

ULS Public Access Release Notice

Effective Date: **May 18, 2008**

Description:

On May 18, 2008, ULS is implementing changes to the public access files to support an updated database schema for the Market Partition and Market Frequency Tables. This results in the addition of a column in each table to allow determination of a Defined and Undefined Market Partition. The Undefined Partition Sequence Number column in the MP table has been renamed to Partition Sequence Number and the Market Partition Code column in the MF table has been renamed to Partition Sequence Number and is now defined as an integer instead of char(6).

- The Market Partition (MP) has 1 column added and one column renamed.

Position	Data Element	Definition
1	Record Type [MP]	char(2)
2	Unique System Identifier	numeric(9,0)
3	ULS File Number	char(14)
4	EBF Number	varchar(30)
5	Call Sign	char(10)
6	Market Partition Code	char(6)
7	Area to be Partitioned	varchar(60)
8	Population of Partitioned Area	numeric(9,0)
9	Include Exclude Indicator	char(1)
10	Partition Sequence Number	integer
11	Action Performed	char(1)
12	Census Figures	integer
13	Def_Undef_Ind	char(1)

- The Market Frequency (MF) has 1 column added and one column renamed.

Position	Data Element	Definition
1	Record Type [MF]	char(2)
2	Unique System Identifier	numeric(9,0)
3	ULS File Number	char(14)
4	EBF Number	varchar(30)
5	Call Sign	char(10)
6	Partition Sequence Number	integer
7	Lower Frequency	numeric(16,8)
8	Upper Frequency	numeric(16,8)
9	Def_Undef_Ind	char(1)

- Several Other table columns have been renamed to make them more descriptive as well as to make it easier to build a database using the FCC's table structure file or to include missing columns within the documentation . These changes will not affect table structures currently being used.

The changes are:

- *L5 Table:* - Added UBS File number and EBF Number, and re-numbered rows that follow.
 - *L6 Table:* - Added UBS File number and EBF Number, and re-numbered rows that follow.
 - *F6 Table:* -Added EBF Number, and re-numbered rows that follow.
 - *CO Table:* -Changed "date" to "Comment Date" to be more descriptive, and match update to pa_ddef37.txt
 - *HS Table:* -Changed "date" to "Log Date" to be more descriptive, and match update to pa_ddef37.txt
 - *CO Table:* -Changed "date" to "Comment Date" to be more descriptive, and match update to pa_ddef37.txt
 - *F4 Table:* -Changed "Offset" to "Frequency Offset" to be more descriptive, and match update to pa_ddef37.txt
- The pa_intro21.doc and pa_intro21.pdf file has been updated to update Radio Service groups and to show the joins for the MP and MF tables for the new columns.

The changes are:

- *Table 5: Radio Services Included in Download Files*
 - Added MD and VX to BRS & EBS
 - Added SG, SP, SY to Land Mobile – Private
 - Added AW, BA, BB, CJ, WP, WU, WY to Market Based Services
 - Changed WZ to "700 MHz Lower Band (Blocks C, D) "
 - Removed LP, LP, RP from Land Mobile – Private
 - Added LV to Land Mobile – Broadcast Auxiliary
 - Edited wording of GE, YE, YJ (in Land Mobile – Private) to add words that were chopped off before.
 - *Pg. 12, 3rd to last para:* "License data for market-based services can be joined by the following combination of columns:"
 - Updated information on joining tables, using the new defined/undefined fields.
- New special conditions have also been added. Please be sure to download them and update your system.
