Describe consumer outreach efforts in the past 12 months: True Wireless provides hearing aid compatibility information for customers through a prominent link on the front page of our website. HAC information is also available at each of our corporate-operated retail stores, where consumers may test handset models for suitability with their hearing aids.

### Methodology for Functionality Levels

True Wireless designated its handsets into functionality classifications based on the objective criteria provided by handset manufacturers. Handsets with touch-screen and rich access to media were classified as smartphones. Handsets with small screens and limited navigational functionality were classified as basic handsets. Other handsets were classified as mid-range handsets.
