WIRELESS TELECOMMUNICATIONS BUREAU TO CONDUCT MORE UNIVERSAL LICENSING SYSTEM (ULS) INTERACTIVE DEMONSTRATIONS IN JANUARY 2000

Demos on License/Application Search and Microwave Application Filings Scheduled January 20 and 27

The Federal Communications Commission's (FCC's) Wireless Telecommunications Bureau (WTB) will conduct additional interactive demonstrations of its Universal Licensing System (ULS) in January 2000. WTB also is seeking comments and suggestions from those interested in attending such demonstrations in order to better coordinate and design the events.

ULS is a new, interactive licensing system developed by the Bureau to consolidate and replace eleven existing licensing systems used to process applications and grant licenses in wireless services. ULS provides numerous benefits, including fast and easy electronic filing, improved data accuracy through automated edit checking of applications, and enhanced electronic access to licensing information.

WTB will conduct the demonstrations as follows:

January 20 – License Search and Application Search (with an emphasis on Microwave filings) from 9:30 am until noon, and Microwave Application Filings in ULS from 1:00 pm until 4:00 pm.

January 27 – the same schedule as the January 20 demonstrations.

The demonstrations will be held in the ITC Training Room on the 12th Street level (main entrance level) of the Portals building at 445 12th Street, S.W. WTB has chosen the above topics based on comments from previous demonstrations and will add, delete or modify future demonstrations as interest dictates. The Bureau plans to hold ULS demonstrations on additional wireless services as they are deployed. Comment also is requested as to whether WTB should hold interactive demonstrations at its Gettysburg, PA, office, and on future topics for the demonstrations.

Parties interested in attending the demonstration and/or providing comments should contact Randy Byrd at (202) 418-0584, or via e-mail at rbyrd@fcc.gov. *Please specify which session(s) you would like to attend and provide a telephone number and e-mail address at which you can be contacted.* You may also indicate what specific service(s) are of most interest to you. Seating is limited and will be assigned on a first come, first served basis. Requests will be limited to one attendee per session per organization, company or firm. *Note:* The ITC Training Room accommodates up to 14 persons per session, and an attendee may have to share a computer monitor with another attendee.
