

Federal Communications Commission

Hearing Aid Compatibility Status Report (FCC Form 655)

Reporting Period: January 1, 2012 - December 31, 2012

Filing Confirmation Number: 0005696687

Filing Deadline: January 15, 2013

FRN: 0002315224

Filing Date: 03/19/2013 09:39 AM

General Report Information

Type of Company

Service Provider

De Minimis Exception

Did you offer any handsets to subscribers in the United States during the reporting period? Yes

Have you been offering handsets in the United States for at least three years prior to the end of the reporting period? Yes

Date that you began offering handsets in the United States

Are you a small entity? Yes

Were you a small entity at any time during the three years prior to the end of the reporting period?

Date that you ceased to be a small entity?

Company Information

Company Name: WestLink Communications
Brand Names: WestLink Communications
PO Box: 707
Street Address: 120 West Kansas Avenue
City: Ulysses
State: KS
Zip Code: 67880

Contact Name: Catherine Moyer
Contact Phone: (620) 575-5133
Contact Fax: (620) 424-3133
Contact Email: catherine@pioncomm.net

Filing Agent

Is this report being filed by an agent on behalf of a manufacturer or service provider? Yes

Agent Name: Lukas, Nace, Gutierrez & Sachs, LLP
PO Box:
Street Address: 1650 Tysons Blvd., Suite 1500
City: McLean
State: VA

Contact Name: Pamela L. Gist Esq.
Contact Phone: (703) 584-8665
Contact Fax: (703) 584-8695
Contact Email: pgist@fcclaw.com

Product Labeling

Do all hearing aid-compatible handsets include labeling? Yes

Explain:

Do all hearing aid-compatible handsets that are capable of voice communication over any air interface or frequency band that does not have hearing aid compatibility technical standards under ANSI C63.19-2007 include the required language disclosing that the handset has not been rated for hearing aid compatibility with respect to such operations? Yes

Explain:

Do all hearing aid-compatible handsets that the manufacturer also tested and found not to meet hearing aid compatibility requirements under ANSI C63.19-2011 for one or more operations that are not covered under ANSI C63.19-2007, include language informing users by clear and effective means that the handset does not meet the relevant rating or ratings with respect to such operation(s)? Yes

Yes

Explain:

Do all handsets that are capable of use for Voice over LTE, and that were certified for inductive coupling capability under ANSI C63.19-2011 without being tested for inductive coupling capability over VoLTE, include language disclosing that they were not tested with respect to this operation? N/A

N/A

Explain:

Do all handsets that meet the criteria for an M3 rating by allowing the user to reduce the maximum power for GSM operation in the 1900 MHz band include the required disclosure? Yes

Yes

Explain:

Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? Yes

Website address: www.westlinkcom.com

Explain:

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: WestLink's compliant handset models are publicly identified for consumers and audiologists. Compliant models are listed on WestLink's website, and the information is communicated to consumer groups. WestLink trains its retail sales personnel regarding which digital wireless phones are compliant. Written materials, pamphlets and other promotional literature are provided at the point of sale and on the website, addressing the needs of individuals with hearing disabilities. WestLink conducts a consumer education program aimed at reaching hearing aid and cochlear implant users. Consumers have the opportunity to compare live handsets during the sale process and are given a 30-day trial period to try out digital wireless phones to determine whether they will work properly with their hearing aids. Flexible return policies are made known to consumers seeking to obtain compliant phones. Additional technical and anecdotal information is made available in the form of handouts from vendors that are distributed at retail centers and in communications with the hearing disabilities community. Sales personnel offer assistance to disabled customers to research the best known products

for their selection.

Methodology for Functionality Levels

WestLink uses a functionality rating system consisting of three different rating groups: Basic, Mid-Range, and High-End. Basic refers to phones that have no cameras or VGA cameras. Mid-Range phones generally have more features such as memory card slots, music players, QWERTY keyboards, and/or Bluetooth capabilities. High-End devices are generally devices such as smart phones, pocket PCs, and/or HTML capable flip phones.

Report Remarks

You have reported the following handset model summary information.

Total number of handsets offered: 37

Air Interface	Fully Hearing Aid Compatible		Acoustic Coupling Compatible Only		Non-Compliant Handsets		Excluded Handsets Number	Total by Air Interface
	Number	Percent	Number	Percent	Number	Percent		
GSM	11	30%	2	5%	24	65%		37
