Hearing Aid Compatibility Status Report (FCC Form 655)

Reporting Period: January 1, 2014 - December 31, 2014

Filing Confirmation Number: 0006618475

Filing Deadline: January 15, 2015

FRN: 0014045504

Filing Date: 01/13/2015 09:27 PM

General Report Information

Type of Company

Service Provider

De Minimis Exception

Did you offer any handsets to subscribers in the United States during the reporting period? Yes

Have you been offering handsets in the United States for at least three years prior to the end of the reporting period? Yes

Date that you began offering handsets in the United States

Are you a small entity? Yes

Were you a small entity at any time during the three years prior to the end of the reporting period?

Date that you ceased to be a small entity?

Company Information

Company Name: Van Buren Wireless, Inc.
Brand Names: iWireless
PO Box: 430
Street Address: 617 First St.
City: Keosauqua
State: IA
Zip Code: 52565

Contact Name: Kevin Hranicka
Contact Phone: (319) 293-3187
Contact Fax:
Contact Email: hranicka@netins.net

Filing Agent

Is this report being filed by an agent on behalf of a manufacturer or service provider? Yes

Agent Name: Blooston Mordkofsky Dickens Duffy & Prendergast, LLP
PO Box:
Street Address: 2120 L Street, NW Suite 300
City: Washington
State: DC

Contact Name: D. Cary Mitchell
Contact Phone: (202) 828-5538
Contact Fax:
Contact Email: cary@bloostonlaw.com

Product Labeling

Do all hearing aid-compatible handsets include labeling? Yes

Explain:

Do all hearing aid-compatible handsets that are capable of voice communication over any air interface or frequency band that does not have hearing aid compatibility technical standards under ANSI C63.19-2007 include the required language disclosing that the handset has not been rated for hearing aid compatibility with respect to such operations? Yes

Explain:

Do all hearing aid-compatible handsets that the manufacturer also tested and found not to meet hearing aid compatibility requirements under ANSI C63.19-2011 for one or more operations that are not covered under ANSI C63.19-2007, include language informing users by clear and effective means that the handset does not meet the relevant rating or ratings with respect to such operation(s)? Yes

Yes

Explain:

Do all handsets that are capable of use for Voice over LTE, and that were certified for inductive coupling capability under ANSI C63.19-2011 without being tested for inductive coupling capability over VoLTE, include language disclosing that they were not tested with respect to this operation?

N/A

Explain:

Do all handsets that meet the criteria for an M3 rating by allowing the user to reduce the maximum power for GSM operation in the 1900 MHz band include the required disclosure?

Explain:

Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? No

Website address:

Explain: Van Buren Wireless, Inc. (the "Company") is a small rural service provider that provides service in conjunction with the iWireless network. The Company does not operate its own web site, but its parent company, Van Buren Telephone Company, Inc., maintains a web site with basic information about its service offerings at www.vbtelco.com. Because the Company lacks the personnel and resources necessary to maintain an extensive site (and because such resources are better used for extending service to rural and underserved areas), information about the Company's iWireless service and a complete list of handset offerings is provided at <http://www.iwireless.com/store/Phones.aspx>. An explanation of the HAC rating system, along with links to industry resources, a list of compliant devices and their compatibility ratings, a description of the Company's methodology for determining handset functionality and information on other wireless accessibility options for the deaf and hard of hearing are readily available to the public at <http://www.iwireless.com/support/customer-service/hearing-aid-compatibility.aspx>.

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: The Company has instructed its sales staff about the

availability of hearing-aid compatible phone models and it has wireless industry pamphlets available in its company store to provide information on the FCC requirements and HAC rating system. Additional information about hearing aid compatibility is available on the iWireless web site at <http://www.iwireless.com/support/customer-service/hearing-aid-compatibility.aspx>.

Methodology for Functionality Levels

Basic phones (entry-level devices offered for \$10 or less); Feature phones (devices with more advanced features and capabilities offered for more than \$10); and Smartphone/PDAs (devices that run complete operating system software as a platform for application developers).

Report Remarks

Carrier may offer certain handsets that are capable of operating on more than one air interface. Carrier currently operates only on the GSM air interface. The Commission has made it clear that the HAC handset phase-in requirements specified in Section 20.19(c)(3) apply only "for each air interface it offers." Report and Order, 18 FCC Rcd 16753 (2003) at Para. 53. Moreover, these handset phase-in requirements are triggered only after a service provider has begun offering service using a particular air interface. Memorandum Opinion and Order, 22 FCC Rcd 7171 (2007) at Para. 60.

You have reported the following handset model summary information.

Total number of handsets offered: 44

Air Interface	Fully Hearing Aid Compatible		Acoustic Coupling Compatible Only		Non-Compliant Handsets		Total by Air Interface
	Number	Percent	Number	Percent	Number	Percent	
GSM	28	64%	8	18%	8	18%	44
WCDMA	24	73%	6	18%	3	9%	33
Wi-Fi	23	72%	6	19%	3	9%	32
