Percent	Number	Percent		
CDMA	79	77%	20	20%	3	3%		102

You have reported the following handset model summary information.

Total number of handsets offered: 102

Air Interface	Fully Hearing Aid Compatible Number Percent	Acoustic Coupling Compatible Only Number Percent	Non-Compliant Handsets Number Percent	Excluded Handsets Number	Total by Air Interface
