In the Matter of
Communications Pacific, Inc., Conditional Grantee for License EA 173C (Guam - Northern Mariana), Auction No. 16

ORDER

Adopted: July 6, 2000
Released: July 7, 2000

I. INTRODUCTION

1. In this order, the Commercial Wireless Division of the Wireless Telecommunications Bureau sets forth the default payment obligations for Communications Pacific, Inc. (Communications Pacific) resulting from its failure to timely remit the total required payment on a license for which it was the winning bidder in Economic Area (EA) 173C (Guam-Northern Mariana), Auction No. 16. As discussed below, Communications Pacific is in default on its full payment obligations for this 800 MHz Specialized Mobile Radio (SMR) geographic license and is subject to an initial default deposit in the amount of $14,352.00. We also dismiss the long-form license application filed by Communications Pacific.

II. BACKGROUND

2. On December 8, 1997, the Commission completed its auction of 525 licenses for the upper 200 channels of the SMR service in the 800 MHz band. After review, the FCC long-form application (FCC Form 601) submitted by Communications Pacific for the 800 MHz SMR license in EA 173C (Guam-Northern Mariana) was accepted for filing. On September 11, 1998, the Wireless Telecommunications Bureau, under delegated authority, conditionally granted Communications Pacific's application. That license grant was conditioned upon the full and timely payment of the remaining balance of Communications Pacific's winning bid within ten business days. Communications Pacific did not submit full and timely payment of the remaining balance and, thereby, defaulted on its obligation under the Commission’s rules.

3 Public Notice, FCC Announces the Grant of One 800 MHz SMR License, 13 FCC Rcd. 17834 (1998) (requiring full and timely payment of the remaining balance of the applicant’s winning bid by September 25, 1998). Communications Pacific also withdrew a high bid for the 800 MHz SMR license in EA 173B and was assessed an initial withdrawal deposit in the amount of $14,586.00. See Auction No. 16 Closing PN, Attachment B (the Auction No. 16 License Number and Block Designator was YCE173B, see n.11, infra).

III. DISCUSSION

3. Under the Commission's rules, a winning bidder that fails to timely remit the required full payment is deemed to have defaulted on its auction payment obligations. Defaulters are subject to a payment comprised of two components that are added together to calculate the full default payment. The first component of the default payment is the difference between the gross defaulted bid and the gross subsequent winning bid, or the difference between the net defaulted bid and the net subsequent winning bid, whichever is less. In the event that the difference between either the gross bids or the net bids, as calculated above, is less than or equal to zero, the first component of the payment will be set to zero. The second component of the payment is computed by taking three percent of the subsequent winning bid or the defaulted bid, whichever is less. When a bidding credit applies to the winning bid from either the original or the subsequent auction, the calculation of the three percent payment is based on the smaller of the two gross bids or smaller of the two net bids, whichever basis (gross or net) was used to figure the first component. Thus, if the difference between the gross bids is less than the difference between the net bids, the three percent payment will be computed on the lower of the gross bids. If the difference between the net bids is less than or equal to the difference between the gross bids, the three percent payment will be computed on the lower of the net bids. However, if the differences between both the gross bids and the net bids are less than or equal to zero, three percent payment will be computed on the lower of the net bids.

4. The purpose of the default payment provisions, section 1.2104(g)(2) of the Commission's rules, is to assure that the winning bidder is obligated to pay the full amount of its winning bid (less any mitigation of damages arising from a subsequent auction of the spectrum) even if the winning bidder defaults or is determined to be disqualified and is never granted a license. The winning bidder's contractual obligation to pay the winning bid thus becomes fixed and established at the close of the auction. A winning bidder that defaults on its full payment obligation will, therefore, be required to make the Commission whole for the amount of the winning bid, subject to any mitigation of damages produced by the subsequent auction of the license (or licenses) for the same spectrum.

6  47 C.F.R. § 1.2104(g).
7  The gross bid is the dollar amount bid, exclusive of any bidding credits. The net bid is the dollar amount bid taking account of any bidding credit for which the high bidder is eligible under Commission Rules.
8  See In the Matter of Baker Creek Communications, L.P. for Authority to Construct and Operate Local Multipoint Distribution Services in Multiple Basic Trading Areas, Order, 14 FCC Rcd. 11529, 11532 (¶ 3)(WTB/PSPWD: 1999).
9  See In the Matter of Request for Waiver of Section 1.2104(g) of the Commission’s Rules Filed by Grand Connectivity L.L.C., Order, 14 FCC Rcd. 13943, 13945 (¶ 5) (WTB/Auctions: 1999) (Grand Connectivity Order).
5. Because the license for market EA 173C will be included in the next auction of 800 MHz SMR spectrum, which has not yet been held, we cannot at this time determine the full amount of the default payment owed by Communications Pacific. The Commission has stated that in such instances it will assess an initial default deposit of between three (3) and twenty (20) percent of the defaulted bid price until the full amount of the default payment can be determined. As the Commission noted in a previous case, three percent is the minimum amount that a defaulting winning bidder like Communications Pacific could owe even under the most favorable circumstances.

6. Therefore, pursuant to Commission practice, we will assess an initial default deposit of $14,352.00, which is three percent of Communications Pacific’s net winning defaulted bid for the 800 MHz SMR license in EA 173C. Communications Pacific’s upfront payment, first down payment, and initial withdrawal deposit payment totaling $110,266.00 will be applied to this initial default deposit (EA 173C) and the initial withdrawal payment deposit (EA 173B). If additional payment is required after Auction 34, a second order will be issued to assess the amount due.

IV. ORDERING CLAUSES

7. Accordingly, IT IS ORDERED that, pursuant to Sections 4(i) and 309 of the Communications Act, as amended, 47 U.S.C. §§ 154(i), 309, and Section 1.2104 of the Commission's Rules, 47 C.F.R. § 1.2104, that the application, File No. 0000000020, filed by Communications Pacific, Inc., IS DISMISSED.

8. IT IS FURTHER ORDERED that, pursuant to section 4(i) of the Communications Act of 1934, as amended, 47 U.S.C. § 154(i), and section 1.2104(g) of the Commission’s rules, 47 C.F.R. § 1.2104(g), Communications Pacific IS ASSESSED an initial default deposit of $14,352.00.
