

Federal Communications Commission

Hearing Aid Compatibility Status Report (FCC Form 655)

Reporting Period: January 1, 2013 - December 31, 2013

Filing Confirmation Number: 0006101048

Filing Deadline: January 15, 2014

FRN: 0021503834

Filing Date: 01/15/2014 12:05 PM

General Report Information

Type of Company

Service Provider

De Minimis Exception

Did you offer any handsets to subscribers in the United States during the reporting period? Yes

Have you been offering handsets in the United States for at least three years prior to the end of the reporting period? Yes

Date that you began offering handsets in the United States

Are you a small entity? Yes

Were you a small entity at any time during the three years prior to the end of the reporting period?

Date that you ceased to be a small entity?

Company Information

Company Name: Shenandoah Personal Communications, LLC

Brand Names: Sprint
Boost
Virgin Mobile

PO Box: 459

Street Address: 500 Shentel Way

City: Edinburg

State: VA

Zip Code: 22824

Contact Name: Ann Flowers

Contact Phone: (540) 984-5320

Contact Fax: (540) 984-8192

Contact Email: Ann.Flowers@emp.shentel.com

Filing Agent

Is this report being filed by an agent on behalf of a manufacturer or service provider? No

Product Labeling

Do all hearing aid-compatible handsets include labeling? Yes

Explain:

Do all hearing aid-compatible handsets that are capable of voice communication over any air interface or frequency band that does not have hearing aid compatibility technical standards under ANSI C63.19-2007 include the required language disclosing that the handset has not been rated for hearing aid compatibility with respect to such operations? Yes

Explain:

Do all hearing aid-compatible handsets that the manufacturer also tested and found not to meet hearing aid compatibility requirements under ANSI C63.19-2011 for one or more operations that are not covered under ANSI C63.19-2007, include language informing users by clear and effective means that the handset does not meet the relevant rating or ratings with respect to such operation(s)?

Yes

Explain:

Do all handsets that are capable of use for Voice over LTE, and that were certified for inductive coupling capability under ANSI C63.19-2011 without being tested for inductive coupling capability over VoLTE, include language disclosing that they were not tested with respect to this operation?

N/A

Explain:

Do all handsets that meet the criteria for an M3 rating by allowing the user to reduce the maximum power for GSM operation in the 1900 MHz band include the required disclosure?

Explain:

Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? Yes

Website address: <https://www.shentel.com/legal>

Explain:

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: Given Shentel's affiliate relationship with Sprint Nextel, Shentel primarily relies on the consumer outreach efforts of Sprint (i.e., Sprint website, Sprint handset user guides and manuals, and other Sprint outreach efforts). In addition, each Sprint store in the Shentel service area continues to provide HAC handset rating information on its in-store "Fact Tags" and/or "Call-Out Cards."

Methodology for Functionality Levels

Sprint categorizes its handsets into three levels of functionality - Basic, Middle, and Advanced. Sprint considers Basic phones to have basic functionalities that are low cost to consumers, including low and nominal cost devices. Sprint considers Middle phones to be those that include in-demand features, such as push-to-talk, high-resolution cameras and music players, and typically can cost considerably more than a Basic model. Sprint's Advanced phones often include its latest offerings and cutting edge technology demanded by the most tech-savvy consumers. Customers for these phones usually desire the latest functionality and capacity, and often are looking for handsets that offer both voice and data capabilities and/or can service as a personal digital assistant. The cost for Advanced handsets typically is at the top of the range of devices offered, and can be significant compared to Sprint's other offerings.

Report Remarks

You have reported the following handset model summary information.

Total number of handsets offered: 47

Air Interface	Fully Hearing Aid Compatible		Acoustic Coupling Compatible Only		Non-Compliant Handsets		Excluded Handsets Number	Total by Air Interface
	Number	Percent	Number	Percent	Number	Percent		
CDMA	39	83%	7	15%	1	2%		47

Ratings

M-Rating: M4

T-Rating: T3

Did this handset meet the criteria for an M3 rating for operations over GSM at 1900 MHz by enabling the user optionally to reduce the maximum power at which the handset will operate by no more than 2.5 decibels, except for emergency calls to 911?

Functionality Level

Advanced

Remarks

Marketed as Samsung Galaxy Nexus. This device supports voice over CDMA and may simultaneously support data only on LTE at 1900 MHz

Handset 37: Samsung Galaxy Note 2
