Report No. WT 98-28

WIRELESS TELECOM ACTION

August 28, 1998

COMMENTS INVITED ON ARIZONA (REGION 3) PUBLIC SAFETY PLAN AMENDMENT

(PR DOCKET NO. 91-143)

On September 4, 1991, the Commission accepted the Public Safety Plan for Arizona (Region 3) governing the use of the frequency assignments in the 821-824/866-869 MHz bands.¹ On June 12, 1998, Region 3 submitted a proposed amendment to its plan that would revise the current channel allotments. The amendment also includes non-frequency assignment changes or corrections to the plan. In accordance with the Public Safety National Plan, each region is responsible for planning its use of public safety radio frequency spectrum in the 821-824/866-869 MHz bands.² The Commission is soliciting comments from the public before taking action.

Region 3 includes areas that are located within 110 km (68.4 miles) of the Mexican border. Accordingly, channel allotments and assignments in these areas must conform to the provisions of the Memorandum of Understanding (MOU) between the United States of America and Mexico that governs use of the 821-824/866-869 MHz bands within 110 km (68.4 miles) of the U.S./Mexican border.

Interested parties may file comments to the proposed amendment on or before September 28, 1998, and reply comments on or before October 13, 1998. Commenters should send original and five copies of comments to the Secretary, Federal Communications Commission, Washington, D.C. 20554 and should clearly identify them as submissions to Private Radio Docket 91-143 Arizona Public Safety Region 3.

Questions regarding this public notice may be directed to Joy Alford, Wireless Telecommunications Bureau (202) 418-0680.
