Federal Communications Commission

Hearing Aid Compatibility Status Report (FCC Form 655)

Reporting Period: January 1, 2016 - December 31, 2016
Filing Confirmation Number: 0007624671
Filing Deadline: March 23, 2017
Filing Date: 01/17/2017 10:10 PM

General Report Information

Type of Company
Service Provider

De Minimis Exception
Did you offer any handsets to subscribers in the United States during the reporting period? Yes

Have you been offering handsets in the United States for at least three years prior to the end of the reporting period? Yes

Date that you began offering handsets in the United States

Are you a small entity? Yes

Were you a small entity at any time during the three years prior to the end of the reporting period?

Date that you ceased to be a small entity?

Company Information

Company Name: PTI Pacifica Inc. dba IT&E
Brand Names: IT&E
PO Box:
Street Address: 122 W Harmon Industrial Park Rd, Suite 103
City: Barrigada
State: GU
Zip Code: 96913

Contact Name: Steven Carrara
Contact Phone: (671) 922-4454
Contact Fax: (671) 922-4329
Contact Email: steven.carrara@itehq.net

Filing Agent

Is this report being filed by an agent on behalf of a manufacturer or service provider? No

Product Labeling

Do all hearing aid-compatible handsets include labeling? Yes

Explain:
Do all hearing aid-compatible handsets that were tested under ANSI C63.19-2007, and that are capable of voice
communication over any air interface or frequency band that does not have hearing aid compatibility technical standards under ANSI C63.19-2007, include the required language disclosing that the handset has not been rated for hearing aid compatibility with respect to such operation?

Yes

Explain:

Do all hearing aid-compatible handsets that were certified only under ANSI C63.19-2007, but that the manufacturer also tested and found not to meet hearing aid compatibility requirements under ANSI C63.19-2011 for one or more operations that are not covered under ANSI C63.19-2007, include language informing users by clear and effective means that the handset does not meet the relevant rating or ratings with respect to such operation(s)?

Yes

Explain:

Do all handsets that are capable of use for Voice over LTE, and that were certified for inductive coupling capability under ANSI C63.19-2011 without being tested for inductive coupling capability over VoLTE, include language disclosing that they were not tested with respect to this operation?

Yes

Explain:

Do all handsets that meet the criteria for an M3 rating by allowing the user to reduce the maximum power for GSM operation in the 1900 MHz band include the required disclosure?

Yes

Explain:

Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? Service provider websites must include the levels of functionality that the service provider has defined, the level that each hearing aid-compatible model falls under, and an explanation of how the functionality of the handsets varies at the different levels.

Yes

Website address:  https://www2.ite.net/faqs/hac

Explain:

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: IT&E's website includes information relevant to HAC, consumer pamphlets are available in stores owned and operated by IT&E, and HAC ratings are indicated on phone display cards. In addition, IT&E personnel are trained with an understanding of HAC.

Methodology for Functionality Levels

Basic - handset can be used for voice and SMS.
Feature - handset can be used for voice, SMS, and WAP browsing.
Smart - handset can be used for voice, SMS, Web browsing, and PC synchronizing.

Report Remarks

IT&E's CDMA network was decommissioned on 2/29/16 and its GSM network was decommissioned on 11/1/16.

You have reported the following handset model summary information.

- 2.4 GHz Wi-Fi

**Dates**

This handset model was offered from: **04/16** to **12/16**

**Ratings**

- **M-Rating:** M4
- **T-Rating:** T3

Did this handset meet the criteria for an M3 rating for operations over GSM at 1900 MHz by enabling the user optionally to reduce the maximum power at which the handset will operate by no more than 2.5 decibels, except for emergency calls to 911?

**Functionality Level**

- Smart

**Remarks**

---
