

Federal Communications Commission

Hearing Aid Compatibility Status Report (FCC Form 655)

Reporting Period: January 1, 2013 - December 31, 2013

Filing Confirmation Number: 0006099536

Filing Deadline: January 15, 2014

FRN: 0006675771

Filing Date: 01/14/2014 02:09 PM

General Report Information

Type of Company

Service Provider

De Minimis Exception

Did you offer any handsets to subscribers in the United States during the reporting period? Yes

Have you been offering handsets in the United States for at least three years prior to the end of the reporting period? Yes

Date that you began offering handsets in the United States

Are you a small entity? Yes

Were you a small entity at any time during the three years prior to the end of the reporting period?

Date that you ceased to be a small entity?

Company Information

Company Name: NTCH West Tenn, Inc.

Brand Names: Samsung
Huawei
Coolpad

PO Box:

Street Address: 1970 N. Highland Ave., Ste. E

City: Jackson

State: TN

Zip Code: 38305

Contact Name: Paula Nowell

Contact Phone: (731) 995-0736

Contact Fax:

Contact Email: pnowell@cleartalk.net

Filing Agent

Is this report being filed by an agent on behalf of a manufacturer or service provider? No

Product Labeling

Do all hearing aid-compatible handsets include labeling? Yes

Explain:

Do all hearing aid-compatible handsets that are capable of voice communication over any air interface or frequency band that does not have hearing aid compatibility technical standards under ANSI C63.19-2007 include the required language disclosing that the handset has not been rated for hearing aid compatibility with respect to such operations? Yes

Explain:

Do all hearing aid-compatible handsets that the manufacturer also tested and found not to meet hearing aid compatibility requirements under ANSI C63.19-2011 for one or more operations that are not covered under ANSI C63.19-2007, include language informing users by clear and effective means that the handset does not meet the relevant rating or ratings with respect to such operation(s)?

Yes

Explain:

Do all handsets that are capable of use for Voice over LTE, and that were certified for inductive coupling capability under ANSI C63.19-2011 without being tested for inductive coupling capability over VoLTE, include language disclosing that they were not tested with respect to this operation?

N/A

Explain:

Do all handsets that meet the criteria for an M3 rating by allowing the user to reduce the maximum power for GSM operation in the 1900 MHz band include the required disclosure?

Explain:

Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? Yes

Website address: www.clear-talk.net

Explain:

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: NTCH-West Tenn, Inc. and PTA-FLA, Inc. (collectively Clear Talk) maintains a public website displaying their entire selection of handsets and devices, including those that are HAC-Compliant. Clear Talk's staff is trained to assist existing and prospective customers in identifying HAC-Compliant handsets and devices. Existing or prospective customers can typically find the HAC rating of any handset or device by either checking the packaging containing the handset/device, or by consulting the packaging insert or operations manual. For more information on HAC, existing and prospective customers can be directed to www.accesswireless.org/hearingaid/brochures.cfm and other public websites dedicated to HAC education.

Methodology for Functionality Levels

NTCH-West Tenn, Inc and PTA-FLA, Inc. (collectively Clear Talk) offers HAC-compatible handsets and devices in all major price categories, including low-cost ("C"-Level) (less than \$100), moderate cost ("B"-Level) (\$100-\$200), and high-end/feature rich ("A" -level) (at or above \$250). Costs generally correlate with the number of features, but, if through experience Clear Talk finds that a certain handset contains features that work well with the hearing aids, such as volume control, it will be labeled accordingly at the "High-end/feature-rich" or "A" level of functionality. Clear Talk sales staff is trained to assist all existing and prospective customers looking for HAC-compliant device/handsets. HAC-compliant handsets and devices vary in their inherent "levels of functionality" but, typically at least one (1) HAC-compliant handset/device with the features and services typical of its price category can be found that meets each customer's price range.

Report Remarks

This report is filed on behalf of the following companies
NTCH-WT, Inc. FRN#0006675771
PTA-FLA, Inc. FRN#0015818701

You have reported the following handset model summary information.
Total number of handsets offered: 43

Air Interface	Fully Hearing Aid Compatible		Acoustic Coupling Compatible Only		Non-Compliant Handsets		Excluded Handsets Number	Total by Air Interface
	Number	Percent	Number	Percent	Number	Percent		
CDMA	36	84%	6	14%	1	2%		43
