

ULS Public Access Release Notice

Effective Date: February 23, 2008

Description:

On February 23, 2008, ULS is implementing changes to the public access files to support an updated database schema in the Emissions table. This results in an expansion of a column length in the EM record type.

- The Emission record (EM) has 1 column whose length has been expanded.

Position	Data Element	Definition
12	Digital Mod Type	char(255)

- New special conditions have also been added. Please be sure to download them and update your system.
