

Federal Communications Commission

Hearing Aid Compatibility Status Report (FCC Form 655)

Reporting Period: January 1, 2013 - December 31, 2013

Filing Confirmation Number: 0006063700

Filing Deadline: January 15, 2014

FRN: 0014644819

Filing Date: 12/19/2013 06:10 PM

General Report Information

Type of Company

Service Provider

De Minimis Exception

Did you offer any handsets to subscribers in the United States during the reporting period? Yes

Have you been offering handsets in the United States for at least three years prior to the end of the reporting period? Yes

Date that you began offering handsets in the United States

Are you a small entity? Yes

Were you a small entity at any time during the three years prior to the end of the reporting period?

Date that you ceased to be a small entity?

Company Information

Company Name: Long Lines Wireless, LLC

Brand Names: Long Lines Wireless

PO Box:

Street Address: 501 4th Street

City: Sergeant Bluff

State: IA

Zip Code: 51054

Contact Name: William Gaukel

Contact Phone: (712) 253-8764

Contact Fax: (712) 271-2727

Contact Email: William.Gaukel@LongLines.biz

Filing Agent

Is this report being filed by an agent on behalf of a manufacturer or service provider? No

Product Labeling

Do all hearing aid-compatible handsets include labeling? Yes

Explain:

Do all hearing aid-compatible handsets that are capable of voice communication over any air interface or frequency

band that does not have hearing aid compatibility technical standards under ANSI C63.19-2007 include the required language disclosing that the handset has not been rated for hearing aid compatibility with respect to such operations?
N/A

Explain:

Do all hearing aid-compatible handsets that the manufacturer also tested and found not to meet hearing aid compatibility requirements under ANSI C63.19-2011 for one or more operations that are not covered under ANSI C63.19-2007, include language informing users by clear and effective means that the handset does not meet the relevant rating or ratings with respect to such operation(s)?

N/A

Explain:

Do all handsets that are capable of use for Voice over LTE, and that were certified for inductive coupling capability under ANSI C63.19-2011 without being tested for inductive coupling capability over VoLTE, include language disclosing that they were not tested with respect to this operation?

N/A

Explain:

Do all handsets that meet the criteria for an M3 rating by allowing the user to reduce the maximum power for GSM operation in the 1900 MHz band include the required disclosure?

Yes

Explain:

Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? Yes

Website address: <http://www.longlines.com/wireless/phonesfilter.php>

Explain:

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: Long Lines Wireless maintains a public website displaying its full selection of handsets, including those that are HAC compliant. Existing or prospective customers can determine whether a handset is HAC compliant by consulting with sales personnel, reviewing the packaging and or literature for the handset, or by reviewing the company's website.

Methodology for Functionality Levels

Functionality A "Smartphones" - Designates handsets that have an operating system (Blackberry, Windows Mobile, Android or other) and provide customers with robust access to the internet and data (over the air or through wi-fi), the ability to run applications and process information on the device.

Functionality B "Multimedia" - designates handsets that allow the customers to access the internet (in a more limited fashion than smartphones), the ability to send and receive multimedia messages, play MP3 or other music or media files, have expanded QWERTY keyboards to improve messaging capabilities or have other features to enable users to access and playback content.

Functionality C "Feature" - designates handsets which are typically lower cost and functionality. Feature phones provide the essential capabilities to talk and text and limited WAP browsing, but do not support advanced applications or support access to wi-fi and robust web browsing.

Report Remarks

You have reported the following handset model summary information.

Total number of handsets offered: 34

Air Interface	Fully Hearing Aid Compatible		Acoustic Coupling Compatible Only		Non-Compliant Handsets		Excluded Handsets Number	Total by Air Interface
	Number	Percent	Number	Percent	Number	Percent		
GSM	19	56%	6	18%	9	26%		34
