Filing Agent

Is this report being filed by an agent on behalf of a manufacturer or service provider? No

Product Labeling

Do all hearing aid-compatible handsets include labeling? Yes

Explain:

Do all hearing aid-compatible handsets that were tested under ANSI C63.19-2007, and that are capable of voice

communication over any air interface or frequency band that does not have hearing aid compatibility technical standards under ANSI C63.19-2007, include the required language disclosing that the handset has not been rated for hearing aid compatibility with respect to such operation?

N/A

Explain:

Do all hearing aid-compatible handsets that were certified only under ANSI C63.19-2007, but that the manufacturer also tested and found not to meet hearing aid compatibility requirements under ANSI C63.19-2011 for one or more operations that are not covered under ANSI C63.19-2007, include language informing users by clear and effective means that the handset does not meet the relevant rating or ratings with respect to such operation(s)?

N/A

Explain:

Do all handsets that are capable of use for Voice over LTE, and that were certified for inductive coupling capability under ANSI C63.19-2011 without being tested for inductive coupling capability over VoLTE, include language disclosing that they were not tested with respect to this operation?

N/A

Explain:

Do all handsets that meet the criteria for an M3 rating by allowing the user to reduce the maximum power for GSM operation in the 1900 MHz band include the required disclosure?

Explain:

Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? Service provider websites must include the levels of functionality that the service provider has defined, the level that each hearing aid-compatible model falls under, and an explanation of how the functionality of the handsets varies at the different levels.

No

Website address:

Explain: Our website has not offered any electronic devices at this time.

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: In the past 12 months, CALLMR makes sure every customer get their device work well with their prepaid services. We follow the basic instruction about what network is compatiabile with certain devices that customers have. Since we are offering "Bring your own phone" plans, we are clearly using our platform that our MVNE provided to verify certain devices before selling the service to our customers. Our customers are very pleased with our service and truly believe we are the professional company.

Methodology for Functionality Levels

Since we are MVNO of Verizon, the first step to promise our customers is to verify the phone base on the previous record of the devices(contract or not, lost or stolen etc.).

We are welcoming to get feedback from customers after they activating their service, and ensure the fuccnality of sim cards and device match perfectly.

Report Remarks

In the future, we are constanly to work closer to the telecom industry. Hopefully we are more involved with extended service and understand more regulation.

You have reported the following handset model summary information.

Total number of handsets offered: 0

Air Interface	Fully Hearing Aid Compatible Number Percent	Acoustic Coupling Compatible Only Number Percent	Non-Compliant Handsets Number Percent	Total by Air Interface
----------------------	---	--	---	-------------------------------

Certification
