Hearing Aid Compatibility Status Report (FCC Form 655)

Reporting Period: January 1, 2014 - December 31, 2014

Filing Confirmation Number: 0006736191

Filing Deadline: January 15, 2015

FRN: 0013578372

Filing Date: 04/01/2015 07:22 PM

General Report Information

Type of Company

Service Provider

De Minimis Exception

Did you offer any handsets to subscribers in the United States during the reporting period? Yes

Have you been offering handsets in the United States for at least three years prior to the end of the reporting period? Yes

Date that you began offering handsets in the United States

Are you a small entity? Yes

Were you a small entity at any time during the three years prior to the end of the reporting period?

Date that you ceased to be a small entity?

Company Information

Company Name: Coral Wireless, LLC
Brand Names: Mobi PCS
PO Box:
Street Address: 733 Bishop Street Suite 1200
City: Honolulu
State: HI
Zip Code: 96813

Contact Name: Peter Gose
Contact Phone: (808) 723-2000
Contact Fax: (808) 748-8305
Contact Email: peter.gose@mobicps.com

Filing Agent

Is this report being filed by an agent on behalf of a manufacturer or service provider? No

Product Labeling

Do all hearing aid-compatible handsets include labeling? Yes

Explain:

Do all hearing aid-compatible handsets that are capable of voice communication over any air interface or frequency

band that does not have hearing aid compatibility technical standards under ANSI C63.19-2007 include the required language disclosing that the handset has not been rated for hearing aid compatibility with respect to such operations?
Yes

Explain:

Do all hearing aid-compatible handsets that the manufacturer also tested and found not to meet hearing aid compatibility requirements under ANSI C63.19-2011 for one or more operations that are not covered under ANSI C63.19-2007, include language informing users by clear and effective means that the handset does not meet the relevant rating or ratings with respect to such operation(s)?

N/A

Explain:

Do all handsets that are capable of use for Voice over LTE, and that were certified for inductive coupling capability under ANSI C63.19-2011 without being tested for inductive coupling capability over VoLTE, include language disclosing that they were not tested with respect to this operation?

N/A

Explain:

Do all handsets that meet the criteria for an M3 rating by allowing the user to reduce the maximum power for GSM operation in the 1900 MHz band include the required disclosure?

Explain:

Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? Yes

Website address: <http://mobipcs.com/support/special-needs>

Explain:

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: The HAC rating for each of our handsets is listed on display cards in our retail stores. Additionally, HAC ratings are included in the list of specifications for every handset on our website. Other information supporting hearing aid compliance is also listed on our website, and brochures are available in our retail stores upon request.

Methodology for Functionality Levels

Ultra-low - Typically below \$100

Low - Typically \$100-\$150

Smartphone - Full smartphone functionality

Report Remarks

Coral appreciates the Commission's willingness to re-open the filing window in order to allow this HAC report to be moved from a "saved" to a "submitted" state. Coral had been working to put the necessary information together for the report, and in one particular case to resolve a discrepancy between a handset model and its proper FCC ID -- which was being rejected by the HAC system -- in order to ensure that the company was providing the Commission with the most accurate and complete information.

Coral is a small local operator that provides service in the State of Hawaii. The company has undergone significant business changes and turnover during the last 18-plus months as the company repositions itself and seeks a path forward to continue serving its customers. As a result, the ordinary regulatory compliance resources have been stretched extremely thin, resulting in certain unanticipated delays in this instance. Going forward Coral is committed to exploring how to improve internal procedures to guard against the potential for delayed filings in the future.

Most importantly, Coral has always been, and continues to be, in full compliance with the Commission's fractional HAC deployment requirements, meaning that Coral's hearing-impaired customers and potential customers are offered a range of HAC-compliant handsets to suit their needs. In fact, for 2014, 100 percent of the handsets offered by the

company -- that is, Coral's entire handset lineup -- were rated M3 and/or T3 or better, far exceeding the Commission's fractional deployment requirements and demonstrating Coral's commitment to serving the hearing-impaired community.

Accordingly, for good cause shown, Coral respectfully requests a waiver of the applicable portions of Section 20.19 of the Commission's Rules to permit the filing of this report.

You have reported the following handset model summary information.

Total number of handsets offered: 17

Air Interface	Fully Hearing Aid Compatible		Acoustic Coupling Compatible Only		Non-Compliant Handsets		Total by Air Interface
	Number	Percent	Number	Percent	Number	Percent	
GSM	1	100%					1
CDMA	16	94%	1	6%			17
WCDMA	1	100%					1
Wi-Fi	12	92%	1	8%			13
