## WIRELESS TELECOM ACTION

### THE NEW ENGLAND AREA (REGION 19) RECEIVES APPROVAL FOR MINOR AMENDMENTS TO ITS PUBLIC SAFETY PLAN

#### (GENERAL DOCKET NO. 90-53)

By this Public Notice, the Commission announces that the New England Area (Region 19) Radio Planning Committee's proposal to amend the Region 19 Public Safety Regional Plan is approved. The amendment, which revises the current channel allotments for radio frequencies in the 821-824/866-869 MHz bands within the New England area, reflects changes made as a result of its sixth window application process. In accordance with the National Public Safety Plan, each region is responsible for planning its use of public safety radio frequency spectrum in the 821-824/866-869 MHz bands.<sup>1</sup> The Region 19 Plan was originally adopted by the Commission on April 26, 1990.<sup>2</sup> The Region 19 Plan was subsequently revised by letter on July 17, 1992, February 28, 1995, and October 30, 1996, and by public notice on March 21, 1997, February 8, 1999, and February 8, 2000.

On July 3, 2000, the Commission issued a Public Notice (DA 00-1440) inviting interested parties to file comments regarding a proposed amendment to the Region 19 Plan that was filed with the Commission on May 5, 2000. We have reviewed the Region 19 request. The amendment is a minor change to the Region 19 Plan. Further, we have received no comments in response to the Public Notice of July 3, 2000, referenced above. The amendment, is therefore, accepted and approved as submitted. The Secretary's office will place the amended Region 19 Plan in the official docket file where it will remain available to the public.

Questions regarding this public notice may be directed to Joy Alford, Wireless Telecommunications Bureau (202) 418-0694.
