

CERTIFICATION

This Certification is filed in response to the Commission's June 15, 2007, *Memorandum Opinion and Order*, FCC 07-103, which permits analog cellular carriers, "in lieu of making a revised CGSA showing," to file a certification "at least 60 days before discontinuing analog service" which certifies that "discontinuance of AMPS service will not result in any loss of wireless coverage throughout the carrier's CGSA."

As required by the Commission's order I certify under penalty of perjury on this 11th day of December, 2008, that discontinuance of AMPS service on cellular Station **KNKQ427 CMA356B - Colorado 9 - Costilla** on or after February 18, 2008 will not result in any loss of wireless coverage throughout our CGSA.

Alan Wehe
President,
Blanca Telephone Company
