

Federal Communications Commission

Hearing Aid Compatibility Status Report (FCC Form 655)

Reporting Period: January 1, 2012 - December 31, 2012

Filing Confirmation Number: 0005605623

Filing Deadline: January 15, 2013

FRN: 0001843432

Filing Date: 01/15/2013 07:39 PM

General Report Information

Type of Company

Service Provider

De Minimis Exception

Did you offer any handsets to subscribers in the United States during the reporting period? Yes

Have you been offering handsets in the United States for at least three years prior to the end of the reporting period? Yes

Date that you began offering handsets in the United States

Are you a small entity? Yes

Were you a small entity at any time during the three years prior to the end of the reporting period?

Date that you ceased to be a small entity?

Company Information

Company Name: American Samoa License, Inc.

Brand Names: Apple
HTC
Motorola
Nokia
Samsung

PO Box: 478

Street Address: 478 Laufou Shopping

City: Pago Pago

State: AS

Zip Code: 96799

Contact Name: Adolfo Montenegro

Contact Phone: (684) 699-2759

Contact Fax: (684) 699-6593

Contact Email: amontenegro@bluesky.as

Filing Agent

Is this report being filed by an agent on behalf of a manufacturer or service provider? No

Product Labeling

Do all hearing aid-compatible handsets include labeling? Yes

Explain:

Do all hearing aid-compatible handsets that are capable of voice communication over any air interface or frequency band that does not have hearing aid compatibility technical standards under ANSI C63.19-2007 include the required language disclosing that the handset has not been rated for hearing aid compatibility with respect to such operations? Yes

Explain:

Do all hearing aid-compatible handsets that the manufacturer also tested and found not to meet hearing aid compatibility requirements under ANSI C63.19-2011 for one or more operations that are not covered under ANSI C63.19-2007, include language informing users by clear and effective means that the handset does not meet the relevant rating or ratings with respect to such operation(s)?

N/A

Explain:

Do all handsets that are capable of use for Voice over LTE, and that were certified for inductive coupling capability under ANSI C63.19-2011 without being tested for inductive coupling capability over VoLTE, include language disclosing that they were not tested with respect to this operation?

N/A

Explain:

Do all handsets that meet the criteria for an M3 rating by allowing the user to reduce the maximum power for GSM operation in the 1900 MHz band include the required disclosure?

Yes

Explain:

Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? Yes

Website address: www.bluesky.as

Explain:

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: Bluesky maintains a public website displaying a selection of handsets and devices, including those that are HAC-compliant. Bluesky's sales staff are trained to assist existing and prospective customers in identifying HAC-compliant handsets and devices. Existing or prospective customers can typically find whether a handset or device is HAC compliant by either checking packaging containing the handset/device or by consulting the packaging insert or operations manual. Our staff receives HAC training once a year and as they join our company so that they are equipped to assist our customers. We only have one retail location for our entire operation.

Methodology for Functionality Levels

Bluesky offers HAC handsets and devices in at least three price categories - low cost (less than \$100), mid-range (\$100-\$250) and high end feature rich (more than \$250). Our sales staff is trained as they join the company and then annually on HAC and on the handsets we sell our customers. They are able to assist our customers in selecting the HAC functionality that meets customer needs and present the handsets that best meet functionality and price requirements.

Report Remarks

N/A

You have reported the following handset model summary information.

Total number of handsets offered: 41

Air Interface	Fully Hearing Aid Compatible		Acoustic Coupling Compatible Only		Non-Compliant Handsets		Excluded Handsets Number	Total by Air Interface
	Number	Percent	Number	Percent	Number	Percent		
GSM	14	34%	6	15%	21	51%		41
WCDMA	2	25%	1	13%	5	63%		8
