### Product Labeling

Do all hearing aid-compatible handsets include labeling? Yes

Explain:

Do all hearing aid-compatible handsets that are capable of voice communication over any air interface or frequency band that does not have hearing aid compatibility technical standards under ANSI C63.19-2007 include the required language disclosing that the handset has not been rated for hearing aid compatibility with respect to such operations? Yes

Explain:

Do all hearing aid-compatible handsets that the manufacturer also tested and found not to meet hearing aid compatibility requirements under ANSI C63.19-2011 for one or more operations that are not covered under ANSI C63.19-2007, include language informing users by clear and effective means that the handset does not meet the relevant rating or ratings with respect to such operation(s)?

N/A

Explain:

Do all handsets that are capable of use for Voice over LTE, and that were certified for inductive coupling capability under ANSI C63.19-2011 without being tested for inductive coupling capability over VoLTE, include language disclosing that they were not tested with respect to this operation?

N/A

Explain:

Do all handsets that meet the criteria for an M3 rating by allowing the user to reduce the maximum power for GSM operation in the 1900 MHz band include the required disclosure?

Explain:

### Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? Yes

Website address: <http://www.inlandcellular.com/main>

Explain:

### Consumer Outreach

Describe consumer outreach efforts in the past 12 months: In 2012, Inland Cellular offered only HAC-compliant handsets. Inland Cellular continued to train their retail employees to identify and provide information regarding HAC compliant handsets and potentially useful accessories to Inland Cellular's current and prospective subscribers. Inland Cellular believes that one of the most efficient ways to disseminate information to its customers is at the point of sale. Inland Cellular will continue to educate its retail staff on HAC issues and the developing technology offered through the equipment manufacturers, so that their retail staff will remain a valuable information resource for Inland's current and prospective subscribers.

Inland Cellular will continue to build on their efforts to educate both their potential subscribers and their current subscribers on the HAC compliant handsets being offered:

(1) Inland Cellular continues to supply its retail staff with informational materials concerning the compliant handsets and accessories. Inland Cellular also continues to provide informational literature at its retail stores concerning compliant handsets and accessories as it becomes available and the number of HAC compliant phones increases.

(2) Inland Cellular remains committed to regularly updating its web site as new HAC handset information becomes available, calling attention to the HAC compliant handsets, as well as accessories that may be helpful to persons with hearing disabilities; and

(3) Signs have been installed at each point of sale station along with updated information about HAC compliant handsets and other related accessories.

### Methodology for Functionality Levels

Inland Cellular's hearing aid compatibility offerings encompass the entire range of handset functionalities. For illustrative purposes, Inland Cellular has designated its various categories as "High", "Mid" and "Basic." While some individual models may differ slightly, the descriptions below provide a general illustration of the types of features and characteristics typical of the models within each category.

High: Smart phones, data capable, e-mail capable

Mid: Media capable, text messaging, touch screen

Basic: Basic voice and text messaging capabilities

### Report Remarks

In previous Form 655 filings, it was reported that Inland Cellular Telephone Company is the General Partner of Eastern Sub-RSA Partnership and Washington RSA No. 8 Limited Partnership. A pro forma transfer of control recently took place that will shortly be reported to the Commission.

You have reported the following handset model summary information.
