This page requests contact information for the individual or entity proposing a new antenna structure. Click on 'Continue' to go to the next page to submit details of the proposed antenna structure. After the completion of these two pages, you will have the opportunity to review and edit your information before submission to the FCC.

This system is intended to facilitate consultation under Section 106 of the National Historic Preservation Act by providing early notification of proposed construction to Tribes and State Historic Preservation officers. This system is not to be used in place of Section 106 consultation, and use of this notification system in itself does not satisfy parties' obligations with respect to historic preservation review under the Commission's rules.

Please note: the submission of this notification is NOT to be considered a submission for Antenna Structure Registration. Tower Structures that require antenna structure registration based on FCC Rules 47 C.F.R. Part 17 must complete FCC Form 854 after FAA clearance is obtained.

Submitting a New Notification (4 of 4)

The screenshot shows a web browser window displaying the 'Tower Construction Notification' page. The page title is 'Tower Construction Notification' and the sub-header is 'New Notification'. The breadcrumb trail is 'FCC > WTB > Tower Construction Notification'. There are three navigation links: 'Notifications Home', 'Submit another notification', and 'Antenna Structure Registration'. The main content area contains a confirmation message: 'Your Notification has been successfully submitted to the FCC. The date for this Notification is 12/09/2004. Your Notification ID number is 619. Please make a note of this Notification ID — print out this page for your records. A confirmation of this submitted notification will also be emailed to the email address specified in your notification.' Below this is a paragraph explaining the system's purpose for Section 106 consultation. A bolded warning states: 'This notification is NOT an actual submission for any Antenna Structure Registration filing.' This is followed by a paragraph detailing the requirements for antenna structure registration filings. At the bottom, there is a table with three rows of links.

Tower Construction Notification

FCC > WTB > Tower Construction Notification [FCC Site Map](#)

Tower Construction Notification
New Notification

[Notifications Home](#) | [Submit another notification](#) | [Antenna Structure Registration](#)

Your Notification has been successfully submitted to the FCC. The date for this Notification is 12/09/2004. Your Notification ID number is **619**. Please make a note of this Notification ID — print out this page for your records. A confirmation of this submitted notification will also be emailed to the email address specified in your notification.

This system is intended to facilitate consultation under Section 106 of the National Historic Preservation Act by providing early notification of proposed construction to Tribes and historic preservation officers. This system is not to be used in place of Section 106 consultation, and use of this notification system in itself does not satisfy parties' obligations with respect to historic preservation review under the Commission's rules.

This notification is NOT an actual submission for any Antenna Structure Registration filing.

Tower structures that require antenna structure registration based on FCC Rules 47 C.F.R. Part 17 must complete FCC Form 854 after FAA clearance is obtained. Subsequent antenna structure registration filings; NT- notice of completed construction, OC - ownership change, MD - modifications, DI - dismantlements, etc; must also be filed on the FCC Form 854.

Done Local intranet

Upon submitting the notification, the Tower Builder is given a confirmation screen that states the system assigned ID number for their notification.

Along with the on-line confirmation screen, the Tower Builder also receives a confirmation email from TCNS:

Dear JOHN B SMITH,

Thank you for submitting a notification regarding your proposed structure via the Tower Construction Notification Application. Note that the FCC has assigned a unique Notification ID number for this proposed structure. You will need to reference this Notification ID number when you update your project's Status with us. Below are the details you provided for the tower you have proposed to construct:

Notification Received: 12/09/2004

Notification ID: 619

Entity Name: INDUSTRY TESTING TOWER COMPANY

Individual or Contact Name: JOHN B SMITH

Street Address: 123 MAIN STREET

City: GETTYSBURG

State: PENNSYLVANIA

Zip Code: 17325

Phone: 717-555-1589

Email: john.smith@aol.com

Structure Type: UTOWER - Unguyed - Free Standing Tower

Latitude: 40 deg 12 min 46.5 sec N

Longitude: 100 deg 39 min 09.1 W

Location Description: 500 South Maine Hwy

City: McCook

State: NEBRASKA

Ground Elevation: 812 meters

Support Structure: 99.1 meters above ground level

Overall Structure: 112.8 meters above ground level

Overall Height AMSL: 3034 meters above mean sea level

1.) On a weekly basis, the Tower Construction Notification System will either send an email or produce a letter to the Tribes, SHPOs or NHOs who have indicated that they wish to be notified of a proposed tower construction within a specified area.

If this type of entity indicates that they only wish to be notified of a proposed tower construction within the states of Indiana, Illinois and Michigan, the TCNS will only send to that entity a notification for a proposed construction in those states.

If during that week the system does not receive a proposed construction within that area, this entity will not receive an email or letter notification from the system.

2.) At the same time the TCNS sends the notification to the Tribes, SHPOs or NHOs it will send an automated email to the Tower Builder letting them know that their submitted proposal was distributed to interested parties. The email will advise them which Notification ID they submitted and the names of the entities that were sent the notification and how they received it – email or letter.

Example of email or letter text for the notification sent to the Tribe, SHPO or NHO:

Weekly Notice of Tower Construction Notification System Filings

Dear title and last name of tribal rep, NHO rep or SHPO:

The Federal Communications Commission (Commission) thanks you for using our Tower Construction Notification System. This letter is a weekly notice of proposed tower construction notifications submitted by tower builders within the last week, which also match the area(s) you have chosen to receive such notifications.

To submit comments and reply electronically to a notification, update your contact information, your preferences for receiving notifications or to update the areas for which you receive notifications, please visit wireless.fcc.gov/outreach/notification. Login with the FRN and password you received in the introductory letter dated February 3, 2004.

The following list indicates the Area(s) of interest which you have indicated to receive notifications for proposed tower constructions:

- Maryland, Entire state of
- Virginia, Arlington County

The Tower Construction Notification submissions during the last week, which match your Areas of Interest, are listed and detailed below. To view any attachments submitted with these filings go to wireless.fcc.gov/outreach/notification and utilize the Search option.

Example of email to Tower Builder:

Subject: NOTICE OF ORGANIZATION(S) WHICH WERE SENT PROPOSED TOWER CONSTRUCTION NOTIFICATION INFORMATION

Dear Sir or Madam:

Thank you for using the Federal Communications Commission's (FCC) Tower Construction Notification System (TCNS). The purpose of this letter is to inform you that the following authorized persons were sent the information you provided on TCNS, which relates to your proposed antenna structure. The information was forwarded by the FCC to authorized TCNS users by electronic mail and/or regular mail. Persons who may have received this information include leaders of federally-recognized American Indian tribes, including Alaska Native Villages, and Native Hawaiian Organizations. State and Tribal Historic Preservation Officers may have also received this information. The information you provided was forwarded to the following via electronic or regular mail:

1. Chairman – Donald Smith – Berry Creek Rancheria – electronic mail
2. President – Moses Paukan Sr. – Algaaciq Native Village – regular mail
3. First Chief – James C Landlord – Asa'Carsarmiu Tribe – electronic mail and regular mail

Please be advised that the FCC cannot guarantee that the contact(s) listed above opened and reviewed an electronic or regular mail notification.

The following information relating to the proposed tower was forwarded to the person(s) listed above:

Notification Received: 01/21/2004

Notification ID: 103

Entity Name: Computech, Inc.

Individual or Contact Name: Carl Alvano

P.O. Box: 123

City: McLean

State: VIRGINIA

Zip Code: 22101

Phone: 703-356-2553

Email: calvano@fcc.gov

Structure Type: B - Building

Latitude: 57 deg 57 min 57 sec N

Longitude: 59 deg 59 min 59 W

Location Description: Georgetown Pike

City: McLean

State: Virginia

County: Fairfax

Ground Elevation: 100 meters

Support Structure: 100 meters above ground level

Overall Structure: 100 meters above ground level

Site Elevation: 100 meters above mean sea level

If you have any questions or comments regarding this notice, please contact the FCC using the electronic mail form located on the FCC's website at: <http://wireless.fcc.gov/outreach/notification/contact-fcc.html>.

If you prefer, you may contact the FCC's Universal Licensing System (ULS) hotline by telephone at (717) 338-2888, or toll free at (877) 480-3201. When prompted by the FCC operator, please select Option #2.

Thank you,
Federal Communications Commission

Tower Construction Notification

Specify Regions

[User Options](#)

You may specify a region(s) for which you wish to receive proposed tower notifications from the FCC:

Specify the region(s) for which you wish to receive notifications

Specify a particular region(s) for which you wish to receive proposed tower notifications from the FCC. You will only receive notifications pertaining to the region(s) you specify. These region(s) may be defined by state, county(ies) within a state or coordinates/radius. Each defined area, using one of the identified options, must be submitted separately. Choose an option and enter the information below.

I wish to receive notifications that pertain to the following state or county(ies) within a state:

State(s):

County(ies):

I wish to receive notifications that pertain to the following geographic area:

NAD83 Latitude: ° ' "

NAD83 Longitude: ° ' "

Radius:

SPECIFY REGION

ADD REGION

[Provide Additional Details](#)

You may provide additional details of tower notifications that you do not wish to review. For example, if you do not need to review towers going up along highway rights-of-way built after a certain date, you may specify this information.

Please note that you will still receive all tower notifications within your specified geographic areas of interest. Tower builders, however, will receive any details you provide and will know not to expect a response to notifications that fit your given description.

Tower Construction Notification Additional Details

[User Options](#)

Provide additional details of tower notifications that you do not wish to review. For example, if you do not need to review towers going up along highway rights-of-way built after a certain date, you may specify this information in the text field below.

You may provide only one description for all the regions you specify. Please note that you will still receive tower notifications that fit into your specified areas of interest. Tower builders however, will receive any details you provide below and will know not to expect a response on tower notifications that fit your given description.

Detail Description

Another issue that is very important to us (and that USET has told us they are okay with this) is to add into the TCNS database a column for tribes to list things they want excluded from notice. So, for example, if one tribe in Kentucky does not need to know about towers going up along highway rights of way built after 1985, they could so limit this field.

When additional details have already been provided, they are displayed on the Specify Regions Page.

Example of email to Tower Builder that will now include any Exclusionary Text for a Tribe's designated areas of interest:

Subject: NOTICE OF ORGANIZATION(S) WHICH WERE SENT PROPOSED TOWER CONSTRUCTION NOTIFICATION INFORMATION

Dear Sir or Madam:

Thank you for using the Federal Communications Commission's (FCC) Tower Construction Notification System (TCNS). The purpose of this letter is to inform you that the following authorized persons were sent the information you provided on TCNS, which relates to your proposed antenna structure. The information was forwarded by the FCC to authorized TCNS users by electronic mail and/or regular mail. Persons who may have received this information include leaders of federally-recognized American Indian tribes, including Alaska Native Villages, and Native Hawaiian Organizations. State and Tribal Historic Preservation Officers may have also received this information. The information you provided was forwarded to the following via electronic or regular mail:

Chairman – Donald Smith – Berry Creek Rancheria – electronic mail

Exclusions: Do not notify me of any proposed tower construction south of the York County line on State Route 30.

President – Moses Paukan Sr. – Algaaciq Native Village – regular mail

First Chief – James C Landlord – Asa'Carsarmiot Tribe – electronic mail and regular mail

'Exclusions' above refer to types of tower notifications that the Tribe, NHO, or SHPO/THPO has stated that it does not wish to review. TCNS automatically forwards all notifications to all Tribes, NHOs, and SHPO/THPOs that have an expressed interest in the geographic area of a proposal. However, if a proposal falls within a designated exclusion, you need not expect any response and need not pursue any additional process with that Tribe, NHO, or SHPO/THPO.

Please be advised that the FCC cannot guarantee that the contact(s) listed above opened and reviewed an electronic or regular mail notification.

The following information relating to the proposed tower was forwarded to the person(s) listed above:

Notification Received: 01/21/2004

Notification ID: 103

Entity Name: Computech, Inc.

Individual or Contact Name: Carl Alvano

P.O. Box: 123

City: McLean

State: VIRGINIA

Zip Code: 22101

Phone: 703-356-2553

Email: calvano@fcc.gov

Structure Type: B - Building

Latitude: 57 deg 57 min 57 sec N

Longitude: 59 deg 59 min 59 W

Location Description: Georgetown Pike

City: McLean

State: Virginia

County: Fairfax
